## The Landscape Architecture of Kongjian Yu

WILLIAM S. SAUNDERS (ED.)

*Kongjian Yu is probably the most important Chinese landscape architect of our time. His work practice is highly effective and creative when it addresses urgent urban growth, environmental, and resource issues not only in China but around the world.*

—James Corner

*This projects have a high quality of craftsmanship that is rare in Asia these days. They are focused on both environmental issues such as native vegetation and sustainable water systems and on cultural features that encourage public use and stimulation.*

—Richard Heins

*The strength of Kongjian Yu's practice lies in his imaginative capacity to regenerate ordinary and discarded sites of industrial production something achieved through the creative utilization of ecological processes and their aesthetic consequences.*

—Steven Korman

*Kongjian Yu, through his brilliant work, presented both an example and a challenge to us all!*

—Tom Wolfe

Kongjian Yu and his office, Landscape Architecture Research Studio, have been the most successful landscape architecture practice in China today. The vast scale of China and the apparently boundless growth have enabled Yu to see more than that we still largely perceive in the Western world. His work has obtained an extremely high and elegant level in both conception and execution. Kongjian Yu is known for his ecological stance, often against the resistance of local authorities. His guiding design principles are the appreciation of the culture and a deep understanding of nature, seen in his potentially destructive projects, such as Foshan. Among the most successful projects are Huashan Park for Shanghai (China), the East Station Park in Qiongzhusi, and Shuangzi Park in Jiangsu. This book explores Yu's work in detail through his recent authors and documents his many important projects in detail.
