*Layoff Time Training* United States. Employment and Training Administration, Curtis Aller, 1978 This monograph is an account of one effort to convert an economic and human waste the nonproductive time of laid off workers into an individual and community asset The effort began as an Experimental and Demonstration project funded by the Employment and Training Administration The project provided training and stipends for laid off low skilled workers in the California canning industry which made trainees eligible for promotion to jobs offering more pay per hour and more hours per year and substantially increasing earnings At the conclusion of the project the employers and the union agreed to continue the training program at the employers expense and incorporated the training into the collective bargaining agreement Layoff Time Training Randall B. Ripley, Robert W. Glover, United States. Bureau of Labor Statistics, United States. Employment and Training Administration, 1977 **R & D Monograph** , *A Plan to Develop and Compare Two Vocational Education Models for Limited English Proficiency Students* , 1982 *Language Minority Students in American Schools* H. J. Kennedy, Dorothy M. Kennedy, Marcia F. Muth, 2010-04 When it was first published twenty years ago The Bedford Guide for College Writers brought a lively and innovative new approach to the teaching of writing Since that time authors X J and Dorothy M Kennedy have won praise for their friendly tone and their view apparent on every page of the text that writing is the usually surprising often rewarding art of thinking while working with language More recently experienced teacher and writer Marcia F Muth

joined the author team adding more practical advice to help all students even those underprepared for college work become successful academic writers While retaining the highly praised Kennedy touch The Bedford Guide continues to evolve to meet classroom needs The new edition does even more to build essential academic writing skills with expanded coverage of audience analysis source based writing argumentation and reasoning and more

*Rethinking Linguistic Creativity in Non-native Englishes* Sandra C. Deshors, Sandra Götz, Samantha Laporte, 2018-07-19 At a time when the paradigm gap Sridhar Sridhar 1986 between the EFL and ESL research areas is attracting much scholarly attention the contributions in the current volume explore this gap from the perspective of linguistic innovations across the two different types of non native Englishes In this endeavour this volume unveils the many facets of linguistic innovations in non native English varieties and explores the fine line between learners erroneous versus creative use of a target language Adopting empirical corpus based approaches to portray linguistic innovations characteristic of EFL and ESL varieties the contributions show how the interaction of linguistic and social forces influences the development of novel linguistic forms in both endonormative ESL contexts and exonormative EFL contexts This volume is of relevance to linguists who are interested in the features of non native English and who wish to gain a better understanding of the nature of innovations along the EFL ESL continuum Originally published as a special issue of International Journal of Learner Corpora Research 2 2 2016

**Exploring Writing** John Langan, 2007

Future Directions in Applied Linguistics Christina Gitsaki, 2011-12-08 The field of applied linguistics covers a diverse range of research and practice and has developed somewhat differently in various parts of the world due to variations in local socio cultural conditions needs and issues However this local diversity does not reflect a field that is incoherent but rather one which has a broad shared international agenda which is invigorated by the diversity brought to the field by local perspectives The papers in this volume represent some of the major global directions that research in applied linguistics is taking and shed light on how language is used to affect practice The aim of this volume is to explore some of the key methods and issues

which are guiding applied linguistics into the future through an examination of these issues in local contexts thereby providing a basis for understanding the global directions the field is taking These directions follow two historically defined paths those related to educational studies and language teaching and those related to social issues involving language In the volume half the papers focus on the former examining issues of language teaching language teacher education and second language acquisition while the other half examine social issues related to language use bilingualism and multilingualism and language policy and planning The collection of papers presented in this book illustrates how these traditional themes are influenced by the rising forces of globalisation and the use of technology thus exemplifying both the new and old ways in which the study of language is realised

**Keeping the Immigrant Bargain** Vivian Louie, 2012-06-01 Most nineteenth and early twentieth century European immigrants arrived in the United States with barely more than the clothes on their backs They performed menial jobs spoke little English and often faced a hostile reception But two or more generations later the overwhelming majority of their descendants had successfully integrated into American society Today's immigrants face many of the same challenges but some experts worry that their integration especially among Latinos will not be as successful as their European counterparts Keeping the Immigrant Bargain examines the journey of Dominican and Colombian newcomers whose children have achieved academic success one generation after the arrival of their parents Sociologist Vivian Louie provides a much needed comparison of how both parents and children understand the immigrant journey toward education mobility and assimilation Based on Louie's own survey and interview study Keeping the Immigrant Bargain examines the lives of thirty seven foreign born Dominican and Colombian parents and their seventy six young adult offspring the majority of whom were enrolled in or had graduated from college The book shows how they are adapting to American schools jobs neighborhoods and culture Louie discovers that before coming to the United States some of these parents had already achieved higher levels of education than the average foreign born Dominican or Colombian and after arrival many owned their own homes Significantly most parents in each group expressed optimism about their potential to succeed in the United States while also expressing pessimism about whether they would ever be accepted as Americans In contrast to the social exclusion experienced by their parents most of the young adults had assimilated linguistically and believed themselves to be full participants in American society Keeping the Immigrant Bargain shows that the offspring of these largely working class immigrants had several factors in common that aided their mobility Their parents were highly engaged in their lives and educational progress although not always in ways expected by schools or their children and the children possessed a strong degree of self motivation Equally important was the availability of key institutional networks of support including teachers peers afterschool and other enrichment programs and informal mentors outside of the classroom These institutional networks gave the children the guidance they needed to succeed in school offering information the parents often did not know themselves While not all immigrants achieve such rapid success this engrossing study shows how powerful the

combination of self motivation engaged families and strong institutional support can be Keeping the Immigrant Bargain makes the case that institutional relationships such as teachers and principals who are trained to accommodate cultural difference and community organizations that help parents and children learn how to navigate the system can bear significantly on immigrant educational success *Research, Evaluation, and Demonstration Projects* ,1986 *Compliance and Compromise* Cher Weixia Chen,2011-09-23 Compliance and Compromise examines the status of gender pay equity that has been largely overlooked and how domestic legal systems respond to the ILO Convention No 100 on Equal Remuneration with the novel application of the theory transnational legal process **Successful Teacher: Personality and Other Correlates** Elena Mirela Samfira,Tiberiu Sandu Dughi,Jesus de la Fuente,2023-11-08 The question of what makes a good teacher has been asked by practitioners policymakers and researchers Teachers are important drivers of student success in the immediate term such as academic success Nowadays the education process is influenced by various factors which can all have a strong effect on the quality of teaching and learning Having the intention to create high quality teaching and learning it is very important to clearly determine what those factors are and what kind of effect they have on the education process Different teacher characteristics and competencies have been distinguished in the literature as being relevant predictors of their instructional quality Even though educational psychology has emphasized the significance of the personality role in the education process the empirical evidence on the relationship between teacher characteristics and instructional quality is not yet conclusive Certainly there is much more to find out Congressional Record United States.
