with passion purpose and power **Gower Handbook of Call and Contact Centre Management** Natalie Calvert, 2017-05-15 Call centres and contact centres form an important and rapidly growing part of today's business world. They present a range of management challenges from strategic decisions about how to develop a customer strategy business planning through to detailed considerations of staffing levels and appropriate technology. This new handbook, the first of its kind, provides a unique insight giving expert opinions on how to get the most out of your contact centre operations. Natalie Calvert, a specialist in the field, has brought together a team of 35 experienced practitioners who provide invaluable knowledge, share their experiences and draw on real life examples to suggest practical solutions on a wide range of topics. This handbook is an indispensable guide and reference for call and contact centre managers, HR specialists and senior executives responsible for marketing, sales or customer services. The handbook is divided into six parts: I The business plan II The people factor III Contact centre technology IV Standards processes and outsourcing V Building profitable customer relationships VI The future [A Practical Guide to Call Center Technology](#) Andrew Waite, 2002-01-02 Get the most out of ACDs, automatic call distributors and other complex systems in order to boost customer satisfaction and increase sales. Includes three ready-to-use RFPs, request for proposals for buying an ACD computer telephony system or recording. *A Practical Guide to CRM* Janice Reynolds, 2002-02-05 In today's global economy, the customer has more and better choices than ever before, bringing on one of the biggest challenges the business community faces today: customer loyalty and retention. To thrive in today's customer-driven economy, a company needs *Organising Knowledge* Patrick Lambe, 2014-01-23 Taxonomies are often thought to play a niche role within content-oriented knowledge management projects. They are thought to be nice to have but not essential. In this ground-breaking book, Patrick Lambe shows how they play an integral role in helping organizations coordinate and communicate effectively. Through a series of case studies, he demonstrates the range of ways in which taxonomies can help organizations to leverage and articulate their knowledge. A step-by-step guide in the book to running a taxonomy project is full of practical advice for knowledge managers and business owners alike. Written in a clear, accessible style, demystifying the jargon surrounding taxonomies. Case studies give real-world examples of taxonomies in use. Step-by-step guides take the reader through the key stages in a taxonomy project.
