Tweed,2020-09-25 Religion plays a central role in human experience Billions of people around the world practice a faith and act in accordance with it Religion shapes how they enter the world and how they leave it how they eat dress marry and raise their children It shapes their assumptions about who they are and who they want to be Religion also identifies insiders and outsiders who has power and who doesn t It sanctifies injustice and combats it It draws national borders It affects law economy and government It destroys and restores the environment It starts wars and ends them Whether you notice it or not religion plays a role in how billions conduct their lives We are called then to understand this important factor in human life today Beginning with the first signs of religion among ancient humans and concluding with a look at modern citizens and global trends leading scholar Thomas Tweed examines this powerful and enduring force in human society Tweed deftly documents religion as it exists around the world addressing its role in both intensifying and alleviating contemporary political and environmental problems from armed conflict to climate change Religion A Very Short Introduction offers a concise non partisan overview of religion s long history and its complicated role in the world today Nonviolence in the World's Religions Jeffery D. Long,Michael G. Long,2021-09-23 The twenty first century began with the terrorist attacks of September 11 2001 Much has been written and debated on the relationship between faith and violence with acts of terror at the forefront However the twentieth century also gave rise to many

successful nonviolent protest movements Nonviolence in the World's Religions introduces the reader to the complex relationship between religion and nonviolence Each of the essays delves into the contemporary and historical expressions of the world's major religious traditions in relation to nonviolence Contributors explore the literary and theological foundations of a tradition's justification of nonviolence the ways that nonviolence has come to expression in its beliefs symbols rituals and other practices and the evidence of nonviolence in its historic and present responses to conflict and warfare The meanings of both religion and nonviolence are explored through engagement with nonviolence in Hindu Buddhist Chinese Sikh Jewish Christian Islamic Jain and Pacific Island religious traditions This is the ideal introduction to the relationship between religion and violence for undergraduate students as well as for those in related fields such as religious studies peace and conflict studies area studies sociology political science and history

Fabricating Religion Russell T. McCutcheon, 2018-09-24 The revised essays collected here four of which are published for the first time continue a longstanding argument made by McCutcheon and others that the study of religion would benefit from self-conscious scrutiny of its tools the interests that may drive them and the effects that might follow their use The chapters examine a variety of contemporary sites in the modern field where this thesis can be argued whether involving the anachronistic use of the category religion when studying the ancient world to current interest in so-called critical religion or critical realist approaches Moreover contrary to some past characterizations of such critiques a constructive way forward for the field is once again recommended and at several sites exemplified in detail redescribing not only religion as something ordinary but also our tendency to create the impression of exceptional and thus set apart things places and people Aimed at scholars and students alike the book is an invitation to examine our own scholarly practices and thereby take a more active role in shaping the field in which we carry out our work as scholars of this thing we call religion

God among Sages Kenneth Richard Samples, 2017-01-31 Was Jesus just a spiritual leader like Buddha Krishna Confucius and Muhammad Or is he something more something else entirely In God among Sages apologist Ken Samples offers readers a biblical and historical portrait of Jesus grounded in the claims Jesus makes about himself Then Samples compares and contrasts Jesus with Buddha Krishna Confucius and Muhammad using eight relevant categories of evaluation He also helps readers understand the competing philosophies of religious pluralism inclusivism and exclusivism The result is a clearer understanding of what sets Jesus apart as not simply a teacher to follow but God himself worthy of our full allegiance and worship Christians who struggle to answer claims that Jesus was just a good teacher as well as those haven't quite made up their minds about Jesus's claims to divinity will value this accessible introduction to comparative religions

Significant Others Monte Cox, 2017-09-12 A generation ago most Americans had little or no contact with Muslims Hindus Buddhists or any other adherents of non Christian religions Now our culture is much more pluralistic In addition to these others many Westerners disenchanted with Christianity are more inclined than they were a generation ago to dabble in new spiritual alternatives that were not as readily available here before Many Christians feel intimidated by these changes Many Christians don't know how to engage their newest non Christian neighbors in conversation partly because they feel ignorant

about the religions practiced by others Significant Others seeks to fill this knowledge gap so readers will become more acquainted with the religious backgrounds of devout non Christians they are meeting as well as with the growing number of American people who claim no religious affiliation at all Each chapter outlines the major world religions according to their significant founders or leading figures significant beliefs and practices significant sects and developments and significant points of contact and points of contrast with Christian faith     *A Tapestry of Faiths* Winfried Corduan, 2009-06-01 Christians find themselves in an increasingly diverse world The new place of worship in our neighborhood might just as likely be a Hindu temple or a Muslim mosque as a church or a synagogue How should we view other world religions and more important how should we engage our religiously oriented neighbors in conversation Do all religions teach the same thing Or are there significant differences Do we try to minimize differences and just get along Or do we hold out the Christian faith as the one true hope for all the world Drawing on his wide experience and knowledge of other religions and how they are actually lived Winfried Corduan helps us sort through the complex tapestry of faiths around the globe He contends that there are common threads of understanding that can serve to link us in meaningful discussion From these common threads we can go on to explore genuine differences Through the course of the book Corduan leads readers to explore the important issues of revelation and truth morality and guilt grace and redemption eschatology and hope Ultimately Jesus Christ he argues stands unique among religious figures and Christianity unique among the world s religions This is a book that strengthens Christians in their convictions while encouraging them to engage their neighbors with humility love and discernment
