Relations: Concrete, Abstract, And Applied - An Introduction Herbert Toth, 2020-06-22 The book is intended as an invitation to the topic of relations on a rather general basis It fills the gap between the basic knowledge offered in countless introductory papers and books usually comprising orders and equivalences and the highly specialized monographs on mainly relation algebras many valued fuzzy relations or graphs This is done not only by presenting theoretical results but also by giving hints to some of the many interesting application areas also including their respective theoretical basics This book is a new and the first of its kind compilation of known results on binary relations It offers relational concepts in both reasonable depth and broadness and also provides insight into the vast diversity of theoretical results as well as application possibilities beyond the commonly known examples This book is unique by the spectrum of the topics it handles As indicated in its title these are

New Directions in Relevant Logic Igor Sedlár, Shawn Standefer, Andrew Tedder, 2025-01-30 This book brings together contemporary work on relevant logics to showcase the recent progress of the field and set the stage for future research The papers in the volume contribute to the formal and philosophical development of the field They include contributions from different traditions and approaches ranging from philosophical discussions of the foundations of relevant and related kinds of non classical logic to mathematical work concerning open technical problems in the field This is the first edited collection on the topic in many years and it includes contributions from established figures as well as younger generations of researchers Relevant logics have recently seen a resurgence of interest and this volume will be an important resource for logicians working on substructural and relevant logics for years to come

The Justice of War Richard Hall, 2019-11-06 The Justice of War Its Foundations in Ethics and Natural Law puts normative ethical theory at the forefront in its discussion of the justice of war Situating the modern theory

of just war in its historical context Richard A S Hall gives full attention to natural law a mainstay of just war theory Hall considers the American philosopher Josiah Royce s implicit theory of just war with its suggestion of a fourth component of just war theory in addition to jus ad bellum jus in bello and jus post bellum namely jus ad pacem justice law for or about peace concerning the prevention of war and the maintenance of peace This book addresses and answers affirmatively the following questions raised by just war theory Can just war theory be rationally defended against its realpolitik critics Can there be such a thing as a just or moral war The book aims at showing the doubters and critics that just war theory is a viable alternative to both the political realism of realpolitik and pacifism In brief war can be morally justified though under very restrictive conditions

(Generalized) Fuzzy Matrices And Relations Herbert Toth,2025-02-25 The book provides an overview of the main concepts and results related to fuzzy matrices and fuzzy relations using fuzzy in a general sense to mean many valued This overview along with numerous references to original contributions dispersed across various journals serves as a comprehensive guide for further exploration This volume can be viewed in two ways i as a companion to the author s previous work Relations Concrete Abstract and Applied published by WSPC 2020 but with a distinct emphasis on many valued concepts or ii as a standalone volume that can be read independently which necessarily includes some repetition of material from the earlier book as preliminary or reference content Similar to the previous book this one does not present new findings but offers a self contained compilation of known results selected from the extensive research conducted over the past five decades arranged in a systematic manner The topics covered in this text have been the subject of intensive

research over the last two decades yet there has been no book publication on this subject for over 15 years This book aims to bridge that gap General and Specific Mental Abilities Dennis J. McFarland,2020-05-07 The history of testing mental abilities has seen the dominance of two contrasting approaches psychometrics and neuropsychology These two traditions have different theories and methodologies but overlap considerably in the tests they use Historically psychometrics has emphasized the primacy of a general factor while neuropsychology has emphasized specific abilities that are dissociable This issue about the nature of human mental abilities is important for many practical concerns Questions such as gender ethnic and age related differences in mental abilities are relatively easy to address if they are due to a single dominant trait Presumably such a trait can be measured with any collection of complex cognitive tests If there are many specific mental abilities these would be much harder to measure and associated social issues would be more difficult to resolve The relative importance of general and specific abilities also has implications for educational practices This book includes the diverse opinions of experts from several fields including psychometrics neuropsychology speech language and hearing and applied psychology **Philosophy in Education** Jana Mohr Lone,Michael D. Burroughs,2016-02-11 Philosophy in Education Questioning and Dialog in K 12 Classrooms is a textbook in the fields of pre college philosophy and philosophy of education intended for philosophers and philosophy students K 12 classroom teachers administrators and educators policymakers and pre college practitioners of all kinds The book offers a wealth of practical resources for use in elementary middle school and high school classrooms as well as consideration of many of the broader educational social and political topics in the field including the educational value of pre college philosophy the philosophies of education that inform this philosophical practice and the relevance of pre college philosophy for pressing issues in contemporary education such as education reform child development and prejudice and privilege in classrooms The book includes sections on the expansion of philosophy beyond higher education to pre college populations the importance of wondering questioning and reflection in K 12 education the ways that philosophy is uniquely suited to help students cultivate critical reasoning and independent thinking capacities how to develop classroom communities of philosophical inquiry and their potentially transformative impact on students the cultivation of philosophical sensitivity and positive identity formation in childhood strategies for recognizing and diminishing the impact of social inequalities in classrooms and the relationship between introducing philosophy in schools and education reform Problems in Value Theory Steven B. Cowan,2020-02-06 Problems in Value Theory takes a pro and con approach to central topics in aesthetics ethics and political theory Each chapter begins with a question What Makes Actions Right or Wrong Does Morality Depend on God Do We Need Government Contemporary philosophers with opposing viewpoints are then paired together to argue their position and raise problems with conflicting standpoints Alongside an up to date introduction to a core philosophical stance each contributor provides a critical response to their opponent and clear explanation of their view Discussion questions are included at the end of each chapter to guide further discussion With

chapters ranging from why the government should never wage war to what is art and does morality depend on God this introduction covers questions lying at the heart of debates about what does and does not have value *Organized Hypocrisy* David Penklis,2024-04-28 Organized hypocrisy is everywhere evident in our daily lives and part of our DNA We cannot ignore or avoid it and need to understand it as we can be unknowing participants or victims Organized hypocrisy is the disconnect between talk decision making and action by multiple actors MindTap Philosophy Printed Access Card for Hurley's a Concise Introduction to Logic, 12th Patrick J.
