develop the first book for class VIII Class VIII is the foundation for board exams and therefore I felt this is the right time to start strengthening our knowledge skills and abilities The book is designed in such a way that all required methods from Vedic math are covered here and the student need not refer to any other book to learn the basics Secondly numbers data are represented in pictorial format or charts wherever appropriate This certainly simplifies the learning I have explained principles wherever relevant This shall help the pupil to understand them further and apply them confidently
