Proceedings of the 3rd Annual Conference of Education and Social Sciences (ACCESS 2021)

Amrullah Amrullah, Lovy Herayanti, Tesha Sengupta-Irving, Yeo Sook Fern, Fathoroni Fathoroni, Imran Imran, 2023-02-10 This is an open access book Faculty of Teacher Training and Education of the University of Mataram proudly presents the 4th Annual Conference on Education and Social Science ACCESS in 2022 ACCESS is an iconic international scientific forum which discusses new ideas and innovations especially those related to education and pedagogy generally in relation to sciences and technology Since 2019 ACCESS has been attended by hundreds of participants from various different countries such as the United States Malaysia Australia Philippines Japan Singapore and so on *Cognitive Development for Academic Achievement* James P. Byrnes, 2021-09-01 This integrative text spotlights what educators need to know about children's cognitive development across grade levels PreK 12 and content areas The book provides a concise introduction to developmental neuroscience and theories of learning Chapters on general cognitive abilities probe such crucial questions as what children are capable of remembering at different ages what explains differences in effort and persistence and how intelligence and aptitudes relate to learning Domain specific chapters focus on the development of key academic skills in reading writing math science and history Multiple influences on academic achievement and motivation are explored including school family cultural and socioeconomic factors Each chapter concludes with clear implications for curriculum and instruction Boredom in the Classroom Gayle L. Macklem, 2015-01-05 This brief synthesizes current findings on the many aspects of chronic student boredom its relationship with negative academic emotional and health outcomes and what professionals can do to best address it Citing the complexity of this common student emotion the author spotlights boredom susceptibility during the critical K 12 years The brief analyzes cognitive and emotional attributes of boredom and identifies emotional skills that can be strengthened to counteract it In addition the volume features strategies for educators and school counselors to reduce boredom both internally and in class This stimulating volume Argues that boredom shouldn't be ignored

or dismissed as a passing phase Examines various types of boredom as well as gender and cultural differences Explores boredom in the contexts of anxiety and depression and in non school situations Provides theory on causes of boredom in students Details how student self regulation motivation and engagement can be improved Describes specific roles teachers and mental health professionals can play in controlling boredom Boredom in the Classroom is an essential resource for researchers scientist practitioners clinicians and graduate students in the fields of child and school psychology educational psychology social work and related disciplines **Action Research in Teaching and Learning** Lin Norton,2018-11-02

Practical and down to earth the second edition of Action Research in Teaching and Learning is an ideal introduction to the subject offering a distinctive blend of the theoretical and the practical grounded firmly in the global higher education landscape Written in an accessible style to build confidence it provides easily adaptable practical frameworks guidelines and advice on research practice within a higher education context The reader is guided through each stage of the action research process from engaging with the critical theory to the practical applications with the ultimate goal of providing a research study which is publishable Supplemented by useful pedagogical research tools and exemplars of both qualitative and quantitative action research studies this new edition features chapters engaging with teaching excellence and analysing qualitative and quantitative research additions to the resources section and a new preface focusing more explicitly on the ever growing number of part time academics Action Research in Teaching and Learning combines a theoretical understanding of the scholarly literature with practical applications and is an essential critical read for any individual teaching or undertaking action research **Teaching for Learning** Claire Howell Major,Michael S. Harris,Todd D.

Zakrajsek,2015-08-27 Despite a growing body of research on teaching methods instructors lack a comprehensive resource that highlights and synthesizes proven approaches Teaching for Learning fills that gap Each of the one hundred and one entries describes an approach and lists its essential features and elements demonstrates how that approach has been used in education including specific examples from different disciplines reviews findings from the research literature describes techniques to improve effectiveness Teaching for Learning provides instructors with a resource grounded in the academic knowledge base written in an easily accessible engaging and practical style Educational Psychology Anita Woolfolk,2004

Adapting to Teaching and Learning in Open-Plan Schools Vaughan Prain,Peter Cox,Craig Deed,Debra Edwards,Cathleen Farrelly,Mary Keeffe,Valerie Lovejoy,Lucy Mow,Peter Sellings,Bruce Waldrip,Zali Yager,2014-11-26 In recent years many countries have built or renovated schools incorporating open plan design These new spaces are advocated on the basis of claims that they promote fresh productive ways to teach and learn that address the needs of students in this century resulting in improved academic and well being outcomes These new approaches include teachers planning and teaching in teams grouping students more flexibly developing more coherent and comprehensive curricula personalising student learning experiences and providing closer teacher student relationships In this book we report on a three year study

of six low SES Years 7-10 secondary schools in regional Victoria Australia where staff and students adapted to these new settings. In researching this transitional phase we focused on the practical reasoning of school leaders, teachers and students in adapting organisational, pedagogical and curricular structures to enable sustainable new learning environments. We report on approaches across the different schools to structural organisation of students in year level groupings, distributed leadership, teacher and pre-service teacher professional learning, student advocacy and wellbeing, use of technology-mediated learning, personalising student learning experiences and curriculum design and enactment. We found that these new settings posed significant challenges for teachers and students and that successful adaptation depended on many interconnected factors. We draw out the implications for successful adaptation in other like settings.

Packaging Digital Information for Enhanced Learning and Analysis: Data Visualization, Spatialization, and Multidimensionality Hai-Jew, Shalin, 2013-08-31. With higher education turning towards data analytics as the next big advance in technology, it is important to look at how information is gathered and visualized for accurate comprehension, analysis and decision making. Packaging Digital Information for Enhanced Learning and Analysis: Data Visualization, Spatialization and Multidimensionality brings together effective practices for the end-to-end capture and web-based presentation of information for comprehension, analysis and decision making. This publication is beneficial for educators, trainers, instructional designers, web designers and graduate students interested in improving analytical tools.

Ensuring Learning Christine Harrington, 2020-08-15. Ensuring Learning: Supporting Faculty to Improve Student Success is the second book in a two-book series. This book highlights the importance of teaching and learning in student success reform and is a deep dive into the fourth pillar, ensuring learning of Guided Pathways, which is a national movement focused on increasing the number of college students who earn a degree or credential. It emphasizes how institutional strategies such as investing in faculty development through Centers for Teaching and Learning and revising reward structures can significantly improve student achievement and completion rates. This book calls for colleges to prioritize teaching and learning and provides college leaders with guidance on how to do so. For example, strategies to develop and enhance Centers for Teaching and Learning and increase professional development programming that provides ongoing substantial support to faculty are shared. Readers will benefit from numerous practical suggestions on how to help faculty improve teaching and learning practices and ultimately improve student success outcomes.

Designing Technology-Mediated Case Learning in Higher Education Choon Lang Gwendoline Quek, Qiyun Wang, 2023-01-02. This book collects case studies in design and application of technology-mediated case-based learning models in higher education. It provides a much-needed updated synthesis of recent research and application of technology-mediated case-based learning across disciplines within higher education. The book does not only provide a broad perspective and deep understanding on the designs and instructional applications of technology-mediated case-based learning models but also inspire more interest in adopting or inventing new situated case-based learning models in the context of higher

Jenlink,2020-03-30 A Commitment to Teaching Toward More Efficacious Teacher Preparation introduces the reader to a collection of thoughtful works by authors that represent current research and thinking about teacher self efficacy and teacher preparation It is the intent of the book to provide the reader with current and relevant knowledge concerning preparation of committed and efficacious teachers Teacher self efficacy and the presence of teacher efficacy in teacher preparation and practice is fundamental to preparing teachers for the public school classroom As a construct teacher self efficacy beliefs are an integral aspect of the teaching process While many authors refer to teachers sense of self efficacy for teaching meaning their beliefs about their ability to perform the actions necessary to teach many others have identified a specific form of self efficacy pertaining to teaching These have been called teaching or teacher efficacy Chapter One opens the book with a focus on the

teacher commitment and self efficacy providing the reader with an introduction The authors of Chapters Two Seven present field based research that examines the complexities efficacy and commitment in the preparation of teachers Each chapter offers the reader an examination of teacher self efficacy and teacher preparation and based on formal research that provides the reader with insight into how the research study was conducted as well as equally important the findings and conclusions drawn with respect teacher self efficacy and teacher preparation Finally Chapter Nine presents an epilogue that focuses on the for more efficacious teacher preparation

New Digital Technology in Education Wan Ng, 2015-04-25 This book addresses the issues confronting educators in the integration of digital technologies into their teaching and their students learning Such issues include a skepticism of the added value of technology to educational learning outcomes the perception of the requirement to keep up with the fast pace of technological innovation a lack of knowledge of affordable educational digital tools and a lack of understanding of pedagogical strategies to embrace digital technologies in their teaching This book presents theoretical perspectives of learning and teaching today s digital students with technology and propose a pragmatic and sustainable framework for teachers professional learning to embed digital technologies into their repertoire of teaching strategies in a systematic coherent and comfortable manner so that technology integration becomes an almost effortless pedagogy in their day to day teaching The materials in this book are comprised of original and innovative contributions including empirical data to existing scholarship in this field Examples of pedagogical possibilities that are both new and currently practised across a range of teaching contexts are featured

Test-Enhanced Learning Kristian Still, 2023-02-02 Written by Kristian Still Test Enhanced Learning A practical guide to improving academic outcomes for all students is an informative guidebook that explores the wealth of evidence behind and the benefits of test enhanced learning spaced retrieval practice and personalisation Detailing the most up to date research into improving learning and retention it takes us on a journey into test enhanced learning spaced retrieval practice motivation metacognition and personalisation In so doing the book provides a blueprint for all teachers and schools to improve the academic outcomes of their students and to achieve this in ways that improve the motivation of learners and reduces the workload for teachers Kristian Still has been developing these ideas with his classes for many years and has achieved considerable success in terms of the direct learning gains and improved assessment grades of his pupils and the indirect gains in students growing confidence in lessons with a wider group of pupils contributing to class and improved classroom behaviour Consequently students are finding greater comfort in class and experiencing less pressure or underpreparedness when a question is asked The book is supported by the free Remembermore app which uses digital flashcards as an aid to deliver the learning gains of personalised spaced retrieval practice providing teachers with insights into the effectiveness of their own teaching It also contains a number of practical case studies from teachers using these techniques and the app to produce great results in their schools Spaced retrieval practice is a highly effective but counter intuitive revision technique in that it involves forgetting and relearning knowledge

Test Enhanced Learning provides a blueprint for motivating students to adopt this technique in favour of seemingly easier but less effective techniques such as re-reading. Moreover, the Remembermore app does most of the convincing for you. It is a tool not only to provide the flashcards for retrieval practice but also to demonstrate the power of the technique to pupils. The book goes a step beyond mere retrieval practice, offering a fresh approach to test-enhanced learning, both pretesting and post-testing, supported by real classroom-based routines that have been tried and tested by both Primary and Secondary teachers across a range of subjects. Exploring the research behind test-enhanced learning, it reveals that both pretesting and post-testing retrieval practice offers improved memorisation and secures long-term learning. Suitable for all teachers in all settings.

The Impact of Pen and Touch Technology on Education Tracy Hammond, Stephanie Valentine, Aaron Adler, Mark Payton, 2015-07-09. This book presents perspectives for and by teachers, school and university administrators and educational researchers regarding the great impact pen and tablet technology can have on classrooms and education. It presents three distinctly valuable threads of research: Emerging technologies and cutting-edge software invented by researchers and evaluated through real classroom deployments; First-hand perspectives of instructors and administrators who actively implement pen or tablet technologies in their classrooms; Up-and-coming systems that provide insight into the future of pen-touch and sketch-recognition technologies in the classrooms and the curriculums of tomorrow. *The Impact of Pen and Touch Technology on Education* is an essential read for educators who wish to get to grips with ink-based computing and bring their teaching methods into the twenty-first century as well as for researchers in the areas of education, human-computer interaction and intelligent systems for pedagogical advancement.
