**AP World History Course Key Concepts/ Study Guide**  
**Period 3 – Regional and Trans-regional Interactions**

Dates for Time Period #1: \_\_\_\_\_

**Directions:** Skim and scan the chapters and fill in the page numbers associated with each section first. Then, answer the following questions as you read the chapters. You may either answer on this sheet of paper or a separate sheet; the more effort you put into this study guide the better prepared you will be for your test!

**Page #:** \_\_\_\_\_ **Key Concept 3.1. Expansion and Intensification of Communication and Exchange Networks**

Although Afro-Eurasia and the Americas remained separate from one another, this era witnessed a deepening and widening of old and new networks of human interaction within and across regions. The results were unprecedented concentrations of wealth and the intensification of cross-cultural exchanges. Innovations in transportation, state policies and mercantile practices contributed to the expansion and development of commercial networks, which in turn served as conduits for cultural, technological and biological diffusion within and between various societies. Pastoral or nomadic groups played a key role in creating and sustaining these networks. Expanding networks fostered greater interregional borrowing, while at the same time sustaining regional diversity.

**Page #:** \_\_\_\_\_ **1. Improved transportation technologies and commercial practices led to an increased volume of trade, and expanded the geographical range of existing and newly active trade networks.**

- A. Existing trade routes, including the Silk Roads, the Mediterranean Sea, Trans-Saharan and the Indian Ocean basins, flourished and promoted the growth of powerful new trading cities (such as — to mention just a few — Novgorod, Timbuktu, Swahili city-states, Hangzhou, Calicut, Baghdad, Melaka and Venice, or in the Americas, Tenochtitlan or Cahokia).
- Describe how the following trading cities were influenced by existing trade routes:
    1. Novgorod:
    2. Timbuktu:
    3. Swahili city-states:
    4. Hangzhou:
    5. Calicut:
    6. Baghdad:
    7. Melaka:
    8. Venice:
    9. Tenochtitlan:
    10. Cahokia:
- B. The growth of interregional trade in luxury goods (such as silk and cotton textiles, porcelain, spices, precious metals and gems, slaves or exotic animals) was encouraged by significant innovations in previously existing transportation and commercial technologies, including more sophisticated caravan organization (such as caravanserais or camel saddles); use of the compass, astrolabe and larger ship designs in sea travel; and new forms of credit and monetization (such as bills of exchange, credit, checks or banking houses).
