case for Software on Demand and shows you who's already out there creating and using this new model Fred Magner Chief Information Officer Unocal Corporation As a pioneer of the On Demand delivery model Dr Chou challenges certain conventions long held by the software industry The End of Software provokes industry participants to re think how big software should be packaged sold and delivered in the future Stephen Wong Chairman and Chief Executive Officer of Embarcadero Technologies Dr Timothy Chou's book The End of Software presents a logical argument for the shift from selling and buying software or the promise of the value that software represents to selling and buying the actual value that software can bring to a user This is very persuasive especially when you consider the legacy of software vendors who are notorious for over promising and under delivering As Dr Chou so clearly understands and why shouldn't he he's lived it this new delivery method simply makes sense But the world is often slow to change as keen observers of the technology industry we'll be watching closely John S DiFucci Senior Software Analyst Managing Director Bear Stearns and Company Incorporated     **Enterprise Software Tco** Shaun Snapp,2013-12
