The book is divided into four inter-related sections. Section 1 introduces and evaluates the concept of events. Section 2 critically reviews the relationship between events and other disciplines such as the contribution of economics, psychology and geography to the critical discourse of Event Studies. Section 3 focuses on the business, operational and strategic management of events while the final section crucially focuses on critical events as a new paradigm within the burgeoning literature on Events. It offers the reader a comprehensive and critical synthesis of this field, conveying the latest thinking associated with events research, edited by two of the leading scholars in the field.
