**Drumming up Dialogue** Patrick Wanakuta Baraza, 2011-07-25 If as they say we all come out of Africa then somewhere in Kenya's Rift Valley we first learned to live as human beings and we quickly learned to quarrel too. Migration patterns within Kenya are as complicated as any in the U.S. or Europe and its multi-ethnic history is much much longer. Fr. Baraza knows both the brightness of human progress in a peaceful countryside as well as the shadows left by war and fighting. He writes about how to resolve conflicts and difficulties by people who have had long life experience. *Drumming Up Dialogue* applies the thinking of three leading writers in the field of conflict management to the Bukusu community of Kenya: philosopher Martin Buber, political scientist Fred Charles Ikl, and cultural anthropologist William Ury. These three theorists address the creating of peace between individuals, between opposing factions, and between countries and cultures. *Drumming* is a traditional Bukusu way of communication. Fr. Baraza uses the drum as a metaphor for the different ways dialogue can be used and interpreted. Baraza presents one of the very few studies of culture of the Bukusu people and the only one to address dialogue through their religions. Based upon the personal experiences and Baraza's ongoing contact with his Bukusu people, *Drumming Up Dialogue* seeks to awaken us to the cultural values of the Bukusu and offer an alternative way to conflict resolution. **Drum Circle Facilitation** Arthur Hull, 2007-06-01 An introduction and guide to the concepts of facilitating successful community rhythm-based events. *Politically Incorrect Dialogues* Howard P. Kainz, 2021-11-15 This book is about questions that one would hesitate to ask in certain groups because the questioning itself would mark him or her as an outsider or a liberal or a conservative or a reactionary interested in resurrecting issues which have been satisfactorily settled. But Western philosophy jump-started by the Socratic dialogues memorialized by Plato has traditionally concerned itself with reexamining meanings and values that many thought settled once and for all. In this book the interlocutors who disagree about almost everything nevertheless search for areas of agreement as they continue in this Socratic tradition. Wong, 2022-04-28 For hundreds of years until the 1900s in today's China, Japan, North and South Korea, and Vietnam, literati of Classical Chinese or Literary Sinitic wny n could communicate in writing interactively despite not speaking each other's languages. This book outlines the historical background of and the material conditions that led to widespread literacy development in premodern and early modern East Asia where reading and writing for formal purposes was conducted in Literary Sinitic. To exemplify how silent conversation or brush-assisted conversation is possible through writing-mediated brushed interaction synchronously face-to-face, this book presents contextualized examples from recurrent contexts involving
