Handbook of Research on Mixed Methods Research in Information Science Ngulube, Patrick, 2021-11-26

Mixed methods research is becoming prevalent in many fields yet little has been done to elevate mixed methods research in information science. A comprehensive picture of information science and its problems is needed to further understand and address the issues associated with it as well as how mixed methods research can be adapted and used. The Handbook of Research on Mixed Methods Research in Information Science discusses the quality of mixed methods studies and methodological transparency, sampling in mixed methods research, and the application of theory in mixed methods research throughout various contexts. Covering topics such as the issues and potential directions for further research in mixed methods, this comprehensive major reference work is ideal for researchers, policymakers, academicians, librarians, practitioners, instructors, and students.

Managing Electronic Records Julie McLeod, Catherine Hare, 2005. One of the biggest challenges faced by any organization today is that of managing electronic records, a vital but complex undertaking involving multiple roles within the organization and strategies that are still evolving. Bringing together for the first time the views, experience, and expertise of international experts in the records management field in the public and the private sectors, this book covers the theory and practice of managing electronic records as business and information assets. It focuses on the strategies, systems, and procedures necessary to ensure that electronic records are appropriately created, captured, organized, and retained over time to meet business and legal requirements. In addition to chapters covering principles, research, and developments, there are case studies relating to practice and lessons learned. The chapters are written by a fully international line up of contributors. Readership: This book explores issues and addresses solutions not only for records professionals but also for information IT and business administration specialists who as key stakeholders in managing electronic information may have taken on crucial roles in managing electronic records in their organization. It will also be a key textbook for records management courses.

Domesticating Information Carol E. B. Choksy, 2006-10-12. Domesticating Information: Managing Documents Inside the Organization examines records and documents as complex business objects and explores the many different perspectives required for their management. Viewing documents as business objects requires a much different perspective from treating them as cultural artifacts where preservation is the primary concern. When viewed as business objects, documents must be looked at in terms of integration with business processes in defense of litigation subpoenas or in the implementation of information technology. As a consequence, records managers are business analysts and therefore are treated as such in this book. How information technology, the law, archives, and library information science scholarship address and affect document and records management are all considered. Topics covered include how to manage documents and records in any environment: hard copy vs. electronic documents and how to create a foundation for managing records that addresses the needs of business and government. By addressing the needs of business and government, the needs of citizens, business web stakeholders, and

archivists are also fully addressed Building an Electronic Records Archive at the National Archives and Records Administration National Research Council, Computer Science and Telecommunications Board, Committee on Digital Archiving and the National Archives and Records Administration, 2005-07-28 The federal government generates and increasingly saves a large and growing fraction of its records in electronic form In 1998 the National Archives and Record Administration NARA launched its Electronic Archives ERA program to create a system to preserve and provide access to federal electronic records To assist in this project NARA asked the NRC to conduct a two phase study to provide advice as it develops the ERA program The first two reports phase one provided recommendations on design engineering and related issues facing the program This report phase two focuses on longer term more strategic issues including technology trends that will shape the ERA system archival processes of the ERA and future evolution of the system It also provides an assessment of technical and design issues associated with record integrity and authenticity Managing Historical Records Programs Bruce W.
