The Baroness Hannah Rothschild, 2013-03-19 Beautiful romantic and spirited Pannonica known as Nica named after her

father's favorite moth was born in 1913 to extraordinary eccentric privilege and a storied history. The Rothschild family had in only five generations risen from the ghetto in Frankfurt to stately homes in England. As a child Nica took her daily walks dressed in white with her two sisters and governess around the parkland of the vast house at Tring, Hertfordshire, among kangaroos, giant tortoises, emus, and zebras, all part of the exotic menagerie collected by her uncle Walter. As a debutante she was taught to fly by a saxophonist and introduced to jazz by her brother Victor. She married Baron Jules de Koenigswarter, settled in a chateau in France, and had five children. When World War II broke out, Nica and her five children narrowly escaped back to England, but soon after she set out to find her husband who was fighting with the Free French Army in Africa, where she helped the war effort by being a decoder, a driver, and organizing supplies and equipment. In the early 1950s Nica heard *Round Midnight* by the jazz pianist and composer Thelonious Monk, and as if under a powerful spell abandoned her marriage and moved to New York to find him. She devoted herself to helping Monk and other musicians; she bailed them out of jail, paid their bills, took them to the hospital, even drove them to their gigs, and her convertible Bentley could always be seen parked outside downtown clubs or up in Harlem. Charlie Parker would notoriously die in her apartment in the Stanhope Hotel. But it was Monk who was the love of her life and whom she cared for until his death in 1982. Hannah Rothschild has drawn on archival material and her own interviews in this quest to find out who her great aunt really was and how she fit into a family that although passionate about music and entomology was reactionary in always favoring men over women. Part musical odyssey, part love story, *The Baroness* is a fascinating portrait of a modern figure ahead of her time who dared to live as she wanted, finally at the very center of New York's jazz scene. Grounded in anthropological comparison and the concept of materiality, this book offers an in-depth ethnographic study of the similarities and differences among various forms of religious practices in a Pentecostal Church, Christ Embassy, and an Islamic group, NASFAT, in the Nigerian capital of Abuja. Scholarship in this area tends to focus on inter-religious contestations and conflicts; however, this book proposes that another dynamic is unfolding between Christians and Muslims that is characterized by conviviality, interfaith joint action, programmes, mutual influences, and even the exchange of religious forms. The comparative approach reveals that notwithstanding the seemingly opposed worldviews and divergences between Muslims and Christians, they all face similar challenges and apply similar techniques for meeting the challenges posed by the precarious Nigerian urban environment. It is through practices, especially those conducted in semi-public settings, that people from different religious persuasions define, encroach on, and feel the weight of each other's presence. **Iraq: perceptions, realities, and cost to complete** United States. Perceptions of Gulf Security Li-Chen Sim, Jonathan Fulton, 2022-11-28 Gulf stability is coming to play a larger role in the foreign policy calculus of many states but the evolving role of Asian powers is largely under represented in the International Relations literature This volume addresses this gap with a set of empirically rich theory driven case studies written by academics from or based in the countries in question The underlying assumption is not that Asian powers have already become important security actors in the Gulf but rather that they perceive the Gulf as a region of increasing strategic relevance How will leaders in these countries adjust to an evolving regional framework Will there be coordinated efforts to establish an Asian centered approach to Gulf stability or will Asian rivalries make the region a theater of competition Will US China tensions force alignment choices among Asian powers Will Asian states balance bandwagon hedge or adopt some other approach to their Gulf relationships These questions become even more important as the western boundaries of Asia increasingly come to incorporate the Middle East The book will appeal to scholars and students in the fields of International Relations Security Studies and International Political Economy as well as area specialists on the Gulf and those working on foreign policy issues on each of the Asian countries included Professionals in government and non government agencies will also find it very useful The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Powerful Patriots** Jessica Chen

Weiss, 2014 Why has the Chinese government sometimes allowed and sometimes repressed nationalist anti foreign protests What have been the international consequences of these choices Anti American demonstrations were permitted in 1999 but repressed in 2001 during two crises in US China relations Anti Japanese protests were tolerated in 1985 2005 and 2012 but banned in 1990 and 1996 Protests over Taiwan the issue of greatest concern to Chinese nationalists have never been allowed To explain this variation in China's response to nationalist mobilization Powerful Patriots argues that Chinese and other authoritarian leaders weigh both diplomatic and domestic incentives to allow and repress nationalist protests Autocrats may not face electoral constraints but anti foreign protests provide an alternative mechanism by which authoritarian leaders can reveal their vulnerability to public pressure Because nationalist protests are costly to repress and may turn against the government allowing protests demonstrates resolve and increases the domestic cost of diplomatic concessions Repressing protests by contrast sends a credible signal of reassurance facilitating diplomatic flexibility and signaling a willingness to spend domestic political capital for the sake of international cooperation To illustrate the logic the book traces the effect of domestic and diplomatic factors in China's management of nationalist protest in the post Mao era 1978 2012 and the consequences for China's foreign relations *iraq: perceptions, realities and cost to complete* , **Engines of Change**

Human Rights, Intervention, and the Use of Force Philip Alston, Euan Macdonald, 2008-09-11 The imperatives of sovereignty human rights and national security very often pull in different directions yet the relations between these three different notions are considerably more subtle than those of simple opposition Rather their interaction may at times be contradictory at others tense and at others even complementary This collection presents an analysis of the irreducible dilemmas posed by the foundational challenges of sovereignty human rights and security not merely in terms of the formal doctrine of their disciplines but also of the manner in which they can be configured in order to achieve persuasive legitimacy as to both methods and results The chapters in this volume represent an attempt to face up to these dilemmas in all of their complexity and to suggest ways in which they can be confronted productively both in the abstract and in the concrete circumstances of particular cases
