### **Irony and**

**Religious Belief** Gregory L. Reece, 2002 The concept of irony is difficult to pin down difficult to capture This book is a critical examination of how Soren Kierkegaard and the pragmatist Richard Rorty approach the complex subject of irony Gregory L Reece traces the development of the philosophical concept of irony from Socrates to Hegel Schlegel Kierkegaard and Rorty while addressing the very question that is central for both Kierkegaard and Rorty the question of the relationship

of ironic philosophy to an ironic life Must ironic philosophy result in what Kierkegaard calls infinite absolute negativity or in what Rorty describes as doubt and meta stability Gregory L Reece argues that the answer is no and that the belief that it must is based on an important philosophical mistake which in different forms is committed by both the early Kierkegaard and by Rorty The insights of these philosophers as well as those developed by Wittgenstein are used to develop the beginning of an ironic philosophy of religion Specifically this work follows Kierkegaard and pursues these questions with special concern for the relation of ironic philosophy to religious belief *Producing Feminism* Jennifer S. Clark,2024-02-27 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more In this deeply archival work Jennifer S Clark explores the multiple ways in which women's labor in the American television industry of the 1970s furthered feminist ends Carefully crafted around an impressive assemblage of interviews and primary sources from television network memos to programming schedules production notes to executive meeting agendas Clark tells the story of how women organized in the workplace to form collectives affect production labor and develop reform oriented policies and philosophies that reshaped television behind the screen She urges us to consider how interventions often at localized levels can collectively shift the dynamics of a workplace and the cultural products created there *Dismantling the Dualisms for American Pentecostal Women in Ministry* Lisa Stephenson,2011-09-30 This book analyzes the historical and theological factors resulting in the present situation among American Pentecostal women in ministry and proposes a Feminist Pneumatological anthropology and ecclesiology that address the problematic dualisms that have perpetuated Pentecostal women's ecclesial restrictions **Routledge Handbook of Social and Cultural Theory** Anthony Elliott,2013-12-04 If today students of social theory read Jurgen Habermas Michel Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Stuart Hall and Slavoj Zizek The Routledge Handbook of Social and Cultural Theory offers a concise comprehensive overview of the convergences and divergences of social and cultural theory and in so doing offers a novel agenda for social and cultural research in the twenty first century This Handbook edited by Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are substantive chapters looking at among others structuralism and post structuralism critical theory network analysis feminist cultural thought cultural theory and cultural sociology Throughout the Handbook there is a strong emphasis on interdisciplinarity with chapters drawing from research in sociology cultural studies psychology politics anthropology women's studies literature and history Written in a clear and direct style this Handbook will appeal to a wide undergraduate and postgraduate audience across the social sciences and humanities *Queer Ancient Ways* Zairong Xiang,2018 *Queer Ancient Ways* advocates a profound unlearning of colonial modern categories as a pathway to the discovery of new forms and theories of

queerness in the most ancient of sources In this radically unconventional work Zairong Xiang investigates scholarly receptions of mythological figures in Babylonian and Nahua creation myths exposing the ways they have consistently been gendered as feminine in a manner that is not supported and in some cases actively discouraged by the texts themselves An exercise in decolonial learning to learn from non Western and non modern cosmologies Xiang s work uncovers a rich queer imaginary that had been all but lost to modern thought in the process critically revealing the operations of modern colonial systems of gender sexuality and knowledge formation that have functioned from the Conquista de America in the sixteenth century to the present to keep these systems in obscurity At the heart of Xiang s argument is an account of the way the unfounded feminization of figures such as the Babylonian co creatrix Tiamat and the Nahua creator figures Tlaltecuhltli and Coatlicue is complicit with their monstrification This complicity tells us less about the mythologies themselves than about the dualistic system of gender and sexuality within which they have been studied underpinned by a consistent tendency in modern colonial thought to insist on unbridgeable categorical differences By contextualizing these deities in their respective mythological linguistic and cultural environments through a unique combination of methodologies and critical traditions in English Spanish French Chinese and Nahuatl Xiang departs from the over reliance of much contemporary queer theory on European post modern thought Much more than a queering of the non Western and non modern Queer Ancient Ways thus constitutes a decolonial and transdisciplinary engagement with ancient cosmologies and ways of thought which are in the process themselves revealed as theoretical sources of and for the queer imagination
