Seit dem Tode Mao Zedongs im Jahr 1976 kämpft die Kommunistische Partei Chinas um einen innerparteilichen und gesellschaftlichen Konsens zum Umgang mit ihren eigenen historischen Fehlern. Immer wieder werden offizielle Narrative sowohl durch zivilgesellschaftliche Akteure als auch aus dem Inneren der Partei heraus in Frage gestellt bzw. kritisiert. Anhand der Entwicklung unterschiedlicher offizieller und inoffizieller Narrative zur Kampagne gegen Rechtsabweichler 1957/1958 lässt sich erkennen, dass der Kampf um das kollektive Gedächtnis insbesondere im China unter Xi Jinping eine langanhaltende

zentrale politische Herausforderung für die nachhaltige Stabilisierung der Herrschaftslegitimation der KPCh darstellt

Timo Waldhauser untersucht, ob Emerging Markets zwingend den Trittspuren der Industrieländer folgen müssen und präsentiert mit seiner Methode zur Unternehmensentwicklung alternative Optionen. Die beispielhafte Darstellung anhand der Versicherungsbranche illustriert einen neuartigen Business Development Prozess und gibt konkrete Handlungsempfehlungen für die Strategieentwicklung in der Volksrepublik China.

How China Escaped Shock Therapy Isabella M. Weber, 2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country's rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that

shaped China's path In the first post Mao decade China's reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia's economy collapsed under shock therapy Based on extensive research including interviews with key Chinese and international participants and World Bank officials as well as insights gleaned from unpublished documents the book charts the debate that ultimately enabled China to follow a path to gradual reindustrialization Beyond shedding light on the crossroads of the 1980s it reveals the intellectual foundations of state market relations in reform era China through a *longue durée* lens Overall the book delivers an original perspective on China's economic model and its continuing contestations from within and from without Geschichte Chinas

opening salvo of the Soviet charm offensive in Asia Pacific The problem Radchenko points out was that no one in Asia bought into Gorbachev's vision If the Soviets had realized earlier that they needed Asia more than Asia needed them they might have played a much more important role there Instead China was largely misunderstood early gains in India were squandered Japan was ignored or condescended to and the Korean scenario played out in ways most unfavorable to Russia Radchenko captures all of this in his compelling narrative shedding important new light on many key players including Gorbachev Deng Xiaoping Margaret Thatcher Boris Yeltsin and George H W Bush among others Based on archival research in Russia China Mongolia India the United States Britain and numerous European countries and on interviews with former policy makers in a dozen countries *Unwanted Visionaries* presents a deftly narrated and penetrating portrait of the Soviet failure in the East with a wealth of valuable insight into Asia today
