Eurozone Politics Perception Routledge Advances:

Changing Perceptions of the EU at Times of Brexit Natalia Chaban, Arne Niemann, Johanna Speyer, 2020-07-19 This volume brings together contributions that conceptualize and measure EU perceptions in the strategic regions around the world in the aftermath of the UK referendum Contributors assess the evolution of EU perceptions in each location and discuss how their findings may contribute to crafting foreign policy options for the new EU 27 Brexit is very likely to have a substantial bearing on EU external policy not merely because of the loss of a major member state with a special relationship to the US and the Commonwealth but also because it challenges the integrational success story that the EU strives to embody This book thus serves a dual purpose on the one hand it broadens the recent studies on Brexit by focusing on external partners reactions and on the other it allows for an innovative evaluation of policy options for EU foreign policy Based on a solid theoretical foundation and empirically rich data it constitutes an innovative and timely addition to the evolving debate on Brexit and its consequences This book will be of key interest to scholars and students of European politics Brexit British politics EU politics comparative politics and international relations

Discretion in the Welfare State Anders Molander, 2016-09-13 Welfare state professionals decide or establish premises as to whom will receive what in what manner when and how much and when enough is enough They control who passes through the gates of the welfare state This book provides an in depth understanding of the phenomenon of discretion It shows why the delegation of discretionary powers to professionals in the front line of the welfare state is both unavoidable and problematic Extensive use of discretion can threaten the principles of the rule of law and relinquish democratic control over the implementation of laws and policies The book introduces an understanding of discretion that adds an epistemic dimension discretion as a mode of reasoning to the common structural understanding of discretion an area of judgment and decision Accordingly it distinguishes between structural and epistemic measures of accountability The aim of the former is to constrain discretionary spaces or the behavior within them while the aim of the latter is to improve the quality of discretionary reasoning This text will be of key interest to scholars and students in the fields of applied philosophy public policy and public administration welfare state research and the sociology of professions

Clientelism and Economic Policy Aris Trantidis, 2016-04-28 With its deep economic crisis and dramatic political developments Greece has puzzled Europe and the world What explains its long standing problems and its incapacity to reform its economy Using an analytic narrative and a comparative approach the book studies the pattern of economic reforms in Greece between 1985 and 2015 It finds that clientelism the allocation of selective benefits by political actors patrons to their supporters clients created a strong policy bias that prevented the country from implementing deep cutting reforms The book shows that the clientelist system differs from the general image of interest group politics and that the typical view of clientelism as individual exchange between patrons and clients has not fully captured the wide range and implications of this phenomenon From this the author develops a theory on clientelism and

policy making addressing key questions on the politics of economic reform government autonomy and party politics The book is an essential addition to the literatures on clientelism public choice theory and comparative political economy It will be of key interest to scholars and students of European Union politics economic policy and party politics Challenges to Democracies in East Central Europe Jan Holzer, Miroslav Mareš, 2016-05-12 Democratic development in Central and Eastern Europe is not a finished project nor is its progress immune to internal and external threats The current social economic ethnic and political situation within the region presents new dangers This text identifies and analyses challenges to current East Central European democracies in terms of potential deconsolidation of democracy reflected in the changes in the institutional and procedural framework polity and in the choice of instruments and strategies in the policy area Specifically examining the regimes of the Czech Republic Hungary Poland Slovakia and Slovenia these challenges include political extremism and violence corruption ethnic and religious conflicts Presenting original Central European data and utilising the concept of consolidation of democracy from von Beyme and Merkel's concept the book demonstrates that these challenges are as much influenced by imported phenomena such as immigration organized crime and other potential systemic undemocratic volatilities as the domestic situation This text will be of key interest to scholars and students East European politics post Soviet politics EU Studies security and strategic studies international relations area studies modern history and sociology Eurozone Politics Philip Giurlando, 2015-10-23 The crisis of the Eurozone has had a significant impact on the politics of Europe In many countries the euro was largely interpreted by elites as a development that would ameliorate their nations problems However recent events have proven the contrary with the rise of radical right wing politics and populism across the continent This book investigates the politics of the euro with a primary focus on Italy but also with additional chapters on the UK and Germany Using a range of original and secondary data it reconstructs how the euro was interpreted by both elites and non elites from the late nineties to 2010 By recruiting a large sample of non elites it examines perceptions of the euro and the ways in which these views allowed for the justification of painful austerity measures required to enter the Economic and Monetary Union In doing so it sheds light on the ways in which non elites interpret complex political objects like the euro and provides a systemic comparison of the cognitive schema of non elites and elites This book will be of key interest to scholars and students of the European Union European politics Italian politics comparative politics and political economy Personal Diplomacy in the EU Roland Vogt, 2016-10-04 At a time when the economic troubles and bailouts of Greece and other European economies are casting significant doubt on the future viability of the Eurozone and the EU it is crucial to examine the origins of the political will and leadership that is necessary to move the integration process forward This book makes a significant conceptual and empirical contribution by elucidating the extent to which the integration process hinges not on institutions and norms but on the relations among leaders Vogt conducts a comparative diplomatic history of three critical junctures in the process of European integration the creation of the Common Market 1955 1957

British accession 1969 1973 and the introduction of the Euro 1989 1993 He illustrates how personal diplomacy leadership constellations and the dynamics among leaders enable breakthroughs or inhibit accords He also reveals how the EU s system of top level decision making that privileges institutionalised summitry has operated in the past and suggests in a separate chapter why it has come to atrophy and prove more dysfunctional of late **Iceland's Financial Crisis** Valur

Ingimundarson,Philippe Urfalino,Irma Erlingsdóttir,2016-07-01 Being the first casualty of the international financial crisis Iceland was in many ways turned into a laboratory when it came to responding to one of the largest corporate failures on record This edited volume offers the most wide ranging treatment of the Icelandic financial crisis and its political economic social and constitutional consequences Interdisciplinary with contributions from historians economists sociologists legal scholars political scientists and philosophers it also compares and contrasts the Icelandic experience with other national and global crises It examines the economic magnitude of the crisis the social and political responses and the unique transitional justice mechanisms used to deal with it It looks at backward looking elements including a societal and legal reckoning which included the indictment of a Prime Minister and jailing of leading bankers for their part in the financial crisis and forward looking features such as an attempt to rewrite the Icelandic constitution Throughout it underscores the contemporary relevance of the Icelandic case While the Icelandic economic recovery has been much quicker than expected it shows that public faith in political elites has not been restored This text will be of key interest to scholars policy makers and students of the financial crisis in such fields as European politics international political economy comparative politics sociology economics contemporary history and more broadly the social sciences and humanities European Enlargement Across

Rounds and Beyond Borders Haakon A. Ikonomou,Aurélie Andry,Rebekka Byberg,2017-03-16 This volume suggests new theoretically informed approaches for historians and social scientists to engage with the policy of enlargement across rounds and in all its diversity It follows three approaches first tracing Longue Dur e developments second investigating enlargement Beyond the Road to Membership and third exploring the Entangled Exchanges and synergies between the EC EU and its outside It attempts to properly historicise the process of enlargement with contributions from historians social scientists and a legal scholar exemplifying suggested approaches and theoretical reflections from the various disciplines **Dynamics of**

Political Change in Ireland Niall Ó Dochartaigh,Katy Hayward,Elizabeth Meehan,2016-12-19 This book examines the interrelated dynamics of political action ideology and state structures in Northern Ireland and the Republic of Ireland emphasising the wider UK and European contexts in which they are nested It makes a significant and unique contribution to wider European and international debates over state and nation and contested borders looking at the dialectic between political action and institutions examining party politics ideological struggle and institutional change It goes beyond the binary approaches to Irish politics and looks at the deep shifts associated with major socio political changes such as immigration gender equality and civil society activism Interdisciplinary in approach it includes contributions from across

The EU through Multiple Crises Maurizio Cotta, Pierangelo Isernia, 2020-09-24 This book explores the mechanisms of political representation and accountability in the European political system against the backdrop of multiple crises in recent years in the economic financial security and immigration fields which have triggered strong tensions and centrifugal drives inside the EU and among its member states Exploiting a rich set of new ad hoc collected data covering elite and public opinion orientations and party positions it investigates how the current politicization of European issues and the asymmetries among member states can challenge the sustainability of the European Union It examines how existing policy tools were found largely unable to neutralize promptly the negative effects of these crises on the populations economies and security of the Union and how this suggests the need to reconsider overarching theoretical frameworks and a more in depth analysis of some crucial mechanisms of the European political system and to go beyond some of the dominant scholarly debates of the past decades This book will be of key interest to scholars and students of the European Union and more broadly to comparative European politics and international relations

The European Union and the United States Jost Morgenstern-Pomorski, Terrence Guay, Michael Smith, 2024-11-14 In this thoroughly revised edition of *The European Union and the United States* authors Smith Guay and Morgenstern Pomorski delve deep into the complexities of the EU US relationship amidst pivotal shifts on the global stage By examining the relationship through the lens of competition convergence and crises this textbook goes beyond narrow focuses on the EU US relationship offering a nuanced analysis of changing dynamics It stands as the definitive and all encompassing guide to transatlantic relations considering recent developments in business trade political economy and foreign policy while carefully navigating the commonalities and differences that exist between the EU and the US This updated edition also reflects on contemporary changes such as cyber security climate change the rise of populism and the emergence of global powerhouses like China India and Brazil successfully situating the EU US relationship within a broader international context Throughout the authors diverse academic backgrounds enable an interdisciplinary approach to the material rebalancing content to include international relations comparative politics and management In doing so this textbook provides a holistic view of transatlantic affairs With additional features including focused case studies summary tables and speech extracts this text serves as the ideal companion for higher level undergraduate students and postgraduate students studying EU politics or anyone seeking to deepen their knowledge of the broader subject area

Making Sense of the European Union Richard McMahon, Hongsong Liu, 2024-12-18 This book explores how different Chinese social groups portray or discuss the European Union The authors engage with issues such as trade populism EU crises systemic rivalry and the Chinese media s representation of European integration and Brexit They use qualitative quantitative and mixed methods empirical research to show that despite China s authoritarian political system social actors construct complex representations of the EU that may

influence government policy Rather than dismissing Chinese scholars as little more than state agents one can benefit from their unique insights by analysing the prisms through which they view the world In doing so Western scholars can better understand the distinct institutional and cultural traditions that filter their own views of China The Middle-Income Trap in Central and Eastern Europe Yaman Kouli,Uwe Müller,2023-11-10 Since the 1990s the economic development of Central and Eastern Europe has maintained high economic growth rates seemingly leading to an era of prosperity This very positive vision of future economic success linked to current political backlash and a long history of economic adversity is a thin veil of the economic way west for so called transition countries The Middle Income Trap in Central and Eastern Europe examines the reality of the diminishing marginal utility of further international investments alongside the pitfalls of higher government spending to cultivate innovation which ultimately makes foreign capital less attractive In this volume authors from diverse disciplinary perspectives reflect on current debates surrounding the developmental bottlenecks in East Central Europe Their common goal is to analyze the manner of socio economic transformation question of the relevance and impact of the middle income trap and identify possible ways to escape it **EU security governance** Emil Kirchner,James Sperling,2018-07-30 EU security governance assesses the effectiveness of the EU as a security actor The book has two distinct features Firstly it is the first systematic study of the different economic political and military instruments employed by the EU in the performance of four different security functions The book demonstrates that the EU has emerged as an important security actor not only in the non traditional areas of security but increasingly as an entity with force projection capabilities Secondly the book represents an important step towards redressing conceptual gaps in the study of security governance particularly as it pertains to the European Union The book links the challenges of governing Europe s security to the changing nature of the state the evolutionary expansion of the security agenda and the growing obsolescence of the traditional forms and concepts of security cooperation *Content or Discontent? Perceptions of Social Protection in France, Germany and the United Kingdom* OECD,2024-07-12 What factors influence satisfaction with social protection This report investigates differences in perceptions of social protection across countries with a focus on France using novel data from the OECD s Risks that Matter Survey Compared to respondents in Germany and the United Kingdom French respondents are systematically the least satisfied with social protection in their country even as France performs well on many social programme outcome indicators This report explores a range of different factors influencing perceptions of social protection including individual risk perceptions the shape size and cost of social programmes frictions in application and service delivery in social programmes and socio economic and cultural factors **European Forest Recreation and Tourism** Simon Bell,Murray Simpson,2009-05-07 Please note the 2015 paperback is a reprint of the original 2008 hardback In an increasingly urbanized world more and more people are turning to our forests and woodland for recreation and tourism Planning and providing for this growing demand poses challenges that need to be addressed by managers and designers alike Based on a study of forest

recreation from across Europe the editors bring together the expertise of more than eighty leading professionals and academics to provide a clear and concise guide to best practice Case studies and careful research give a detailed insight into the issues that forest recreation raises from strategic planning to integration into the existing rural economy Essential reading for tourism planners landscape designers and countryside managers delivering forest recreation and tourism

Roads to the Radical Right Koen Damhuis, 2020-10-01 Trump Wilders Salvini Le Pen during the last decades radical right wing leaders and their parties have become important political forces in most western democracies Their growing appeal raises an increasingly relevant question who are the voters that support them and why do they do so Numerous and variegated answers have been given to this question inside as well as outside academia Yet curiously despite their quantity and diversity these existing explanations are often based on a similar assumption that of homogeneous electorates Consequently the idea that different subgroups with different profiles and preferences might coexist within the constituencies of radical right wing parties has thus far remained underdeveloped both theoretically and empirically This ground breaking book is the first one that systematically investigates the heterogeneity of radical right wing voters Theoretically it introduces the concept of electoral equifinality to come to grips with this diversity Empirically it relies on innovative statistical analyses and no less than 125 life history interviews with voters in France and the Netherlands Based on this unique material the study identifies different roads to the radical right and compares them within a cross national perspective In addition through an analysis of almost 1400 tweets posted by Geert Wilders and Marine Le Pen the book shows how the latter are able to appeal to different groups of voters Taken together the book thus provides a host of important new insights into the heterogeneous phenomenon of radical right support
