The purpose of the CONCUR conference is to bring together researchers, developers and students in order to advance the theory of concurrency and promote its applications. This year the CONCUR conference was in its 20th edition and to celebrate 20 years of CONCUR the conference program included a special session organized by the IFIP Working Groups 1.8 Concurrency Theory and 2.2 Formal description of Programming Concepts as well as an invited lecture given by Robin Milner, one of the fathers of the concurrency theory research area. This edition of the conference attracted 129 submissions. We wish to thank all their authors for their interest in CONCUR 2009. After careful discussions the Program Committee selected 37 papers for presentation at the conference. Each of them was accurately refereed by at least three reviewers, four reviewers for papers co-authored by members of the Program Committee who delivered detailed and insightful comments and suggestions. The conference chairs warmly thank all the members of the Program Committee and all their sub-referees for the excellent support they gave as well as for the friendly and constructive discussions.
