Corpus Linguistics. Volume 1 Anke Lüdeling, Merja Kytö, 2008-12-10 This volume provides an up to date survey of the field of corpus linguistics a field whose methodology has revolutionized much of the empirical work done in most fields of linguistic study over the past decade Corpus linguistics investigates human language by starting out from large collections of texts spoken written or recorded These language corpora which are now regularly available in electronic form are the basis for quantitative and qualitative research on almost any question of linguistic interest Many techniques that are in use in corpus linguistics today are rooted in the tradition of the late 18th and 19th century when linguistics began to make use of mathematical and empirical methods Modern corpus linguistics has used and

developed these methods in close connection with computer science and computational linguistics The handbook sketches the history of corpus linguistics shows its potential discusses its problems and describes various methods of collecting annotating and searching corpora as well as processing corpus data It also reports case studies that illustrate the wide range of linguistic research questions addressed in corpus linguistics The over 60 articles included in the handbook are divided into five sections 1 the origins and history of corpus linguistics and surveys of its relationship to central fields of linguistics 2 corpus compilation 3 corpus types 4 preprocessing of corpora 5 the use and exploitation of corpora The final section gives an overview of the results of corpus studies obtained in phonetics phonology morphology syntax semantics sociolinguistics historical linguistics stylometry dialectology and discourse analysis It also reports on recent advances made in human and machine translation contrastive studies computer assisted language learning and automatic summarization The contributors to the volume are internationally known experts in their respective fields The handbook is intended for a wide audience ranging from teachers university students and scholars to anyone interested in the use of computers in linguistic analyses and applications

*Code-Switching in Computer-Mediated Communication* Hanna Devic, 2008-08-14 Inhaltsangabe  
Introduction It has now been about a decade and a half since the Internet and the World Wide Web have come to represent a major realm of research in various fields of linguistics This is of course largely due to the fact that they offer easy access to a massive and unlimited amount of language data which do not have to be transcribed in arduous ways as is the case with speech recordings However alongside this major cause of attraction and despite the overall dominance of English it is also the multilingual nature of the Internet which has naturally sparked the interest of bilingualism research as well as language contact research It is the choice of and the switching between the available codes of the users repertoires which mark a major topic of interest and which shall be explored in the thesis at hand The final focus of investigation will be the communicative functions and meanings of the phenomenon called code switching CS as it naturally occurs in a Canadian Croatian discussion forum In order to prepare the theoretical ground for the analysis of my own corpus of computer mediated communication CMC data the first part of this research thesis will define the subject matter and the origins of research into it and a general overview of the classic linguistic treatment of the phenomenon will be given Following this paper will illustrate the major concepts and approaches relevant to the final purpose of the thesis and point out potential critique of their assumptions In order to establish a link between code switching phenomena in general and their communicative setting in the conducted study the subsequent chapter will address several issues in computer mediated communication research Thereafter a review of renowned studies of code switching phenomena in computer mediated communication will be provided Finally the Croworld corpus including its compilation and structure and the backgrounds of the users involved will be presented My subsequent analysis of selected forum posts will aim to relate the tenets of the classic approaches as well as the insights of the CMC studies regarding the significance of code switching practices Inhaltsverzeichnis Table of Contents 1

**Qualitative Discourse Analysis in the Social Sciences** Ruth Wodak,Michal Krzyzanowski,2017-09-16 What can language tell us about society Looking at a range of genres from political speeches to internet chat this book shows how qualitative methods are used to analyse discourses throughout the social sciences The practical problems of designing and conducting discourse based research are solved in this key resource for all social scientists

*Pragmatics of Accents* Gaëlle Planchenault,Livia Poljak,2021-10-15 What impact do accents have on our lives as we interact with one another Are accents more than simple sets of phonetic features that allow us to differentiate from one dialect variety or style to the other What power relationships are at work when we speak with what those around us perceive as an accent In the 12 chapters of this volume an international group of sociolinguists applied linguists anthropologists and scholars in media studies develop an innovative approach that we describe as the pragmatics of accents In this volume we present a variety of languages and go beyond the traditional structural description of accents From ideologies in national contexts to L2 education to accent discrimination in the media and the workplace this volume embraces a new perspective that focuses on the use of accents as symbolic resources and emphasizes the importance of context in the human experience of accents

*The Theory and Criticism of Virtual Texts* Lory Hawkes,Joe Law,Christina Murphy,2000-11-30 Virtual texts have emerged within the realm of the Internet as the predominant means of

global communication As both technological and cultural artifacts they embody and challenge cultural assumptions and invite new ways of conceptualizing knowledge community identity and meaning But despite the pervasiveness of the Internet in nearly all aspects of contemporary life no single resource has cataloged the ways in which numerous disciplines have investigated and critiqued virtual texts This bibliography includes more than 1500 annotated entries for books articles dissertations and electronic resources on virtual texts published between 1988 and 1999 Because of the multiple contexts in which virtual texts are studied the bibliography addresses virtual communication across a broad range of disciplines and philosophies It encompasses studies of the historical development of virtual texts investigations of the many interdisciplinary applications of virtual texts and discussions of such legal issues as privacy and intellectual property Entries are arranged alphabetically within topical chapters and extensive indexes facilitate easy access

**Methods in Pragmatics** Andreas H. Jucker, Klaus P. Schneider, Wolfram Bublitz, 2018-06-25 *Methods in Pragmatics* provides a systematic overview of the different types of data the different methods of data collection and data analysis used in pragmatic research It offers authoritative and comprehensive surveys of the entire breadth of methods and methodologies Part 1 covers introspectional philosophical and cognitive pragmatics Part 2 is devoted to experimental pragmatics including discourse completion and dialogue construction tasks role plays and other production and comprehension tasks Part 3 reviews observational pragmatics including ethnographic and discourse analytic methods and part 4 finally is devoted to corpus pragmatics including accounts of corpus compilation annotation and data retrieval specific to pragmatic research Each contribution provides a state of the art account of the precise workings of one particular method its applications in the relevant research literature as well as a critical assessment of its strengths and weaknesses and the type of pragmatic research questions for which it is most suitable

**Anaphors in Text** Monika Schwarz-Friesel, Manfred Consten, Mareile Knees, 2007-05-15 This volume contains a careful selection of papers concerned with actual research questions on anaphoric reference a subject of current interest with various linguistic subdisciplines This is reflected in this book as it methodically covers broadly invested approaches from cognitive neurolinguistic formal and computational perspectives each contribution representing the respective state of the art on a high theoretical and empirical level The volume contains three thematic parts *Anaphors in Cognitive Text and Discourse Linguistics* *The Syntax and Semantics of Anaphors* and *Neurolinguistic Studies on the reception of anaphoric reference* The contributions investigate several Indo European languages

**Beyond Misunderstanding** Kristin Bührig, Jan D. ten Thije, 2006-05-09 This book challenges two tacit presumptions in the field of intercultural communication research Firstly misunderstandings can frequently be found in intercultural communication although one could not claim that intercultural communication is constituted by misunderstandings alone This volume shows how new perspectives on linguistic analyses of intercultural communication go beyond the analysis of misunderstanding Secondly intercultural communication is not solely constituted by the fact that individuals from different cultural groups interact Each contribution of this volume analyses to

what extent instances of discourse are institutionally and or interculturally determined These linguistic reflections involve different theoretical frameworks e g functional grammar systemic functional linguistics functional pragmatics rhetorical conversation analysis ethno methodological conversation analysis linguistic anthropology and a critical discourse approach As the contributions focus on the discourse of genetic counseling gate keeping discourse international team co operation international business communication workplace discourse internet communication and lamentation discourse the book exemplifies that the analysis of intercultural communication is organized in response to social needs and therefore may contribute to the social justification of linguistics

*International Handbook of Internet Research* Jeremy Hunsinger, Lisbeth Klastrup, Matthew Allen, 2010-06-17 Internet research spans many disciplines From the computer or information sciences through engineering and to social sciences humanities and the arts almost all of our disciplines have made contributions to internet research whether in the effort to understand the effect of the internet on their area of study or to investigate the social and political changes related to the internet or to design and develop software and hardware for the network The possibility and extent of contributions of internet research vary across disciplines as do the purposes methods and outcomes Even the epistemological underpinnings differ widely The internet then does not have a discipline of study for itself It is a field for research Baym 2005 an open environment that simultaneously supports many approaches and techniques not otherwise commensurable with each other There are of course some inhibitions that limit explorations in this field research ethics disciplinary conventions local and national norms customs laws borders and so on Yet these limits on the internet as a field for research have not prevented the rapid expansion and exploration of the internet After nearly two decades of research and scholarship the limits are a positive contribution providing bases for discussion and interrogation of the contexts of our research making internet research better for all These limits challenges that constrain the theoretically limitless space for internet research create boundaries that give definition to the field and provide us with a particular topography that enables research and investigation

**Historical Pragmatics** Andreas H. Jucker, 1995-01-01 Until very recently pragmatics has been restricted to the analysis of contemporary spoken language while historical linguistics has studied historical texts and language change in a decontextualized way This has now radically changed and scholars from around the world are trying to build a new theoretical framework that integrates recent advances both in pragmatics and in historical linguistics The volume which contains 22 original articles starts with an introduction that is both a state of the art account of historical pragmatics and a programmatic statement of its future potential and its different subfields Part I contains seven philological papers that deal with historical texts and their interpretations by paying close attention to the communicative context of these texts The second and third parts comprise papers in diachronic pragmatics The ten papers of part II take a linguistic form as their starting point e g particular lexical items or syntactic constructions and study their pragmatic functions at different times diachronic form to function mappings while the four papers of part III take a particular

pragmatic function as their starting point e.g. discourse strategies or politeness and study their linguistic realisation at different times diachronic function to form mappings

**Writing Business** Francesca Bargiela-Chiappini, Catherine Nickerson, 2014-06-11 *Writing Business* Genres Media and Discourses offers an analysis of the genres and functions of written discourse in the business context involving a variety of modes of communication. The evolution of new forms of writing is a key focus of this collection and is only partly attributable to the ever increasing application of technology at work. Alongside machine mediated texts such as electronic mail and computer generated correspondence the contextualised analyses of both traditional genres such as facsimiles and direct mailing and of lesser studied texts such as invitations for bids contracts business magazines and ceremonial speeches reveal a rich complexity in the forms of communication evolved by organisations and the individuals who work within them in response to the demands of the social organisational and cultural contexts in which they operate. This rich textual variation is matched by a discussion of a range of methodological approaches to the development of business writing skills including rhetorical analysis organisational communication analysis social constructionism genre analysis and survey and experimental methods. Using authentic data and benefiting from a fresh interdisciplinary approach the volume will be of interest to students and researchers of business communication. **Encyclopedia of New Media** Steve Jones, 2002-12-10

Scholars and students finally have a reference work documenting the foundations of the digital revolution. Were it not the only reference book to cover this emergent field, Jones's encyclopedia would still likely be the best CHOICE. The articles are interesting, entertaining, well written, and reasonably long. Highly recommended as a worthwhile and valuable addition to both science and technology and social science reference collections. REFERENCE USER SERVICES QUARTERLY, AMERICAN LIBRARY ASSOCIATION. From Amazon.com to virtual communities, this single volume encyclopedia presents more than 250 entries that explain communication technology, multimedia, entertainment, and e-commerce within their social context. Edited by Steve Jones, one of the leading scholars and founders of this emerging field, and with contributions from an international group of scholars as well as science and technology writers and editors, the Encyclopedia of New Media widens the boundaries of today's information society through interdisciplinary, historical, and international coverage. With such topics as broadband, content filtering, cyberculture, cyberethics, digital divide, freenet, MP3, privacy, telemedicine, viruses, and wireless networks, the Encyclopedia will be an indispensable resource for anyone interested or working in this field. Unlike many encyclopedias that provide short, fragmented entries, the Encyclopedia of New Media examines each subject in depth in a single, coherent article. Many articles span several pages and are presented in a large, double-column format for easy reading. Each article also includes the following: A bibliography. Suggestions for further reading. Links to related topics in the Encyclopedia. Selected works where applicable. Entries include: Pioneers such as Marc Andreessen, Marshall McLuhan, and Steve Jobs. Terms from Access to Netiquette to Web cam. Technologies including Bluetooth, MP3, and Linux. Businesses such as Amazon.com. Key labs, research centers, and foundations. Associations. Laws and much more. The Encyclopedia of New Media includes a comprehensive index as well as a reader's guide that facilitates browsing and easy access to information.

**Recommended Libraries:** Public, academic, government, special, and private, corporate. **Discourse Syntax** Heidrun Dorgeloh, Anja Wanner, 2022-10-27. Discourse Syntax is the study of syntax that requires an understanding of the surrounding text and the overall discourse situation, including considerations of genre and modality. Using corpus data and insights from current research, this book is a comprehensive guide to this fast-developing field. It takes the reader beyond the sentence to study grammatical phenomena like word order variation, connectives, ellipsis, and complexity. It introduces core concepts of Discourse Syntax, integrating insights from corpus-based research and inviting the reader to reflect on research design decisions. Each chapter begins with a definition of learning outcomes, provides results from empirical articles, and enables readers to critically assess data visualization. Complete with helpful further reading recommendations as well as a range of exercises, it is geared towards intermediate to advanced students of English linguistics and is also essential reading for anyone interested in this exciting, fast-moving discipline. **Research on Professional Responsibility and Ethics in**
