

RATIONALE FOR LESSON PLAN

For the use of literature in the early years English program I decided to choose "Adjectives" as my focus for my lesson plan. The reason I chose adjectives as a focus is because I think its very interesting topic to teach, as it is very engaging.

I believe it's a productive, enjoyable and informative lesson for students. By teaching this topic to a grade one class, makes the focus a lot easier to comprehend what adjectives are, and why they're used. I have also made sure my lesson plan links to the Australian Curriculum, as students are able to explore differences in words such as nouns, verbs, adjectives and adverbs (AusVELs, 2015).

The topic of adjectives was chosen as it is an area of literacy that children are familiar with, this is shown in a number of ways such as through reading picture story books and through every day conversations.

To help students understand the word meaning, teachers are able to get students to construct sentences that clearly indicate meaning (Seely Flint, Kitson, Lowe, & Shaw, 2014).

To begin the lesson I thought it would be a good idea to tune the students in with a picture book we have been focussing on for the past week, which is called " Polar Opposites" by Erik Brooks. "Reading aloud, and writing offer opportunities for all students to extend their knowledge, skills and practices through whole-class explicit lessons or mini-lesson topics based on relevant curriculum content" (Seely Flint, Kitson, Lowe, & Shaw, 2014, p.279).

I knew that the students found this book very interesting as the book is full of colour illustrations and a wide range of describing words. This book teaches children about all types of opposites. I found that students could easily pick up on the different types of adjectives such soft, hard, sweet, sour and many more.

Frame Analysis, Critical Theory, and English Language Teaching Robert J. Lowe, 2025-08-18 In this book Robert J Lowe introduces frame analysis a qualitative research approach grounded in the critical theory of the early Frankfurt School and framing in the social sciences Lowe sets out the principles of the frame analysis approach and provides a guide to conducting this kind of research in practice Focused on identifying and challenging ideology through immanent critique Lowe presents a methodological guide and research report He begins by explaining early critical theory and the frame analysis approach followed by a detailed example of its application This example illustrates the key stages identifying participants ideological presuppositions through their master framing questioning the internal logic of this framing and presenting contradictions to participants Finally the researcher observes reactions and documents emerging counter framing marking the first signs of resistance to dominant ideology By applying this approach to issues in English language teaching the book questions some of the ways in which the rhetoric of pluralism and diversity around English as an international language may stand at odds with the realities of a world in which some varieties of the language have more prestige than others Through the frame analysis approach the author suggests that researchers can play a role in empowering language learners and users to advocate for a world in which they can take true ownership of the language Key reading for all qualitative researchers and advanced students in applied linguistics sociolinguistics ELT TESOL and linguistic anthropology
