Federal Courts in Context Erwin Chemerinsky, Seth Davis, Fred O. Smith, Norman W. Spaulding, 2023-06-23 Federal Courts deservedly has the reputation of being an exceptionally difficult course and this book is designed to make it accessible to students by providing the context of cases and doctrines as well as explaining their relevance to the issues being litigated in the 21st century Federal Courts in Context supports what pedagogic research calls deep learning It does so by framing federal jurisdiction and structural constitutional law using clear concise explanations of the social and historical context of canonical cases to reveal the concrete stakes of traditional debates about federal judicial power The result is an engaging accessible and richly textured account of the subject supporting not only more sophisticated doctrinal and jurisprudential analysis but also the necessary foundation for inclusive pedagogy in the training of diverse 21st century lawyers The focus is on canonical cases and their context rather than notoriously dense treatise like material common to other books in the field The book is also organized to dovetail with Erwin Chemerinsky's Federal Jurisdiction to maximize the accessibility of the casebook content and learning outcomes Benefits for instructors and students Structured to pair with the most commonly used secondary reference in the field Erwin Chemerinsky's Federal Jurisdiction Focuses on canonical cases and excerpts rather than long dense notes and treatise like material Directly addresses the structural constitutional significance of the Civil War Reconstruction Amendments and the retreat from Reconstruction for federalism the modern Court's federalism revival and separation of powers Makes explicit the influences of Indian Removal allotment and the late nineteenth century extension of American empire on doctrines of sovereignty jurisdiction plenary power and non Article III courts Provides interdisciplinary contextualization of the labor movement the New Deal and the reproductive rights movement to enrich analysis of reverse Erie cases the rise of the administrative state agency adjudication and standing Marries doctrinal and theoretical precision about the course's core concepts federalism separation of powers the Supremacy Clause and jurisdiction with legal realist sensibilities and attention to how ordinary people are affected by structural constitutional law rather than abstractions Socratic questions without answers or other pedagogic techniques divorced from the research on deep learning

Crime, Procedure and Evidence in a Comparative and International Context John D Jackson, Maximo Langer, 2008-09-29 This book aims to honour the work of Professor Mirjan Dama ka Sterling Professor of Law at Yale Law School and a prominent authority for many years in the fields of comparative law procedural law evidence international criminal law and Continental legal history Professor Dama ka's work is renowned for providing new frameworks for understanding different legal traditions To celebrate the depth and richness of his work and discuss its implications for the future the editors have brought

together an impressive range of leading scholars from different jurisdictions in the fields of comparative and international law evidence and criminal law and procedure Using Professor Dama ka s work as a backdrop the essays make a substantial contribution to the development of comparative law procedure and evidence After an introduction by the editors and a tribute by Harold Koh Dean of Yale Law School the book is divided into four parts The first part considers contemporary trends in national criminal procedure examining cross fertilisation and the extent to which these trends are resulting in converging practices across national jurisdictions The second part explores the epistemological environment of rules of evidence and procedure The third part analyses human rights standards and the phenomenon of hybridisation in transnational and international criminal law The final part of the book assesses Professor Dama ka s contribution to comparative law and the challenges faced by comparative law in the twenty first century

Jurisdiction and Cross-Border Collective Redress Alexia Pato,2019-07-11 In recent decades the rise in cross border law violations has harmed numerous victims around the globe The damages are often dispersed and low level As a result the private enforcement gap has deepened and collective redress represents an interesting procedural instrument that is able to provide effective access to justice This book analyses thoroughly the dominant collective redress models adopted in the EU Data from 13 Member States has been catalogued and categorised The research mainly focuses on the consumer law field but frequent references to financial and data protection related cases are made The dominant collective redress models are then studied from a private international law perspective In particular the book highlights the current mismatch between collective redress on the one hand and rules on international jurisdiction on the other Additionally it notes that barriers to cross border litigation remain significant for victims and their representatives The unprecedented empirical study included in this book confirms that statement Observing that EU measures have not satisfactorily lowered those barriers the author proposes the creation of a new head of jurisdiction for cases of international collective redress This book will be of interest to private international law scholars researchers students legal practitioners judges and policy makers It is a reference point for those with an interest in cross border collective redress in particular and private international law in general
