

CHRYSLER SHOP MANUAL

FOREWORD

THIS manual is intended as both a guide and a reference book in the complete servicing of Chrysler cars.

It is complete in its operation detail, but brief and pointed in its instructions; essentials, properly organized, is its aim.

There are two major sections:

1. Servicing Methods.
2. Service Standards.

Servicing Methods have been grouped according to the major assemblies of the car. Under each major unit the operations have been carefully outlined and numerous action illustrations with proper tools in use have been introduced to clarify the text. Each subject has been treated in the following steps, insofar as it has been possible:

1. Removal and Installation.
2. Adjustments.
3. Maintenance.

Service Standards have been tabulated for the purpose of separating adjustments and standard sizes from the text and making them available for quick reference.

All service tools that are listed show the correct tool numbers and are available through the Factory Service Department. A complete catalog of all service tools manufactured by the Miller Tool Company, will be supplied on request by the Factory Service Department. A thorough understanding of the contents of this manual is necessary to every good service department. Study it carefully and frequently.
