Developing Materials for Innovative Teaching and Sustainable Learning Andrzej

Cirocki, Raichle Farrelly, Taylor Sapp, 2024-10-30 This volume features current innovative and effective ways of developing instructional materials for diverse English Language Teaching (ELT) contexts. It is divided into four sections each featuring pedagogical materials designed for specific groups of learners. The sections focus on materials for general English, ESP and EAP, CLIL and ELT teacher education courses. The chapters written by experienced educators from around the world are highly practical and detail the process of designing materials for innovative and sustainable language education. The contributors reflect on their own practice, describe the materials design process, explain the guiding principles and connect the design process with the local context and educational policies. They also offer practical tips to inspire classroom practitioners to create their own materials promoting innovative teaching and sustainable learning. Ultimately, their chapters aim to encourage a world where teaching involves creativity and adaptability leading to transformative learning for both teachers and learners.

English Language Education Across Greater China Anwei Feng, 2011-02-01 This volume is the first to offer a comprehensive and at the same time in depth examination of the spread of English and English language education across Greater China. It consists of two parts. Part 1 presents rich sociolinguistic data for easy comparisons between mainland China, Singapore, Taiwan, Hong Kong and Macao, while Part 2 explores in depth the phenomena inside mainland China to provide contrastive analysis of English language use and education in economically booming areas such as Shanghai and Guangdong and underdeveloped regions like Xinjiang and Yunnan. With the descriptive, comparative and analytical accounts of different territories ranging from nation states to small villages in remote areas, theories on the spread of English, second language acquisition and identity are challenged with new concepts proposed and established.

The Task-Based Syllabus Gusti Astika, 2025-05-01 The Task Based Syllabus: Principles, Design and Implementation is a comprehensive guide for educators, curriculum developers and researchers seeking to implement or refine task based language teaching (TBLT) in diverse learning environments. Rooted in the principles of communicative language teaching, this book provides both theoretical foundations and practical insights into designing syllabi that prioritize meaningful, goal-oriented tasks to enhance language acquisition. Through ten carefully structured chapters, the book introduces the core concepts of TBLT, defines and categorizes tasks, and explores key theories that support task-based instruction. It guides readers through conducting effective needs analyses, applying sound design principles, and implementing engaging, level-appropriate tasks in the classroom. Special attention is given to assessment methods aligned with TBLT, as well as strategies for overcoming institutional and pedagogical challenges. Rich with case studies, real-world examples, and adaptable tools, the book also looks to the future by examining how technology and interdisciplinary approaches are shaping the evolution of task-based syllabi. With detailed appendices offering sample syllabi, assessment tools, and additional resources, this book serves as both a

foundational text and a practical manual for anyone committed to designing impactful learner centered language curricula
