Harcourt School Publishers Trophies, 2002 *Harcourt School Publishers Trophies Florida* HSP, 2002 **Collecting for the Curriculum** Amy J. Catalano, 2015-09-28 If you are a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children's literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials **Improving Student Learning One Teacher at a Time** Jane E. Inclusive Texts in Elementary Classrooms Amy J. Heineke, Aimee Papola-Ellis, 2022 Learn how to put children's diverse and storied experiences at the center of the curriculum Schools are more diverse than ever before but the texts and materials that typify classroom curricula continue to prioritize so called mainstream stories and perspectives These canonical texts often exclude the nuanced identities and rich lived experiences of the very children sitting in today's classrooms But kids thrive when they see themselves in texts and learn about the world around them by connecting with the experiences of others Based on the authors work with elementary school teachers over the last decade this resource offers strategies for moving away from canonical texts The authors present a four part framework for selecting using and engaging students with texts that promote children's identity development literacy engagement and comprehension and learning across the content areas The practical text provides guidance for setting learning goals that align with relevant standards and curricular directives as well as classrooms examples teaching strategies and reflective questions Book Features An actionable way for

teachers to move from theory to practice using what we know about culturally relevant practice and critical literacy to create instruction that enhances children's classroom experiences and learning An inclusive and intersectional approach that supports all teachers in enhancing their classroom libraries and curricular resources for the benefit of all students Specific ideas for texts and authors as well as more generalizable themes and ideas that will guide future exploration and use of texts in classrooms Tangible strategies and rich classrooms examples from 20 expert teachers spanning diverse elementary school settings Reflective questions to help practitioners personalize the content to their own contexts *Annual Report for Illinois State Superintendent* Round Lake Area School District 116 (Ill.).
