Feminism And Global Justice New Directions In Critical Criminology:

Feminism and Global Justice Kerry Carrington, 2014-10-17 In this book Kerry Carrington takes a bold critical and reflexive approach to understanding the global divisions and inequalities that shape distinctive patterns of gender and crime. The book argues that in order for feminist criminology to enhance its conceptual and political relevance in the twenty first century bold new directions in scholarship on gender crime and global justice are required that also take into account global divisions and inequalities. Issues explored in the book include the forced marriage of child brides, female genital mutilation, femicide, honour crimes, rape and domestic violence and the systemic denial of female rights justified by religion, custom or culture. It also explores rising rates of violence recorded for women offenders globally and their increasing participation in terrorism as well as troubling male on male violence in anomic spaces cultivated by globalising forces. *Feminism and Global Justice* argues that the world needs feminism more than ever to address systemic, culturally shaped and diverse forms of injustice experienced by females across the globe. Many of them children. It will be essential reading for international and national human rights organisations as well as academics and students engaged in the study of criminology, development studies, sociology, politics and gender studies.

Gender Responsive Justice Karen Evans, 2017-07-20 At the end of the twentieth century a step change in thinking about the offending behaviour of women began to impact on policy makers concerned with the treatment of female offenders. A growing number of nations, states and organisations, both national and supra national in nature, began to acknowledge that existing criminal justice and especially penal practices had not been sufficiently attentive to women's needs and had discriminated against women as a result. The concept of gender responsive justice, an orientation to working with women and girls based around a consideration of the special needs of women as prisoners and their particular pathways to offending, has been developed as a result. This book explores the development of this concept, the theories which have informed it, policy arenas in which gender responsive justice has been attempted and the practices of gender responsive justice which have subsequently emerged. This book takes a global perspective as it outlines the different international and national arenas within which gender responsive justice gained favour and considers what has been learned from this novel and feminist inspired approach. Gender responsive justice has not been without its critics, however, and this book also examines the different arguments which have been used to attack or critique the concept from varied perspectives. This book lays down a clear theoretical framework for understanding gender responsive justice and will be useful in assessing current and future policy making in this area.

Facing Patriarchy Professor Bob Pease, 2019-10-15 *Facing Patriarchy* challenges current thinking about men's violence against women. Drawing upon radical and intersectional feminist theory and critical masculinity studies, the book locates men's violence within the structures and processes of patriarchy. Addressing the limitations of current violence prevention policies, Bob Pease argues that a nuanced conceptualisation of patriarchy that accounts for a variety of patriarchal structures, intersections with other forms of

inequality patriarchal ideologies men's peer group relations men's sexist practices and the construction of patriarchal subjectivities is required to understand the links between gender and men's violence against women Pease shows that men's violence against women needs to be understood in the context of other forms of men's violence including violence against boys and other men in the involvement of men in wars and conflicts between nations and men's ecologically destructive practices which constitute a form of slow violence With crucial implications for priorities in violence prevention gender equality promotion and in strategies for engaging men in this work Facing Patriarchy offers new hope for the elimination of men's violence This is an essential book for scholars practitioners activists and policy makers involved in violence prevention in national and international contexts Controversial Matters on Media Ethics Luis Alfonso Guadarrama Rico, 2016-11-14 In this volume several communication researchers deal with different moral controversial issues Communication and ethics are two faces of the same coin because communication is just the ability of the human being to respect the equal condition of others to their right to be informed of social matters Only when they have had right information about the public interest they can participate in their community as citizens In this book we collected different significant contributions on communication and the main current questions of moral dilemmas Criminology and Queer Theory Matthew Ball, 2016-07-13 This book offers critical reflections on the intersections between criminology and queer scholarship and charts future directions for this field Since their development over twenty five years ago queer scholarship and politics have been hotly contested fields equally embraced and dismissed Amid calls for criminology and criminal justice institutions to respond more effectively to the injustices faced by LGBTIQ people criminologists have recently developed a Queer Criminology and turned to queer scholarship in the process Through a sweeping analysis of critical criminologies as well as issues as varied as shame and utopian thought Matthew Ball points to the many opportunities for criminology to engage further with the more politically disruptive strands of queer scholarship His analysis highlights that criminology and queer theory are dangerous bedfellows and that navigating the tension between them is central to confronting the social and criminal injustices experienced by LGBTIQ communities This book will be of particular interest for scholars of criminology criminal justice LGBTIQ studies gender studies and critical theory **New Directions in Crime and Deviancy** Simon Winlow, Rowland Atkinson, 2013-06-07 Criminology is at a crossroads In the last two decades it has largely failed to produce the kind of new intellectual frameworks and empirical data that might help us to explain the high levels of crime and interpersonal violence that beset inner city areas and corrode community life Similarly it has failed to adequately explain forms of antisocial behaviour that are just as much a part of life in corporate boardrooms as they are in the ghettos of north America and the sink estates of Britain Criminology needs to rethink the problem of crime and re-engage its audience with strident theoretical analysis and powerful empirical data In New Directions in Crime and Deviancy some of the world's most talented and polemical critical criminologists come together to offer new ideas and new avenues for analysis The book

contains chapters that address a broad range of issues central to 21st century critical criminology ecological issues and the new green criminology the broad impact of neoliberalism upon our cultural and economic life recent signs of political resistance and opposition systemic and interpersonal forms of violence growing fear and enmity in cities the backlash against the women s movement the subjective pathology of the serial killer computer hacking and so on Based on key papers presented at the historic York Deviancy Conferences this cutting edge volume also contains important critical essays that address criminological research methods and the production of criminological knowledge It is key reading material for those with an academic interest in critical cultural and theoretical criminology and crime and deviance more generally Women, Crime and Justice in Context Anita Gibbs, Fairleigh Gilmour, 2022-01-17 Women Crime and Justice in Context presents contemporary feminist approaches to key issues in criminal justice It draws together key researchers from Australia and New Zealand to offer a context specific textbook that covers all of the major debates in the discipline in an accessible way This book examines both the foundational texts and cutting edge contributions to the topic and acknowledges the unique challenges and debates in the local Australian and New Zealand context Written as an entry level text it introduces undergraduate students to key theories and debates on the topics of offending victimization and the criminal justice system It explores key topics in feminist criminology with chapters exploring sex work prison abolitionism community punishment media representations of crime and victims and the impacts of digital technology on gendered violence Centring on an intersectional approach the book includes chapters that focus on disability queer criminology indigenous perspectives migration and service user perspectives The book concludes by exploring future directions in feminist approaches to crime and justice This book will be essential reading for undergraduates studying feminist criminology gender and crime queer criminology socio legal studies intersectionality sociology and criminal justice **Liquid Criminology** Michael Hviid Jacobsen, Sandra Walklate, 2016-06-17 This book explores the ways in which criminological methods can be imaginatively deployed and developed in a world increasingly characterized by the blurred nature of social reality Whilst recognizing the importance of positivist approaches and research techniques it advocates a commitment to understanding the ways in which those techniques can be used imaginatively at times in combination with less conventional methods discussing the questions concerning risk ethics and access that arise as a result Giving voice to cutting edge research practices both in terms of concepts and methods that shift the criminological focus towards the kind of imaginative work that comprised the foundations of the discipline it calls into question the utility and credentials of mainstream work that fails to serve the discipline itself or the policy questions allied to it A call not to give up on numbers but also not to be defined by statistics and the methods that produce them Liquid Criminology sheds light on a way of doing research for criminology that is not only creative but also critical As such it will appeal to scholars of sociology criminology and social policy with interests in research methods and design The Encyclopedia of Crime and Punishment Wesley G. Queer Criminology Carrie L. Buist, Emily Lenning, 2015-10-05 Winner of the 2016 Book Award from the American Society of Criminology Division of Critical Criminology In this book Carrie L Buist and Emily Lenning reflect on the origins of Queer Criminology survey the foundational research and scholarship in this emerging field and offer suggestions for the future Covering topics such as the criminalization of queerness the policing of Queer communities Queer experiences in the courtroom and the correctional control of Queer people Queer Criminology synthesizes the work of criminologists journalists legal scholars non governmental organizations and others to illuminate the historical and contemporary context of the Queer experience Queer Criminology offers examples of the grave injustices that Queer people face around the world particularly in places such as Russia Kyrgyzstan England India Thailand Nigeria and the United States These injustices include but are not limited to selective enforcement coerced confessions disproportionate sentencing rape extortion denial of due process forced isolation corporal punishment and death By highlighting a pattern of discriminatory disproportionate and abusive treatment of Queer people by the criminal legal system this book demonstrates the importance of developing a criminology that critiques the heteronormative systems that serve to oppress Queer people around the world Buist and Lenning argue that criminology is incomplete without a thorough recognition and understanding of these Queer experiences Therefore Queer Criminology is a vital contribution to the growing body of literature exploring the Queer experience and should be considered a necessary tool for students scholars and practitioners alike who are seeking a more just criminal legal system *Alternative Criminologies* Pat Carlen, Leandro Ayres França, 2017-08-10 *Alternative Criminologies* celebrates a kaleidoscopic process of permanent critique and a diversity of social and scientific knowledges It examines complex and global crime issues in light of the many alternative scientific artistic empathetic campaigning and otherwise imaginative criminologies that attempt to understand

Crime, Justice and Social Media Michael Salter, 2016-10-04 How is social media changing contemporary understandings of crime and injustice and what contribution can it make to justice seeking Abuse on social media often involves betrayals of trust and invasions of privacy that range from the public circulation of intimate photographs to mass campaigns of public abuse and harassment using platforms such as Facebook Twitter 8chan and Reddit forms of abuse that disproportionately target women and children *Crime Justice and Social Media* argues that online abuse is not discontinuous with established patterns of inequality but rather intersects with and amplifies them Embedded within social media platforms are inducements to abuse and harass other users who are rarely provided with the tools to protect themselves or interrupt the abuse of others There is a relationship between the values that shape the technological design and administration of social media and those that inform the use of abuse and harassment to exclude and marginalise diverse participants in public life Drawing on original qualitative research this book is essential reading for students and scholars in the fields of cyber crime media and crime cultural criminology and gender and crime

s Arab Spring Uprising to Afghani poetry as a means to resist state sanctioned patriarchal control case examples are used to highlight the pervasive and enduring problem of state perpetrated violence against women The exploration of topics that have not previously been addressed in the criminological literature such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state sanctioned patriarchal status quo makes State Crime Women and Gender a must read for students and scholars engaged in the study of state crime victimology and feminist criminology

Intersectionality and Criminology Hillary Potter, 2015-05-15 The use of intersectionality theory in the social sciences has proliferated in the past several years putting forward the argument that the interconnected identities of individuals and the way these identities are perceived and responded to by others must be a necessary part of any analysis Fundamentally intersectionality claims that not only are people's lived experiences affected by their racial identity and by their gender identity but that these identities and others continually operate together and affect each other With official statistical data that indicate people of Color have higher offending and victimization rates than White people and with the overrepresentation of men and people of Color in the criminal legal system new theories are required that address these phenomena and that are devoid of stereotypical or debasing underpinnings Intersectionality and Criminology provides a comprehensive review of the need for and use of intersectionality in the study of crime criminality and the criminal legal system This is essential reading for academics and students researching and studying in the fields of crime criminal justice theoretical criminology and gender race and socioeconomic class
