Proceedings of the Ninth International Joint Conference on Artificial Intelligence International Joint Conferences on Artificial Intelligence, 1985 *Database Systems for Advanced Applications* YoonJoon Lee, Jianzhong Li, Kyu-Young Whang, Doheon Lee, 2004-02-12 The 9th International Conference on Database Systems for Advanced Applications DASFAA 2004 was held during March 17-19, 2004 on the beautiful Jeju island of Korea. The DASFAA conference provides an international forum for technical discussions among researchers, developers, and users of database systems from academia, business, and industry. The main focus of DASFAA is on research in database theory, development of advanced DBMS technologies, and their advanced applications. A premier database conference in the Asia Pacific region, DASFAA has been held every two years and in many countries in the region. To promote the area further and to answer the needs of many participants, the steering committee decided to hold the conference annually. DASFAA 2004 was the first such annual conference. The conference was organized by the Special Interest Group on Databases SIGDB of the Korea Information Science Society and the Advanced Information Technology Research Center AITrc at KAIST, an engineering research center of excellence, ERC supported by the Korea Science and Engineering Foundation KOSEF. We had a number of sponsors who made generous contributions to make the conference successful. They are Oracle Korea, Samsung SDS Korea, Telecom Data Inc., the United States Air Force Office of Scientific Research, the Asian Office of Aerospace Research Development, the Army Research Office Far East, and the Korea Advanced Institute of Science and Technology KAIST.

Advances in Database Technology - EDBT 2004 Elisa Bertino, Stavros Christodoulakis, Dimitris Plexousakis, Christophides Vassilis, Manolis Koubarakis, Klemens Böhm, Elena Ferrari, 2004-02-12 The 9th International Conference on Extending Database Technology EDBT 2004 was held in Heraklion, Crete, Greece during March 14-18, 2004. The EDBT series of conferences is an established and prestigious forum for the exchange of the latest research results in data management. Held every two years in an attractive European location, the conference provides unique opportunities for database researchers, practitioners, developers, and users to explore new ideas, techniques, and tools and to exchange experiences. The previous events were held in Venice, Vienna, Cambridge, Avignon, Valencia, Konstanz, and Prague. EDBT 2004 had the theme "new challenges for database technology" with the goal of encouraging researchers to take a greater interest in the current exciting technological and application advancements and to devise and address new research and development directions for database technology. From its early days, database technology has been challenged and advanced by new uses and applications, and it continues to evolve along with application requirements and hardware advances. Today's DBMS technology faces yet several new challenges. Technological trends and new computation paradigms and applications such as pervasive and ubiquitous computing, grid computing, bioinformatics, trust management, virtual communities, and digital asset management, to name just a few, require

database technology to be deployed in a variety of environments and for a number of different purposes. Such an extensive deployment will also require trustworthy resilient database systems as well as easy to manage and exible ones to which we can entrust our data in whatever form they are.

Pliny and the Eruption of Vesuvius Pedar W. Foss, 2022-03-29 Pliny and the Eruption of Vesuvius is a forensic examination of two of the most famous letters from the ancient Mediterranean world Pliny the Younger's Epistulae 6.16 and 6.20 which offer a contemporary account of the eruption of Vesuvius in AD 79. These letters sent to the historian Tacitus provide accounts by Pliny the Younger about what happened when Mt Vesuvius exploded destroying the surrounding towns and countryside including Pompeii and Herculaneum and killing his uncle Pliny the Elder. This volume provides the first comprehensive full length treatment of these documents contextualized by evidence rich biographies for both Plinys and a synthesis of the latest archaeological and volcanological research which answers questions about the eruption date. A new collation of sources results in a detailed manuscript tradition and an authoritative Latin text while commentaries on each letter offer copiously referenced insights on their structure style and meaning. Pliny and the Eruption of Vesuvius offers a thorough companion to these letters and to the eruption which will be of interest not only to those working on Vesuvius Pompeii and Herculaneum and the works of Pliny but also to general readers. Latin students and scholars of the Roman world more broadly.
