study of voice as central to Robeson's sense of self and his politics Paul Robeson's *Voices* charts the dialectal process of Robeson's vocal and self discovery documenting some of the ways Robeson's practice revised the traditions of concert singing in the first half of the twentieth century and how his voice manifested as resistance [The Ashgate Research Companion to Cosmopolitanism](#) Dr Maria Rovisco, Prof Dr Magdalena Nowicka, 2013-01-28 The study of Cosmopolitanism has been transformed in the last 20 years and the subject itself has become highly discussed across the social sciences and the humanities The Ashgate Research Companion to Cosmopolitanism pursues distinct theoretical orientations and empirical analyses bringing together mainstream discussions with the newest thinking and developments on the main themes debates and controversies surrounding the subject [Rooted Cosmopolitanism](#) Will Kymlicka, Kathryn Walker, 2012-04-25 Canadians take pride in being good citizens of the world yet our failure to meet commitments on the global stage raises questions Do Canadians need to transcend national loyalties to become full global citizens Is the very idea of rooted cosmopolitanism simply a myth that encourages complacency about Canada's place in the world In this volume leading scholars assess both in theory and practice the concept of rooted cosmopolitanism using Canada as a test case They show that local identities such as patriotism and Quebec nationalism can but need not conflict with cosmopolitan principles Local ties enable and impede Canada's global responsibilities in areas such as multiculturalism climate change immigration and refugee policy and humanitarian intervention By examining how Canada has negotiated its relations to the world both within and beyond its own borders *Rooted Cosmopolitanism* evaluates the possibility of reconciling local ties and nationalism with commitments to human rights global justice and international law [Theory after Derrida](#) Kailash C. Baral, R. Radhakrishnan, 2018-04-17 A critical anthology that re-examines Jacques Derrida's thought by way of theory and praxis this volume reflects on his striking legacy and the future of theory Among contemporary thinkers Derrida challenges not only our ways of thinking but also hitherto methods of inquiry This book captures how Derrida renovates and re-energises philosophy by questioning the fundamental assumptions of Western philosophical thought By doing so he exposes the intricate lie behind binaries such as speech writing nature culture male female black white literature criticism etc which have continued to shape our worldview where a hegemonic centre is always already in place dominating or marginalising the other A significant contribution to literary theory this book explores not only the status of Derrida's contribution as a critical thinker but also the status of critical theory as such in the contemporary milieu The central question that it asks is whether we should dismiss Derrida as a thinker who espoused an extreme form of relativism bordering on nihilism or has he something fundamental to contribute to the future of theory Could it be that deconstruction is not destruction but a possibility that casts doubts on whether the present can have faith in future This second edition includes a new Postscript and addresses some important concerns of our times such as religious practice art and aesthetics translation sociology of philosophy and democracy Scholars and researchers of English literature philosophy sociology and cultural studies will find this work particularly interesting
