Dr. Albert Schweitzer, Joseph Stalin ... Pierre H. Dubois,1951 **Dr. Albert Schweitzer, Joseph Stalin** Pierre Hubert Dubois,1952 **Political History and Culture of Russia** ,2000 Scholarly articles dealing with political events in Russia up to 1991 Documents on Israeli-Soviet Relations, 1954-1967 Yaacov Ro'i,Yehoshua Freundlich,Boris Morozov,2025-05-19 This book spanning the years 1961 1964 is the third in a four part collection of documents from the archives of the Russian Federation s Ministry of Foreign Affairs and the Israel State Archives portraying relations between the Soviet Union and the State of Israel Most of the documents are communications composed by successive Soviet ambassadors in Israel and Israeli ambassadors in Moscow and their respective staffs They illustrate the way Soviet ideology placed Israel irreparably in the enemy western camp in the Cold War Moscow s attempt to manipulate Israel into a seemingly neutral position in the international arena was therefore a ploy the failure of which was a foregone conclusion Israel s efforts to normalize relations between the two states were by turns genuine and unserious and similarly doomed to fail both because of ongoing Soviet arms supplies to Egypt and Syria which Israel perceived as a major threat to its security and because the Israeli government and public felt a commitment to the well being of the Soviet Jewish minority that they saw as deprived of basic rights The book will be of interest to scholars and students of Soviet foreign policy Israel s formative years the Arab Israeli conflict and Soviet Jewry and it will be a must for university libraries **Introduction to Special Education' 2007 Ed. ,2007 Story of the Negro** Arna Bontemps,1955 The story of how Africans lived were captured and brought to the New World as slaves were emancipated and their struggles for freedom throughout **History of Macrobiotics (1715-2017)** William Shurtleff; Akiko Aoyagi,2017-09-30 The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographical index 345 photographs and illustrations mostly color Free of charge in digital format on Google Books **Will War Ever End?** Paul Chappell,2011-05-31 Once in a great while a book is written that substantially changes the way people think about a particular subject Will War Ever End is such a book Written as a manifesto for waging peace by an active duty captain in the US Army Will War Ever End challenges readers to think about peace war and violence in radically new ways Are human beings naturally violent What is hatred How can love overcome the power of hatred How does nonviolence overcome the power of violence How can we prove that unconditional love makes us psychologically healthy and that hatred just like an illness occurs when something has gone wrong How does violence against the natural world relate to violence between human beings These are all questions that Captain Paul K Chappell leads us to consider in a strikingly new way In Will War Ever End Chappell demonstrates that human beings are naturally peaceful and that world peace can become more than a clich He lays out a practical framework for transforming the way we think about war and violence enabling us to begin the real work we must do in order to achieve true peace for mankind Will War Ever End is a deeply personal story of a soldier s search for human understanding that will lead to

universal transformation Its message is one of hope offering practical solutions to help us build a better world We can all make change Now is the time to begin

Psychiatry and Psychology in the USSR Samuel Corson, 2012-12-06 This book is aimed at a professional audience of psychiatrists psychologists and educators as well as Slavic studies scholars and teachers and intelligent lay readers It would be presumptuous to attempt to cover the entire field of Soviet psychiatry and psychology in one modest volume During the past several decades there has been a remarkable flourishing and diversification of research in psychology and psychiatry in the USSR What we have attempted to do in this symposium is to present a constructive critical overview of certain limited areas by arranging an interchange of observations and ideas between several American scientists knowledgeable in these fields and a psychologist and psychiatrist who obtained their education and working experience in the USSR We hope to be able to expand such symposia in the future so as to cover other important areas of these disciplines This monograph presents an eyewitness account of Pavlov by W Horsley Gantt one of three surviving students of Pavlov and to the best of my knowledge the only American who actually studied and worked with Pavlov It is a measure of Dr Gantt's devotion to the development of scientific psychiatry that he went to the USSR to spend six years in Pavlov's laboratory at a time of extreme economic hardship and political turmoil in that country and in the face of having to master a difficult language In his presentation Dr

Reinventing Leadership Barbara Kellerman, 1999-02-11 In a striking departure from past practices Barbara Kellerman explores the fact that although we persist in viewing political and business leadership separately the similarities between them far outweigh the differences Kellerman claims that thinking of government and corporate leaders as a breed apart contributes to the dysfunctional gap between them and she argues that in order to tackle those political economic and social problems that are the most intractable political and business leaders will have no choice but to work together

Unarmed Forces Matthew Evangelista, 2018-08-06 Throughout the Cold War people worldwide feared that the U S and Soviet governments could not prevent a nuclear showdown Citizens from both East bloc and Western countries among them prominent scientists and physicians formed networks to promote ideas and policies that would lessen this danger Two of their organizations the Pugwash movement and the International Physicians for the Prevention of Nuclear War won Nobel Peace Prizes Still many observers believe that their influence was negligible and that the Reagan administration deserves sole credit for ending the Cold War The first book to explore the impact these activists had on the Soviet side of the Iron Curtain Unarmed Forces demonstrates the importance of their efforts on behalf of arms control and disarmament Matthew Evangelista examines the work of transnational peace movements throughout the Khrushchev Brezhnev and Gorbachev eras and into the first years of Boris Yeltsin's leadership Drawing on extensive research in Russian archives and on interviews with Russian and Western activists and policymakers he investigates the sources of Soviet policy on nuclear testing strategic defense and conventional forces Evangelista concludes that transnational actors at times played a crucial role in influencing

Soviet policy specifically in encouraging moderate as opposed to hard line responses for they supplied both information and ideas to that closed society Evangelista's findings challenge widely accepted views about the peaceful resolution of the Cold War By revealing the connection between a state's domestic structure and its susceptibility to the influence of transnational groups Unarmed Forces will also stimulate thinking about the broader issue of how government policy is shaped *Subject Catalog, 1980* Library of Congress, 1980

Dr. Space Robinson J Ward, 2009-09-01 Written by veteran aerospace journalist Bob Ward who spent years investigating his subject this biography presents a revealing but even handed portrait of the father of modern rocketry As he chronicles Werner von Braun's life Ward explodes many myths and misconceptions about the controversial genius who was a hero to some a villain to others The picture of von Braun that emerges is of a brilliant scientist with limitless curiosity and a drive to achieve his goals at almost any price from developing the world's first ballistic missile used against the Allies in World War II to helping launch the first U S satellite that hurled Americans into space and the Saturn V super booster that powered them to the moon Along the way readers are introduced to the human side of this charismatic visionary who brought the United States into the Space Age Congressional Record United States. Congress, 1991 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

Retreat Matthew Ingram, 2020-12-08 What have the hippies ever done for us Matthew Ingram explores the relationship between the summer of love and wellness medicine and health The counterculture of the Sixties and the Seventies is remembered chiefly for music fashion art feminism computing black power cultural revolt and the New Left But an until now unexplored yet no less important aspect both in its core identity and in terms of its ongoing significance and impact is its relationship with health In this popular and illuminating cultural history of the relationship between health and the counterculture Matthew Ingram connects the dots between the beats yoga meditation psychedelics psychoanalysis Eastern philosophy sex and veganism showing how the hippies still have a lot to teach us about our wellbeing *Subject Catalog* Library of Congress, *The World Wars - 1871-1945* Ruben Ygua, 2025-08-20 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That's how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact

place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day which for now covers from 1789 to 1946 divided into five collections
