The Making of Tom Cat William Garden, 2004-12 You'll enjoy this part-story, part-boatbuilding manual of a small beetle cat-like boat from a legendary designer with probably more of his creations built than any other person. You'll find out not only how the boat is built but also how the design came to be from someone with a long lifetime of fooling around with boats. As told from Toad's Landing on an island off British Columbia, it becomes quite apparent that whimsy and fun are not limited to young boys and girls. The first

thing you may notice about Tom Cat is the handsome cuddy The next thing to realize is she is constructed with a combination of the traditional plank on frame carvel and modern epoxy for the seams The result is a rugged boat which doesn't require the swelling of planks or the recaulking of seams in the years to come If you are just too pure a traditionalist for epoxy of course you can plank and caulk
