**Curriculum Based Evaluation** Kenneth W. Howell, Sheila A. Fox, Mada Kay Morehead, 1993 This curriculum based approach to assessment examines teacher made tests and curriculum as they relate to a child s success or failure rather than looking at formal standardized tests Using a step by step approach the authors show teachers how to work with the curriculum and adapt it to meet the child s needs how to assess in an ongoing way and how to recognize when curriculum change is warranted Designed to show readers how to think like evaluators rather than just telling them what to do during an evaluation the book encourages active participation on the part of the reader Emphasizing decision making over measurement and uniting the functions of evaluation and instruction the authors provide a text that takes an issues approach rather than laying out a strict how to blueprint Unlike traditional approaches that focus on the incapacities of students this text focuses on what teachers and evaluators do not on who they do it to The author s clear thoughtful and sometimes humorous writing style is coupled with a variety of in text learning aids quotes key terms study questions illustrations and charts and tables to make the text easy to understand as well as a valuable reference for future use
