Who Is the City For? Blair Kamin, 2022-11-21 A vividly illustrated collaboration between two of Chicago's most celebrated architecture critics casts a wise and unsparing eye on inequities in the built environment and attempts to rectify them From his high profile battles with Donald Trump to his insightful celebrations of Frank Lloyd Wright and front page takedowns of Chicago mega projects like Lincoln Yards Pulitzer Prize winning architecture critic Blair Kamin has long informed and delighted readers with his illuminating commentary Kamin's newest collection Who Is the City For does more than gather fifty five of his most notable Chicago Tribune columns from the past decade it pairs his words with striking new images by photographer and architecture critic Lee Bey Kamin's former rival at the Chicago Sun Times Together they paint a revealing portrait of Chicago that reaches beyond its glamorous downtown and dramatic buildings by renowned architects like Jeanne Gang to its culturally diverse neighborhoods including modest structures associated with storied figures from the city's Black history such as Emmett Till At the book's heart is its expansive approach to a central concept in contemporary political and architectural discourse equity Kamin argues for a broad understanding of the term one that prioritizes both the shared spaces of the public realm and the urgent need to rebuild Black and brown neighborhoods devastated by decades of discrimination and disinvestment At best he writes in the book's introduction the public realm can serve as an equalizing force a democratizing force It can spread life's pleasures and confer dignity irrespective of a person's race income creed or gender In doing so the public realm can promote the social contract the notion that we are more than our individual selves that our common humanity is made manifest in common ground Yet the reality in Chicago as Who Is the City For powerfully demonstrates often falls painfully short of that ideal

Urban Green Colin Fisher,2015-05-11 In early twentieth century America affluent city dwellers made a habit of venturing out of doors and vacationing in resorts and national parks Yet the rich and the privileged were not the only ones who sought respite in nature In this pathbreaking book historian Colin Fisher demonstrates that working class white immigrants and African Americans in rapidly industrializing Chicago also fled the urban environment during their scarce leisure time If they had the means they traveled to wilderness parks just past the city limits as well as to rural resorts in Wisconsin and Michigan But lacking time and money they most often sought out nature within the city itself at urban parks

and commercial groves along the Lake Michigan shore even in vacant lots Chicagoans enjoyed a variety of outdoor recreational activities in these green spaces and they used them to forge ethnic and working class community While narrating a crucial era in the history of Chicago's urban development Fisher makes important interventions in debates about working class leisure the history of urban parks environmental justice the African American experience immigration history and the cultural history of nature
