Euthanasia And Law In The Netherlands Euthanasia And Law In The Netherlands:

Euthanasia and Law in the Netherlands John Griffiths,Alex Bood,Heleen Weyers,1998 The Netherlands is the only country in the world in which euthanasia under narrow defined circumstances is legally permissible Considerable attention has been paid over a number of years to the problem of regulating it and information has been systematically collected concerning actual practice Therefore the Dutch experience is of interest not only to the Dutch but to anyone who is considering whether or not to make euthanasia a legal practice This book is written for a reader without specific knowledge of law The central focus of the book is on Dutch law pertaining to euthanasia but it also considers the moral and legal principles that have played a role in the Dutch debate the available evidence bearing on actual practice and on the effectiveness of legal control It ends with some reflections on the problem of the slippery slope and the question whether the Dutch experience is exportable It includes translations of the relevant legislation including proposed reforms and of three leading cases

Euthanasia in the Netherlands R. Cohen-Almagor,2008-04-08 The Dutch experience has influenced the debate on euthanasia and death with dignity around the globe especially with regard to whether physician assisted suicide and euthanasia should be legitimized or legalized A review of the literature reveals complex and often contradictory views about the Dutch experience Some claim that the Netherlands offers a model for the world to follow others believe that the Netherlands represents danger rather than promise and that the Dutch experience is the definitive answer regarding why we should not make active euthanasia and physician assisted suicide part of our lives Given these contradictory views it has become clear that fieldwork is essential to developing a more informed opinion Having investigated the Dutch experience for a number of years and after thoroughly reading the vast literature published in English I went to the Netherlands for one month in the summer of 1999 to get a feel for the local situation I felt that this would provide the basis on which I could better interpret the findings of the available literature I visited the major centers of medical ethics as well as some research hospitals and spoke with leading figures in the euthanasia policy and practice The time spent was extremely beneficial and enriching I followed in the footsteps of Carlos Gomez who published a book following one month of extensive research in the Netherlands

Assisted Dying for the Terminally Ill Bill (HL) Great Britain: Parliament: House of Lords: Select Committee on the Assisted Dying for the Terminally Ill Bill,2005-04-28 The Bill was published as HLB 4 session 2004 05 ISBN 01084188390 This volume contains a selection of the 14 000 personal letters and other submissions received by the Committee with regards to their inquiry into the Bill

International Perspectives on End-of-Life Law Reform Ben P. White,Lindy Willmott,2021-12-09 Addresses the vexed question of how and why reform of end of life law occurs drawing on ten international case studies

Euthanasia & Law in the Netherlands , **Law, Palliative Care and Dying** John Lombard,2018-05-16 Law Palliative Care and Dying critically examines the role of the legal framework in shaping the boundaries of palliative care practice The work underlines the importance of a distinct legal framework for specialist

palliative care which can provide clarity for both the healthcare professional and the patient It examines the legal and ethical justifications for specialist palliative care practices and in doing so it questions the legitimacy of the distinction between euthanasia and practices such as palliative sedation Moreover this work discusses the influence of a human rights discourse on palliative care and examines the contribution of autonomy dignity and the right to palliative care This book includes detailed comparative research on several European jurisdictions The jurisdictions illustrate varied approaches to palliative care regulation and promotion In this manner the role of professional guidelines and legislation are drawn out and common themes in the regulation of palliative care emerge

Practical Decision Making in Health Care Ethics Raymond J. Devettere, 2009-12-04 For nearly fifteen years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field Devettere's approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making This third edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV AIDS research in Africa This edition also includes a new chapter on the latest social and political issues in American health care Devettere's engaging text relies on commonsense moral concepts and avoids academic jargon It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics

The Oxford Handbook of Ethics at the End of Life Stuart J. Youngner, Robert M. Arnold, 2016-09-13 This handbook explores the topic of death and dying from the late twentieth to the early twenty first centuries with particular emphasis on the United States In this period technology has radically changed medical practices and the way we die as structures of power have been reshaped by the rights claims of African Americans women gays students and most relevant here patients Respecting patients values has been recognized as the essential moral component of clinical decision making Technology's promise has been seen to have a dark side it prolongs the dying process For the first time in history human beings have the ability control the timing of death With this ability comes a responsibility that is awesome and inescapable How we understand and manage this responsibility is the theme of this volume The book comprises six sections Section I

examines how the law has helped shape clinical practice emphasizing the roles of rights and patient autonomy Section II focuses on specific clinical issues including death and dying in children continuous sedation as a way to relieve suffering at the end of life and the problem of prognostication in patients who are thought to be dying Section III considers psychosocial and cultural issues Section IV discusses death and dying among various vulnerable populations such as the elderly and persons with disabilities Section V deals with physician assisted suicide and active euthanasia lethal injection Finally Section VI looks at hospice and palliative care as a way to address the psychosocial and ethical problems of death and dying

Theory in Comparative Law Maurice Adams, Jacco Bomhoff, 2012-07-05 What does doing comparative law involve Too often explicit methodological discussions in comparative law remain limited to the level of pure theory neglecting to test out critiques and recommendations on concrete issues This book bridges this gap between theory and practice in comparative legal studies Essays by both established and younger comparative lawyers reflect on the methodological challenges arising in their own work and in work in their area Taken together they offer clear recommendations for and critical reflection on a wide range of innovative comparative research projects

The Legal Issues of the Emerging Rights Jianzong

Yao, 2024-02-27 This book systematically discusses the contents of the administrative right to know the right to information the right to gene euthanasia and other emerging rights The purpose of this book is to attract legal scholars to pay attention to these right changes in the process of China s social transformation analyze the basic laws of right changes under the specific background of China s society and provide a theoretical system model for the establishment of China s legislative right recognition and right relief system The typical feature of contemporary China is all round social transformation In such a transitional period the construction of democracy legal system and political system in China is gradually unfolding and developing with its unique mode In the construction of legal system and the practical operation of legal system the concept of rights the thinking of rights and the logic of rights have in fact been running through the social and legal practice in China for decades since the reform and opening up and have always become its background keynote and background Its typical realistic symptom is that a large number of rights belong to new for China the germination and birth of the type In this context this book tries to combine the general theory with the specific reality of the right landscape and preliminarily explores and explains the generation mechanism existence basis development logic and basic connotation of the new types of rights that is the main emerging or new types of rights in the transitional Chinese society The purpose of this book is to draw the attention of the colleagues in the field of law to the reality of the emergence and development of emerging rights in our society At the same time taking this as an example I hope that the colleagues in the field of law can deepen the study of rights especially from the general and macro study of rights to the more specific and micro study of rights

The Law and Ethics of Dementia Charles Foster, Jonathan Herring, Israel Doron, 2014-12-01 Dementia is a topic of enormous human medical economic legal and ethical importance Its importance grows as more of us live longer The legal and ethical problems it raises are complex intertwined and under discussed This book brings together contributions from clinicians lawyers and ethicists all of them world leaders in the field of dementia and is a comprehensive scholarly yet accessible library of all the main and many of the fringe perspectives It begins with the medical facts what is dementia Who gets it What are the current and future therapeutic and palliative options What are the main challenges for medical and nursing care The story is then taken up by the ethicists who grapple with questions such as is it legitimate to lie to dementia patients if that is a kind thing to do Who is the person whose memory preferences and personality have all been transformed by their disease Should any

constraints be placed on the sexual activity of patients Are GPS tracking devices an unpardonable interference with the patient's freedom These issues and many more are then examined through legal lenses The book closes with accounts from dementia sufferers and their carers It is the first and only book of its kind and the authoritative text This title is included in Bloomsbury Professional's Family Law online service People v. Kevorkian; Hobbins v. Attorney General, 447 MICH 436 (1994), 1994 99758 99591 99759 The Criminal Justice System and Health Care Charles A. Erin, Suzanne Ost, 2007 This book examines questions of medical accountability and ethics It analyses how the criminal justice system regulates health care practice and to what extent it can and should be used as a tool to resolve ethical conflict in health care For most of the twentieth century criminal courts were engaged in matters relating to medicine principally as a forum to resolve ethical controversies over the sanctity of life However the judiciary approached this function with reluctance and a marked tendency to defer to the medical profession to define what constituted ethical and thus lawful conduct However over the past 25 years criminal courts have increasingly been drawn into these types of question and the criminal law has become a major actor in the resolution of ethical conflict The trend to prosecute for aberrant professional conduct or medical malpractice and the role of the criminal process in medicine has been analytically neglected in the UK There is scant literature addressing the appropriate boundaries of the criminal process in resolving ethical conflict the theoretical legal analysis of the law's relationship with health care or the practical impact of the criminal justice system on professionals and the delivery of health care in the UK This volume addresses these issues via a combination of theoretical analyses and key case studies drawing on the experiences of other carefully selected jurisdictions It places a particular emphasis on the appropriateness of the involvement of the criminal justice system in health care the limitations of this developing trend and solutions to the problems that arise from it The Bioethics of the 'Crazy Ape' Oguz Kelemen, Gergely Tari, 2019-12-31 The Bioethics of the Crazy Ape collects a wide range of bioethical topics Bioethical questions are eternal by nature although our technologized times transform old issues in forms never before experienced Just like the famous scientist Albert Szent Gyorgyi believed in his time we also believe that all the contributing authors recognised their moral responsibility in adding new approaches to the continuum of each debate Although this responsibility has become increasingly complex we must avoid to become barriers of the scientific development Bioethics as an applied field of philosophy should always try to establish a framework for a sustainable world in daily clinical practice in cases of human experiments and not least in the natural environment The Patient's Wish to Die Christoph Rehmann-Sutter, Heike Gudat, Kathrin Ohnsorge, 2015 It presents the best available knowledge and research methodologies about patients' wishes at the end of life together with a series of ethical views and a discussion about the clinical implications for palliative care Moral Choices Scott Rae, 2018-10-16 Outlining the distinctive elements of Christian ethics Moral Choices is the standard text for college ethics courses Moral questions are at the core of life's most vital issues But today we see a breaking down of humanity's ability to distinguish between right and wrong After

describing a seven step procedure for thinking through ethical dilemmas author Scott Rae uses case studies to address some of today s most challenging ethical and social issues He guides students in thinking critically and biblically about issues including Abortion Euthanasia Capital Punishment Sexual Ethics War Technologies including reproductive and genetic Ethics and Economics Creation Care and Animal Rights Gun Control Race Gender and Diversity Immigration Refugees and Border Control This book also introduces other ethical systems and their key historical proponents including Plato Aristotle Augustine Thomas Aquinas and Immanuel Kant With its unique union of theory and application and its well organized easy to use design the fourth edition of *Moral Choices* also offers extensive updates revisions and three brand new chapters all designed to help students develop a sound and current basis for making ethical decisions in today s complex postmodern culture FEATURES Relevant Case Studies throughout Discussion questions at the end of each chapter Sidebars with case studies for discussion Recommended further reading

Oxford Textbook of Palliative Medicine Nathan I. Cherny, Marie T. Fallon, Stein Kaasa, Russell K. Portenoy, David C. Currow, 2021 Written by an established comprehensive multidisciplinary focused internationally recognized team the sixth edition has been fully revised and brought up to date with the inclusion of recent developments in the speciality to ensure that it retains its reputation as the definitive reference on palliative care

The New Oxford Companion to Law Peter Cane, Joanne Conaghan, 2008 For any reader needing a concise yet expert explanation of a subject in law the New Oxford Companion to Law is the ideal reference work Providing greater depth than can be found in legal dictionaries but always accessible to the non specialist entries in the Companion cover all areas of law and legal systems and are extensively cross referenced for ease of navigation The Companion draws upon the expertise of over 700 scholars and practitioners offering the widest possible range of perspectives on legal topics Consisting in over 1700 alphabetically arranged entries the Companion features The fundamentals of all the major areas of law such as criminal law tax and social security law human rights law family and employment law education law sports law international and EU law The role and workings of legal institutions such as parliaments courts law schools and international bodies such as the EU and the UN Leading cases famous trials and distinguished lawyers past and present Major events in legal history and major debates in legal theory Twenty pages of rich illustrations bringing the content to life The Companion will appeal to the interested citizen students applying for law courses at university law students and also to advanced readers who are already familiar with the law who will enjoy reading the engagingly written accounts of areas that they know as well as many that they don t
