deeper and deeper into their addiction They discuss their shame humiliation and dejection under the throes of the compelling forces of drugs and alcohol They also describe how their family other nurses the healthcare system and society assisted them in perpetuating their deception and denial about their disease They explain how they lied stole and cheated those around them to maintain their addiction Each explains in detail the confrontations and the jolt and wake up call it took for them to awaken become sober and truly enter recovery They are all candid and forthright in order to help others that are impacted by this horrific and complex disease They each share how recovery is possible when appropriate attitudes and tools are put in place to support nurses suffering from the devastation of addiction Their stories bring attention to the importance of intervention treatment and recovery communities within the nursing profession Recovery is emphasized as a gift by each of these nurses The nurses and the researcher provide suggestions and recommendations to assist the healthcare community in addressing addiction in nursing This book reveals how recovery for nurses is a major public health benefit
