Montgomery, 2022-05-31 Central Asia is a diverse and complex region of the world often characterized in the West as exotic remote and difficult to understand Central Asia Contexts for Understanding offers the most comprehensive introduction to the region available for students and general readers alike Combining thematic chapters with detailed case studies readers will learn to appreciate the richly interconnected aspects of life in Central Asia These wide ranging easy to understand contributions from many of the leading scholars in the field provide the context needed to understand Central Asia and presents a launching point for further reading and research

Ethnographies of the State in Central Asia Madeleine Reeves, Johan Rasanayagam, Judith Beyer, 2014-01-10 With fresh and provocative insights into the everyday reality of politics in post Soviet Central Asia this volume moves beyond commonplaces about strong and weak states to ask critical questions about how democracy authority and justice are understood in this important region In conversation with current theories of state power the contributions draw on extensive ethnographic research in settings that range from the local to the transnational the mundane to the spectacular to provide a unique perspective on how politics is performed in everyday life

Nomads and Soviet Rule Alun Thomas, 2018-06-14 The nomads of Central Asia were already well accustomed to life under the power of a distant capital when the Bolsheviks fomented revolution on the streets of Petrograd Yet after the fall of the Tsar the nature ambition and potency of that power would change dramatically ultimately resulting in the near eradication of Central Asian nomadism Based on extensive primary source work in Almaty Bishkek and Moscow *Nomads and Soviet Rule* charts the development of this volatile and brutal relationship and challenges the often repeated view that events followed a linear path of gradually escalating violence Rather than the sedentarisation campaign being an inevitability born of deep rooted Marxist hatred of the nomadic lifestyle Thomas demonstrates the Soviet state's treatment of nomads to be far more complex and pragmatic He shows how Soviet policy was informed by both an anti colonial spirit and an imperialist impulse by nationalism as well as communism and above all by a lethal self confidence in the Communist Party's ability to transform the lives of nomads and harness the agricultural potential of their landscape This is the first book to look closely at the period between the revolution and the collectivisation drive and offers fresh insight into a little known aspect of early Soviet history In doing so the book offers a path to refining conceptions of the broader history and dynamics of the Soviet project in this key period

Practicing Islam David W. Montgomery, 2016-11-23 David W Montgomery presents a rich ethnographic study on the practice and meaning of Islamic life in Kyrgyzstan As he shows becoming and being a Muslim are based on knowledge acquired from the surrounding environment enabled through the practice of doing Through these acts Islam is imbued in both the individual and the community To Montgomery religious practice and lived experience combine to create an ideological space that is shaped by events opportunities and potentialities that form the context from which knowing emerges This acquired knowledge further frames social navigation and political negotiation Through his years of on the ground research Montgomery assembles both an anthropology of knowledge and an anthropology of Islam demonstrating how individuals make sense of and draw meanings from their environments He reveals subtle individual interpretations of the religion and how people seek to define themselves and their lives as good within their communities and under Islam Based on numerous in depth interviews bolstered by extensive survey and data collection Montgomery offers the most thorough English language study to date of Islam in post Soviet Kyrgyzstan His work provides a broad view into the cognitive processes of Central Asian populations that will serve students researchers and policymakers alike

Movement, Power and Place in Central Asia

and Beyond Madeleine Reeves, 2013-09-13 Central Asia is a region singularly marked by attempts to transform social life by transforming place Drawing together established scholars and a new generation of historians geographers and anthropologists this volume brings empirical specificity and theoretical depth to debates about the politics of place making in this diverse region making an important contribution to Central Asian studies and a distinctive regional comparison to the spatial turn in social analysis Case studies draw on archival research and oral history to explore the workings and unintended consequences of policies aimed at sedentarizing collectivizing and resettling populations as a means to fix and territorialize space The book also examines ethnographic studies attuned to the role of movement in sustaining social life from Soviet era trade networks that linked rural Central Asia and the Russian metropolis to pilgrimage routes through which kazakhness is articulated to the contemporary moralization of migration abroad in search of work Rather than analysing flows as abstract processes the book enquires about effortful activity material infrastructures political relations and social habits through which people ideas knowledge skills and material objects move or are prevented from moving As such it offers new insights into the complex intersections of movement power and place in this important region over the last two centuries This book was originally published as a special issue of Central Asian Survey *Negotiating Well-being in Central Asia* David W.

Montgomery, 2016-02-05 Much scholarship of any region focuses on the perceived problems that hold back a population Central Asia is no exception as it is a region with political economic and environmental problems that seem to keep Central Asians from a better future Alongside all the struggles of life however are relationships of meaning and wellness that contribute to a life worth living Recognizing the struggles of everyday life contributors to this book explore how people navigate relationships to find meaning how elders attempt to re establish morality and how development workers pursue new futures Such futures centre around the role of family friends and meaningful employment in yielding contentment and the influence of Islam ethnicity and hospitality on community The first regional collection to take well being as a frame of analysis the contributors show how visions spaces and cosmologies of well being inform everyday life in Central Asia This volume will appeal not only to those interested in Central Asia but more broadly to anyone concerned with how taking well being into account better captures the complex realities of life in any region This book was published as a special issue of Central Asian Survey **Turkmenistan: Strategies of Power, Dilemmas of Development** Sebastien

Peyrouse, 2015-02-12 This book is the first comprehensive introduction to contemporary Turkmenistan in English **The Politics of Transition in Central Asia and the Caucasus** Amanda E Wooden, Christoph H. Stefes, 2009-06-08 Most books

on the Caucasus and Central Asia are country by country studies This book on the other hand fills a gap in Central Eurasian studies as one of the few comparative case study books on Central Eurasia covering both the Caucasus and Central Asia it considers key themes right across the two regions highlighting both political change and continuity Comparative case study chapters written by regional experts from a variety of methodological backgrounds provide historical context and evaluate

Soviet political legacies and emerging policy outcomes Key topics include the varied types and sources of authoritarianism political opposition and protest politics predetermined outcomes of post Soviet economic choices social and stability impacts of natural resource wealth variations in educational reform international norm influence on gender policy and the power of human rights activists Overall the book provides a thorough up to date overview of what is increasingly becoming a significant area of concern

The Sound State of Uzbekistan Kerstin Klenke, 2019-04-17 The Sound State of Uzbekistan Popular Music and Politics in the Karimov Era is a pioneering study of the intersection between popular music and state politics in Central Asia Based on 20 months of fieldwork and archival research in Tashkent this book explores a remarkable era in Uzbekistan s politics 2001 2016 when the Uzbek government promoted a rather unlikely candidate to the prominent position of state sound estrada a genre of popular music and a musical relic of socialism The political importance it attached to estrada was matched by the establishment of an elaborate bureaucratic apparatus for state oversight The Sound State of Uzbekistan shows the continuing legacy of Soviet concepts to frame the nexus between music artists and the state and explains the extraordinary potency ascribed to estrada At the same time it challenges classical readings of transition and also questions common binary models for researching culture in totalitarian or authoritarian states Proposing to approach lives in music under authoritarianism as a form of normality instead the author promotes a post Cold War paradigm in music studies

Islam, Society, and Politics in Central Asia Pauline Jones, 2017-07-20 During the 1990s there was a general consensus that Central Asia was witnessing an Islamic revival after independence and that this occurrence would follow similar events throughout the Islamic world in the prior two decades which had negative effects on both social and political development Twenty years later we are still struggling to fully understand the transformation of Islam in a region that s evolved through a complex and dynamic process involving diversity in belief and practice religious authority and political intervention This volume seeks to shed light on these crucial questions by bringing together an international group of scholars to offer a fresh perspective on Central Asian states and societies The chapters provide analysis through four distinct categories the everyday practice of Islam across local communities state policies toward Islam focusing on attempts to regulate public and private practice through cultural legal and political institutions and how these differ from Soviet policies how religious actors influence communities in the practice of Islam state policies towards the religion and subsequent communal responses to state regulations and how knowledge of and interaction with the larger Islamic world is shaping Central Asia s current Islamic revival and state responses The contributors a multidisciplinary and international group of leading scholars develop fresh insights that both corroborate and contradict findings from previous research while also highlighting the problem of making any generalizations about Islam in individual states or the region As such this volume provides new and impactful analysis for scholars students and policy makers concerned with Central Asia

The Transformation of Tajikistan John Heathershaw, Edmund Herzig, 2013-09-13 Tajikistan is one of the lesser known and least

researched former Soviet Central Asian republics The birth of the new state in 1991 was followed closely by a civil war which killed more than 50 000 people and displaced many tens of thousands more While a peace agreement was signed in 1997 significant political violence continued until 2001 and intermittent outbreaks still occur today Many claim it remains a very weak state and perhaps in danger of state failure or a return to civil war However the revival of Tajikistan should not simply be seen in terms of its post conflict stabilization Since its creation as a republic of the Soviet Union in 1920s Tajikistan has been transformed from being a shell for socialist engineering to become a national society under a modern state Despite a multitude of economic social and political shocks the Republic of Tajikistan endures This book places the transformation of Tajikistan in its Soviet and Post Soviet historical settings and local and global contexts It explores the sources of a state with Soviet roots but which has been radically transformed by independence and its exposure to global politics and economics The authors address the sources of statehood in history Islam and secularism gender relations the economy international politics and security affairs This book is a new edition of a special issue of Central Asian Survey Tajikistan the sources of statehood including two additional papers and a revised introduction

Intermarriage from Central Europe to Central Asia

Adrienne Edgar, Benjamin Frommer, 2020-06-01 Intermarriage from Central Europe to Central Asia examines the practice and experience of interethnic marriage in a range of countries and eras from imperial Germany to present day Tajikistan In this interdisciplinary volume Adrienne Edgar and Benjamin Frommer have drawn contributions from anthropologists and historians The contributors explore the phenomenon of intermarriage both from the top down in the form of state policies and official categories and from the bottom up through an intimate look at the experience and agency of mixed families in modern states determined to control the lives and identities of their citizens to an unprecedented degree Contributors address the tensions between state ethnic categories and the subjective identities of individuals the status of mixed individuals and families in a region characterized by continual changes in national borders and regimes and the role of intermarried couples and their descendants in imagining supranational communities The first of its kind Intermarriage from Central Europe to Central Asia is a foundational text for the study of intermarriage and ethnic mixing in Eastern Europe and Eurasia

Varieties of Secularism in Asia Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual

phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology *Kyrgyzstan* Laurence Mitchell,2015-02-05 A new edition of Bradt s unique and much praised guide to Kyrgyzstan **Current Debates in History & Politics** M. Ali Sağlam,Emek Yıldırım,2018 In the history section the subject of health was handled with two of the studies focusing on the war period and the other focusing on Antique Greece period In this context while war as a political instrument and attitudes of social groups towards its influences were handles the field of institutional construction was also simultaneously focused by one of the articles The article which deals with the Antique Greece period alongside the place of the god goddesses mythological characters and medicus in the social structure of Greece society their positions in the sphere of health were being handled Within the section of politics there are seven different articles investigates such different subjects as political parties the importance of the gender roles religion and identity matters relating with the Turkish right governmentality regarding to genetic knowledge and urbanization and terror typologies Consequently the papers in the book draw attention to different aspects of history and politics We believe that such studies would contribute to the development of debates in social sciences and encourage interdisciplinary approaches Historical Dictionary of Tajikistan Kamoludin Abdullaev,2018-08-10 Tajikistan is the poorest and only Persian speaking country among the post Soviet independent states Historically the Tajiks of Central Asia and Afghanistan along with the Persians of modern Iran came from a related ethnic group When the Tajik Autonomous Soviet Socialist Republic was established in late 1924 it became the first modern Tajik state that remained one of the 15 union republics of the Soviet Union until 1991 Almost immediately after the collapse of the USSR Tajikistan became a scene of brutal civil war taking place in one of the global hubs of religiously motivated political struggle militancy mass cross border refugee flows insurgency and drug trafficking During the first decade of the 21st century the country was making modest progress toward stability However the heavy burden of socio economic problems in addition to continuing conflict in the neighboring Afghanistan Pakistan presented even bigger challenges for Tajikistan In addition Western economic sanctions against Russia in 2014 coinciding with continuing lower oil prices have negatively affected one million of Tajik labor migrants in Russia Yet Tajikistan has become neither weaker nor less important as a player in world politics This third edition of Historical Dictionary of Tajikistan contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Tajikistan **Conflict Transformation in Central Asia** Christine Bichsel,2009-01-13 This book provides the first systematic analysis of peace building in Central Asia for inter ethnic conflicts over water and land in the Ferghana Valley based on concrete in depth and on site investigation The core analysis

centres on peace building projects in Kyrgyzstan Uzbekistan and Tajikistan by three international aid agencies an international NGO a bilateral governmental donor and a multilateral agency and the shared approach which the donors developed and used for conflict transformation Using ethnographic case material the author critically examines both the theoretical assumptions guiding this approach and its empirical outcomes when put into practice Building on existing work in conflict transformation and the ethnography of international assistance in Central Asia the book sheds light on Western attempts to transform the post socialist societies of Central Asia and provides fresh empirical data on and insights into irrigation practices social institutions and state and identity formation in the Ferghana Valley The book provides a novel and innovative approach to the study of development assistance and peace building It will be of interest to researchers in the field of Central Asian Studies post Soviet Studies Development and Peace and Conflict Studies
