Dialogues on Migration Policy Marco Giugni, Florence Passy, 2006 *Dialogues on Migration Policy* brings together leading American and European scholars of immigration politics to address migration policy Editors Marco Giugni and Florence Passy s aim to present a number of informed dialogues addressing three main theoretical concerns in this field the role of the national state in a globalizing world the determinants of policy change and the role of collective interests in migration policy Adopting an unconventional format the novelty of *Dialogues on Migration Policy* lies in the fact that it is structured around a series of debates among authors In each debate expert contributors working in different theoretical traditions and with divergent views on the subject matter confront each other followed by a commentary from a leading scholar based on her his reading of these authors views These lively debates are certain to engage scholars of migration political science and sociology

The Places We Share Susan Ossman, 2007-02-09 While some people study globalization others live their lives as global experiments This book brings together people who do both The authors or subjects of these studies are of diverse national religious and ethnic backgrounds What they have in common is a connection to Morocco It is from this shared space that they draw on personal stories fieldwork and literary and linguistic analysis to provide a critical socially reflexive response to the conceptions of culture identity and mobility that animate debates on migration and cosmopolitanism On the trail of the Bedouin or Europe s new nomads and of Zaccarias Moussaoui *Places We Share* explores the relationship of mobility to subjectivity and how physically moving can be a way of escaping the stigma of being an immigrant Reading Rushdie listening to Moroccan women converse in the UAE or examining how the experience of serial migration can shape comparative ethnography we become more aware of how moving pushes us up against the limits of global experience These limits must be recognized They can be positively embraced to develop new ways of conceiving of ourselves the world and our connections to others

Citizenship and Intercultural Dialogue Christine Laton, 2018-07-17 In the wake of tragic terrorist attacks in Western Europe so called parallel communities have come under increased scrutiny and pressure to be engaged and integrated in the politics and society of the country of settlement In this context the tools of intercultural dialogue and citizenship have been proposed to bridge the gap between majority and minority communities Yet how are these concepts understood on the ground This book explores perceptions of citizenship and intercultural dialogue among minority youth in Berlin and London chosen for their contrasting citizenship and immigration policies Germany has a strong ethnic heritage and the presence of a large minority community from Turkey The policies and relationship with the Turkish community have often served to perpetuate cultural and ethnic boundaries their presence overshadowing the numerous other ethnicities living within Germany In the UK the large presence of immigrants of Afro Caribbean and Asian descent often dominates centre stage in a much more territorially defined political context while the needs and demands of smaller communities are not commonly known Nonetheless these smaller communities shape and even offer unique insights into the way that local contexts interact with international and transnational structures It is argued that in both cities minority youths communicated feelings and experiences of marginalization and contestation generally feeling a sense of belonging to their local neighbourhoods but not to broader society The book explores the process of valuing the idea that a value is put on an immigrant according to their desirability or undesirability based on ethnicity or skills Furthermore it assesses the role of education as a mediator between state and society By arguing that local engagement has international ramifications and highlighting the importance of the role of youth in international politics this book offers a new perspective on International Relations and Diaspora Studies

Reluctant Reception Kelsey P. Norman, 2020-11-12 Seeking to understand why host states treat migrants and refugees inclusively exclusively or without any direct engagement Kelsey P Norman offers this original comparative analysis of the politics of asylum seeking and migration in the Middle East and North Africa While current classifications of migrant and refugee engagement in the Global South mistake the absence of formal policy and law for neglect *Reluctant Reception* proposes the concept of strategic indifference where states proclaim to be indifferent toward migrants and refugees thereby inviting international organizations and local NGOs to step in and provide services on the state's behalf Using the cases of Egypt Morocco and Turkey to develop her theory of strategic indifference Norman demonstrates how by allowing migrants and refugees to integrate locally into large informal economies and by allowing organizations to provide basic services host countries receive international credibility while only exerting minimal state resources

Mexico-U.S. Migration Management Augustín Escobar Latapí, Susan F. Martin, 2008-10-23 The need to understand the migration between the United States and Mexico is greater today than at any time in its century long history Its volume and complexity are greater than most observers might have imagined even a decade ago and it operates in a context charged with serious human political and security challenges Yet there is often confusion over the most fundamental questions about the demography economics and political nature of the movement and its policy responses The editors of this book bring together a team of top policy oriented migration experts from Mexico and the United States to provide an up to date analysis leading to grounded policy recommendations for both governments Their conclusions derive from new analyses as well as from detailed discussions with policy makers Contributors assess the main characteristics trends and factors influencing Mexico U S migration and recommend actions that should improve migration management substantially reduce undocumented flows and refocus Mexican migration into legal channels Also contained within this book are recommendations of development strategies in Mexico that should reduce mid to long term emigration pressures The book shows that collaboration between the U S and Mexico is not only possible but necessary as unilateral reforms will continue to fail until both governments act together to regulate the flow improve conditions for the migrants and make sure that migration has positive social and economic impacts on both countries

Implementing EU Mobility Partnerships Fanny Tittel-Mosser,2020-06-08 This book provides a comprehensive assessment of the effectiveness of Mobility Partnerships and their consequences for third countries Mobility partnerships between the EU and third countries are usually viewed as reflecting asymmetric power relations where development aid trade relations and visa policies are made conditional upon the cooperation by third countries with an EU agenda of migration control This book argues that three main factors condition the relevance of Mobility Partnerships the state of relations between EU Member States and a third country and in particular the role of postcolonial ties the power of negotiation of a third country which is linked to its geopolitical importance for the EU and its administrative capacity which is understood as the capacity of a state to define and implement policies and to legislate and enforce the law The work combines a comparative legal analysis of the development of the legal and policy frameworks in the cases of Morocco and Cape Verde with an empirical study of the implementation of Mobility Partnerships projects The analysis demonstrates that Mobility Partnerships despite their non binding nature have legal and policy relevance for these third countries with regard to the regulation of migration asylum human trafficking and even labour law As such this book makes a contribution to the understanding of the interplay between the interests of EU Member State and third country actors in the implementation of the Mobility Partnerships The book will be a key resource for academics and students focusing on Migration Law EU Studies Geopolitics and African Studies The empirical approach will also appeal to policy makers international organisation representatives and NGOs

international level especially among those interested in political science women s studies international relations and criminology *The Politics of Dialogue* Ranabir Samaddar, 2017-07-05 Offering a detailed analysis of post colonial South Asia The Politics of Dialogue discusses the creation and impact of borders and the pervasive tension between the new nations Neither all out war nor complete peace this fragile condition makes political leaders and strategists feel claustrophobic a war produces an end result but peace allows the rulers to carry out their policies for governing along their preferred path of development The book shows how cartographic communal and political lines are not only dividing countries but that they are being replicated within countries creating new visible and invisible internal frontiers It argues that in a situation where geopolitics constrains democracy the political class becomes incapable of coping with the tension between the inside outside eg democracy appears as an internal problem and geopolitics appears as a problem related to the outside
