sense, there's a very interesting question — well, pinpointing it takes after my mum, I suppose. Our facial features are pretty similar — same eyes, same-shaped forehead. I've seen photos of her when she was my age and apart from the slightly hostile wariness the splitting image of each other's faces, people say that there was a strong family resemblance between us and me. I can't see it myself, not clearly anyway — although there are certain similarities to her physical build. I still seem to be as lithe and big feet, unobscured for me, it was the first thing my parents noticed when I was born. Personality-wise, I've got a lot of my dad's traits in me. Myre took rather badly and literally to two people and, and we share quite a few basic approach to life. With it comes to food, though, I reckon I've got more in common with my mum. She's got a whole of interesting food choices. Culinary prowess for me, but it's rather, perhaps, uncharacteristic, basically because all these the same kinds of things, as I do. We also share a liking for the warm foods of meat, big rolls and sandwiches, and neither of us ever

distorted. Furthermore, several coefficient β 's are both statistically insignificant. Is it something others' perceived one's own gambling skills, or is it something about one's self that is important?
