Floor Plan Manual Housing Third Revised And Expanded Edition:

Floor Plan Manual Housing Oliver Heckmann, Friederike Schneider, 2017-10-10 Revised edition of the reference work The Floor Plan Manual Housing has for decades been a seminal work in the field of architecture In its 5th revised and expanded edition approximately 160 international housing projects built after 1945 are documented and analyzed The focus is on exemplary and transferrable projects and on innovative and trendsetting concepts The systematic representation of all projects allows the reader to compare and evaluate various floor plans and to be inspired by the wealth of ideas and strategies for one's own design work The introductory theoretical and historical essays have been newly written or updated and offer a structured overview of the residential housing typology and its development Fifth revised edition with new projects and contributions With upgraded visual appearance and a new key color Access to the content is facilitated by various index functions

Floor Plan Manual Oliver Heckmann, Friederike Schneider, 2012-12-13 This housing construction design manual documents and analyzes some 130 international residential structures from the last fifty years From the standardized floor plans of the 1960s to the more individual concepts of the 1980s and the changed requirements and housing types of recent years example structures by famous and lesser known architects from throughout the world showcase the tremendous variety of possible designs The categorization of projects from a town planning perspective is supplemented by the detailed typological description of the relevant housing types Every project is presented with its typical floor plans to a scale of 1:200 sections site plans and photographs illuminate each building's structure and situation In addition to incorporating some forty new projects this new edition now contains figure ground diagrams that highlight the most salient features of the floor plans making them even easier to compare

High-Density Housing Christian Schittich, 2012-12-17 In view of the growing number of diverse life styles the search for flexible adaptable floor plans has become a fundamental issue in residential building That the continued demand in urban centres can only be responsibly satisfied by high density housing is undisputed More than ever before building high density housing is a diverse and challenging task for planners and architects This book presents international projects which document the complexity of the task from the design of the floor plans the development and use of resources to the use of economically beneficial building systems The high quality of the architecture and construction in such residential areas can be clearly seen in the uniform illustrations of the floor plans and large scale drawings of details The introductory contributions discuss extensively the topic of floor plan design and development This book is a comprehensive review of the current state of residential building the perspectives and future developments

Courtyard Houses Günter Pfeifer, Per Brauneck, 2007-10-05 To continue developing existing building types in an intelligent way is a crucial task in the field of residential building A deeper understanding of the underlying types is indispensable for the success of the individual design as well as for ensuring that tried and tested structures can be utilized repeated and varied in a wide variety of situations For this typology of residential

buildings the authors have developed systematic new presentations of the most innovative types Each individual volume lays out the possibilities for using and transforming a particular form of residential structure The first volume deals with the various types of the courtyard house which utilizes the courtyard as an intimate outdoor living space A presentation of the courtyard as a building block of the city is followed by coverage of the complete spectrum of types cluster network carpet terraces etc The second volume is devoted to the various types of row house a particularly widespread form of residential structure A general discussion of the row as organizing principle the row as urban building block linear space ways of handling corners is followed by the systematic presentation of the different types Within each type variants are distinguished according to how they organize space their number of floors etc The range of possible solutions is presented in uniform ground plans newly drawn to scale

Row Houses Günter Pfeifer, Per Brauneck, 2007-10-05 Die intelligente Weiterentwicklung von Bautypen ist eine wesentliche Aufgabenstellung im Wohnungsbau Für den einzelnen Entwurf ebenso wie für die breite Verwendbarkeit Wiederholbarkeit und Variation von erprobten Strukturen ist das vertiefte Verständnis der zugrunde liegenden Typen unverzichtbar Für die Wohnungsbautypologie haben die Autoren neue systematische Darstellungen über die innovativsten Typen entwickelt In den einzelnen Bänden werden die Anwendungs- und Transformationsmöglichkeiten jeweils einer bestimmten Wohnbauform entfaltet Der erste Band behandelt die Typen des Hofhauses die den Hof als intimen Außenraum des Wohnens nutzen Einer Darstellung des Hofes als Stadtbaustein folgt ein umfassendes Typenspektrum Cluster Netz Teppich Hofreite Terrassen etc Der zweite Band widmet sich den Typen des Reihenhauses einer besonders weit verbreiteten Wohnform Auf die bergreifende Erörterung des Prinzips Reihe Reihe als Stadtbaustein der lineare Raum und die Ecklungen etc folgt die systematische Darstellung der unterschiedlichen Typen Innerhalb eines jeden Typs werden Varianten nach verschiedenen Erschließungsformen Geschossigkeit etc unterschieden Das Spektrum der Lösungen ist in einheitlich und maßstäblich neu gezeichneten Grundrissen und Schnitten aufgearbeitet

We Have Never Been Private Ioanna Piniara, 2025-05-08 This book serves as a provocative and thought provoking entry point into the exploration of housing typologies and urban forms challenging traditional notions of privacy and shedding light on the complex interplay between architecture individuality and community Piniara goes beyond a mere analysis of physical spaces encompassing narratives for the decolonization of housing typologies urging readers to reconsider established norms and envision more inclusive equitable and culturally diverse urban landscapes

Freestanding Houses Günter Pfeifer, Per Brauneck, 2009-10-16 To continue developing existing building types in an intelligent way is a crucial task in the field of residential building For the success of the individual design as well as for ensuring that tried and tested structures can be utilized repeated and varied a deeper grasp of the underlying types is indispensable For this typology of residential buildings the authors have developed systematic new presentations of the most innovative types Each individual volume lays out the possibilities for using and transforming a particular form of residential structure The fourth volume deals with the types of

freestanding houses whose all around orientation allows for the optimal arrangement of all dwellings A presentation of the freestanding house as an isolated element and as a building block for larger structures is followed by discussions of topics such as self sufficiency versus neighborhoods Raumplan versus plan libre and individuality versus density Within each type variants are distinguished according to type of access number of floors etc The range of possible solutions is presented in uniform ground plans and sections newly drawn to scale
