## **Foreign Policy In Comparative Perspective Domestic And International Influences On State Behavior:**

Foreign Policy in Comparative Perspective Ryan K. Beasley, Juliet Kaarbo, Jeffrey S. Lantis, Michael T. Snarr, 2012-04-25  
Widely regarded as the most comprehensive comparative foreign policy text *Foreign Policy in Comparative Perspective* has been completely updated in this much anticipated second edition Exploring the foreign policies of thirteen nations both major and emerging players and representing all regions of the world chapter authors link the study of international relations to domestic politics while treating each nation according to individual histories and contemporary dilemmas The book s accessible theoretical framework is designed to enable comparative analysis helping students discern patterns to understand why a state acts as it does in foreign affairs *Foreign policy in Comparative Perspective: Domestic and International Influences on State Behavior* Ryan K. Beasley, 2013 In this much anticipated revision of their unique text the editors bring together fifteen top scholars to highlight the importance of both internal and external forces in foreign policymaking

Foreign Policy in Comparative Perspective Ryan K. Beasley, Juliet Kaarbo, Jeffrey S. Lantis, Michael T. Snarr, 2012-04-25  
Widely regarded as the most comprehensive comparative foreign policy text *Foreign Policy in Comparative Perspective* has been completely updated in this much anticipated second edition Exploring the foreign policies of thirteen nations both major and emerging players and representing all regions of the world chapter authors link the study of international relations to domestic politics while treating each nation according to individual histories and contemporary dilemmas The book s accessible theoretical framework is designed to enable comparative analysis helping students discern patterns to understand why a state acts as it does in foreign affairs **Environmental Change and Foreign Policy** Paul G. Harris, 2009-06-03  
*Environmental Change and Foreign Policy* Theory and Practice and its companion volume *Climate Change and Foreign Policy Case Studies from East to West* examine and explain the role of foreign policy politics processes and institutions in efforts to protect the environment and natural resources They seek to highlight international efforts to address human induced changes to the natural environment analyze the actors and institutions that constrain and shape actions on environmental issues show how environmental changes influence foreign policy processes and critically assess environmental foreign policies Focusing on theory and practice this book Introduces the concepts and theories of Environmental Foreign Policy providing a theoretical overview as well as addressing the construction of nature the symbolism of environmental policy and business and government responses to climate change Explores the practice of Environmental Foreign Policy describing how both developed and developing countries have approached a variety of environmental issues including persistent organic pollutants water biodiversity climate change and the trade environment nexus This book will be of strong interest to scholars and students of environmental policy and politics foreign policy public policy climate change and international relations

Foreign Policy Change in Europe Since 1991 Jeroen K. Joly, Tim Haesebrouck, 2021-08-27 In the past three decades the world has witnessed many rapid and invasive changes and seems to be changing countries have adapted their foreign

policies to these changes Building on a clear typology of foreign policy change and a consistent theoretical framework this book offers a comparative analysis of foreign policy change in Europe throughout the post Cold War period Along the lines of our analytical framework country experts discuss how and why the further ever more rapidly in ways that seemed only imaginable in movies This book investigates how European foreign policies of eleven European countries have changed over the past thirty years This book hereby advances our understanding of the phenomenon of foreign policy change and identifies the most important drivers and inhibitors of change **Foreign Policy Analysis** Valerie M. Hudson, Benjamin S.

Day, 2019-09-03 This succinct yet comprehensive introduction to Foreign Policy Analysis FPA is geared toward advanced undergraduate and beginning graduate students Cogently written clearly organized and filled with illuminating examples the third edition has been thoroughly revised and updated Beginning with an overview of this broad field of study Hudson and Day consider theory and research at multiple levels of analysis including personality and psychology of foreign policy decision makers small group dynamics the organizational process bureaucratic politics domestic politics cultural and societal influences national attributes and system level effects on foreign policy The authors also examine the promise and frustration of theoretical integration in FPA and overview promising new work by non North American scholars **Foreign Policy**

**Formulation and Implementation of Small States** Faies Jafar, 2023-05-08 The foreign policy behavior of small states which in today s world comprise some sixty countries is not prominently represented in academia Studies associated with these states foreign policy tend to focus on their behavior in the international arena with a clear dominance of realist thoughts Small states are often seen from a closed box approach where the internal factors leadership and other domestic issues are given scant attention by scholars leaving substantial and important gaps in the knowledge This book which emerged from original and extensive research over five years attempts to fill some of these gaps The book is concerned with the foreign policy formulation and implementation of the small Caribbean state of Trinidad and Tobago and without the claim of generalization it is hoped that similar studies will encourage scholars to develop a wider theory about small states foreign policy behavior The foreign policy process and the associated factors provide insights and help to develop an epistemic framework as to how the twin island state behaved under objective and subjective constraints and more specifically how the decision makers choose their foreign policy preferences [The American Anomaly](#) Raymond A. Smith, 2010-10-18 Seymour

Martin Lipset pronounced over a decade ago Those who know only one country know no country It is well established that students learn the intricacies of American politics better when they are presented in a comparative context In today s globalized society and workforce it is all the more important for students to understand that the American political system is in many ways the exception and not the rule Introductory textbooks on American government however rarely emphasize in sufficient depth how the United States compares to other political systems And introductions to comparative politics infrequently situate the United States in their analysis The American Anomaly systematically analyzes the U S political

system by way of comparison with other countries especially other industrialized democracies It is organized into four sections respectively covering the constitutional order governmental institutions political participation and public policy Extended case studies in each chapter draw on all the major regions of the world Thoroughly revised throughout the second edition also includes a new chapter on domestic public policy including civil rights and liberties a new chapter on foreign policy updates throughout to reflect the 2008 elections and the beginning of the Obama administration a reorganized section on political participation over a dozen new figures and tables A companion website also offers overview slides links and other supporting features

**US Foreign Policy in Action** Jeffrey S. Lantis, 2012-10-25 This innovative teaching text on United States foreign policy interprets the foreign policy decision making process through the lens of political debate and exchange It introduces historical developments and theories of U S foreign policy and engages students in the politics of the foreign policy process through innovative learning exercises Features critical analysis of contemporary trends in U S foreign policy including debates in the Obama administration foreign policy and the 2012 presidential election and reaction to the Arab Spring Written by an award winning teacher scholar in international relations with extensive experience in both policy making and pedagogy Views foreign policy decision making through the lens of political debate Offers fresh perspectives on historical developments as well as surveying prominent foreign policy theories Includes new and innovative participatory learning exercises exploring a range of themes including executive legislature conflict Contains extensive teaching and learning applications including discussion questions document templates worksheets suggested readings and links to web resources throughout

**The Search for a Common European Foreign and Security Policy** A. Malici, 2016-01-05 When Kissinger lamented When I want to call Europe I cannot find a phone number the implication was clear Since then the momentum of the EU towards a common foreign and security policy has increased Yet the viability of this institutionalization effort is questionable This book advances a new perspective on this paradox

**Africa's International Relations in a Globalising World** Usman A. Tar, Sharkdam Wapmuk, 2022-10-26 Since its emergence in 1960 as an independent state Nigeria has stood out as the most populous Black country in the world In Africa's International Relations in a Globalising World Perspectives on Nigerian Foreign Policy at Sixty and Beyond edited by Usman A Tar and Sharkdam Wapmuk contributors examine Nigeria's role within Africa as well as internationally This book shows how Nigeria has used the platforms of international organisations to advance its interests while fulfilling its regional and global obligations The contributors address areas such as Nigeria's economic development and policies Nigeria's relationship with other countries and the urgent challenge of countering terrorism in the context of ensuring sustainable development The COVID 19 pandemic brought to the fore the need for strong global relations and reminded humanity of the importance of multilateral solutions to global problems such as health The editors and contributors address essential questions such as how well has Nigerian foreign policy and its practice of diplomacy served national interest and what more needs to be done to assure of

better results now and into the future      **Struggle for Alliance** Abdolrasool Divsallar,2024-08-22 This book provides a comprehensive study of the complex impacts of the war in Ukraine on Russo Iranian relations and the resulting consequences for the international relations of the Middle East In contrast to dominant academic approaches which view Russo Iranian relations through the lens of an anti hegemonic agenda and confrontation with the US led international order this study presents an alternative angle stating that the war in Ukraine has sped up Moscow and Tehran s interdependency primarily because of the protective benefits that it brings to both states The book analyzes various debates about the impact of the war on Russo Iranian relations From the perspective of the emerging literature on authoritarian regionalism the book explores how domestic politics and common threat perceptions play a role in these states decisions to adjust to the systemic changes caused by the war Chapters address how changes in the strategic environment are affecting Moscow and Tehran s perception of each other what factors contribute the most to both states decision to pursue greater cooperation and how they manage the new conflicts of interest raised by the war The book also queries whether relations continue to be based on tactical partnership or whether a stronger alliance between Moscow and Tehran is unfolding and what the consequences of such a struggle for alliance will be for the wider region      History and Foreign Policy in France and Germany Ulrich Krotz,2015-08-11 Why do states similar in size resources and capabilities significantly differ in their basic orientations and actions across major domains in foreign policy security and defense This book addresses this important question by analyzing the major differences between the foreign policies of France and Germany over extended periods of time      One Hundred Years of Turkish Foreign Policy (1923-2023) Binnur Özkeçeci-Taner,Sinem Akgül Açıkmeşe,2023-09-14 This book brings together an all women group of scholars to provide a historically grounded and theoretically rich examination of the continuities and changes in Turkey s foreign policy since the Republic s establishment in 1923 Using different International Relations theories clarifying the interaction between domestic politics and foreign policymaking the book charts the evolution of Turkey s foreign policy vis a vis several regions and global actors and examines the major developments in Turkey s relations with these actors Some chapters emphasize the continuities in Turkey s external relations and others examine the significant changes and discontinuities in certain areas Recognizing that Turkey s state interests may not always coincide with the interests of the ruling elite the book demonstrates that the centennial birthday of Turkey represents a constitutive moment for Turkey s future and calls for a pragmatic as opposed to a completely ideologically based grand strategy that should focus on progressive ideals      *Coalition Politics and Cabinet Decision Making* Juliet Kaarbo,2012-04-17 Every day coalition cabinets make policy decisions critical to international politics Juliet Kaarbo examines the dynamics of these multiparty cabinets in parliamentary democracies in order to assess both the quality of coalition decision making and the degree to which coalitions tend to favor peaceful or military solutions Are coalition cabinets so riddled by conflict that they cannot make foreign policy effectively or do the multiple voices represented in the cabinet create more legitimate and

imaginative responses to the international system Do political and institutional constraints inherent to coalition cabinets lead to nonaggressive policies Or do institutional and political forces precipitate more belligerent behavior Employing theory from security studies and political psychology as well as a combination of quantitative cross national analyses and twelve qualitative comparative case studies of foreign policy made by coalition cabinets in Japan the Netherlands and Turkey Kaarbo identifies the factors that generate highly aggressive policies inconsistency and other policy outcomes Her findings have implications not merely for foreign policy but for all types of decision making and policy making by coalition governments

U.S. Foreign Policy Donald M. Snow, Patrick J. Haney, 2017-08-02 U S Foreign Policy Back to the Water's Edge is based on the old idea that despite domestic differences and party politics Americans should unite at the water's edge and present a cohesive front to a hostile world The fifth edition explores this theme through coverage of the Trump administration its early policies and how Trump's initiatives fit into the broader historical patterns of foreign policy in the United States More compact than most of its competitors the fifth edition packs necessary information and concepts into a lean but readable format It contains rich historical content providing the reader with snapshots of some of the truly classic highlights and lowlights of America's record in foreign affairs Written with the student reader in mind each chapter offers several pedagogical aids designed to reinforce and extend comprehension of the material This text is also accompanied by a companion reader Regional Cases in Foreign Policy Second Edition was written by Don Snow with the specific intention of providing material and perspectives not contained in the text The reader contains fourteen mini cases that can accompany classroom discussions or lectures on subjects as diverse as relations with Russia Israel or the Islamic State specific questions like the border fence with Mexico U S Cuban relations or the British withdrawal from the European Union Brexit Case examples are drawn from all parts of the world *Research Methods in Defence Studies* Delphine

Deschaux-Dutard, 2020-08-09 This textbook provides an overview of qualitative and quantitative methods used in different social sciences to investigate defence issues Recently defence issues have become of increasing interest to researchers in the social sciences but they raise specific methodological questions This volume intends to fill a gap in the literature on defence studies by addressing a number of topics not dealt with sufficiently before The contributors offer a range of methodological reflections and tools from various social sciences political science sociology geography history economics and public law for researching defence issues They also address the increasingly important question of data and digitalization The book introduces the added value of quantitative and qualitative methods and calls for a cross fertilization of methods in order to facilitate better research on defence topics and to fully grasp the complexity of defence in the 21st century This book will be of much interest to students researchers and practitioners of defence studies war studies military studies and social science research methods in general *The Politics behind Aid and Cooperation Norms* Rubens de Siqueira Duarte, 2019-08-27 This book examines the use of norms by British and Brazilian actors in aid cooperation in the 21st century unveiling the politics

behind norm circulation Inspired by a constructivist approach this research analyses actors agency in asymmetric international and domestic environments in which different norms dissimilar identities and opposing interests coexist Regardless of the discourses and theories surrounding the differentiation between North South and South South aid cooperation British and Brazilian actors use norms to achieve their own goals at the domestic and international levels Processes of norm circulation in aid cooperation have a greater impact at the international level and within the domestic environment of donor partner countries than in promoting behavioral changes in recipient countries However the content of British and Brazilian norms is different given their historical position in the international architecture and domestic context The present study sought to unveil the politics behind how actors use aid cooperation norms in order to achieve their goals in three major instances 1 the international forums where actors debate the aid cooperation architecture 2 the domestic environment of donor partner countries and 3 the domestic level of recipient countries where international norms are diffused

The SAGE Encyclopedia of War: Social Science Perspectives Paul Joseph, 2016-06-15 Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast The SAGE Encyclopedia of War Social Science Perspective views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format authored and signed by key academics in the field Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader s Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology

*Teaching Politics Beyond the Book* Robert W. Glover, Daniel Tagliarina, 2012-11-22 To teach political issues such as political struggle justice interstate conflict etc educators rely mostly on textbooks and lectures However many other forms of narrative exist that can elevate our understanding of such issues This innovative work seeks new ways to foster learning beyond the textbook and lecture model by using creative and new media including graphic novels animated films hip hop music Twitter and more Discussing the opportunities these media offer to teach and engage students about politics the work presents concrete ways on how to use them along with teaching and assessment strategies all tested in the classroom The contributors are dedicated educators from various types of institutions whose essays span a variety of political topics and examine how non traditional texts can promote critical thinking and intellectual growth among students in colleges and universities The first of its kind to discuss a wide range of alternative texts and media the book will be a valuable resource to anyone seeking to develop innovative curricula and engage their students in the study of politics
