Ricardo Calca, Investing and trading is the best business in the world as far as I am concerned. It is the only business I know of where you can be at the beach on a beautiful sunny day or scuba diving or flying to Europe for the weekend to meet up with friends and still be making money the whole time you're doing it. This book is for all the new beginner and upcoming aspiring investors, day traders and swing traders who are coming into the business and have zero or very limited knowledge so they won't have to waste valuable learning time and money to figure out only the most important things to know on their own. No other business in the world other than trading the financial markets allows you to work at your own pace and make an unlimited amount of money. A brand new trader with no experience can read this book and depending on how fast they can grasp the concepts and learn them can be making an income for themselves in as little as 30 days to 6 months. Learning the trading business is not as hard as one would imagine as long as you are learning it the right way the first time from the first day. This book and the information it provides to brand new investors and traders is like having the keys to your mansion, Ferrari and super yacht handed to you all at the same time. You can certainly have all of those things and more if you just take your time and go slow and logically think through what this book is telling you to do.
