Chinese Economic Diplomacy Shuxiu Zhang, 2016-07-01 Economic diplomacy was declared in 2013 by Beijing as a priority in its comprehensive strategy for diplomacy. The political elite undertook to further invest in economic diplomacy as an instrument for economic growth and development. Globally, Chinese cooperation in multilateral economic processes has become critical to achieving meaningful outcomes. However, little understanding exists in current literature on the factors and mechanisms which shape the processes behind China's economic diplomacy decision making. *Chinese Economic Diplomacy* provides an understanding of the processes and practices of China's economic diplomacy with multilateral economic negotiations as the primary basis of analysis, specifically the UN climate change talks and the WTO Doha Round trade negotiations. It examines how early economic diplomacy in global governance contributed to the varied and evolving nature of its present day decision making structures and processes. Demonstrating how China's negotiation preferences are driven by networks of political actors in formal and informal domestic and systemic environments, it also highlights the capacity of international negotiation practices to alter and re-shape China's approach to multilateral economic negotiations. As a consequence, the book presents a framework for understanding China's economic diplomacy decision making processes that is systemically constructed by domestic and international agencies. Offering a Chinese perspective of the notion of economic diplomacy, this book will be of interest to students and scholars of Chinese Economics, International Relations and Political Economy.

Gender in Germany and Beyond Jennifer V. Evans, Shelley E. Rose, 2023-05-12 Jean Quataert redefined the boundaries of at least five historical fields including European socialism, women's history and gender history and international law and human rights. In this volume dedicated to her pioneering work established and emerging scholars showcase the signature ways in which Quataert as one of the discipline's first women's historians has influenced how subsequent generations think about history writing as a form of intellectual activism. *Gender in Germany and Beyond* presents cutting edge historiographical commentary alongside new work which address subjects such as the history of German colonialism and women's colonial leagues, human rights advocacy during the Cold War and the complexities of turn of the century gay and lesbian rights organizing.

Modernism in Late-Mao China Ke Song, 2023-04-28 This book investigates the architectural history of China in the Mao era 1949-1976, focusing on the rise of modernism in the last seven years of the Cultural Revolution from 1969 to 1976. It highlights the new architecture of this period exemplified by three clusters of buildings for foreign affairs: namely buildings for foreign diplomacy in Beijing, buildings for foreign trade in Guangzhou, and China's foreign aid projects overseas. The emergence of new architecture in the early 1970s is closely associated with China's political and diplomatic shift of the time from a radical emphasis on ideological struggle to a dynamic balance between leftist ideology and pragmatic concerns. In this context, China's relations with the West quickly improved, culminating with American president Richard Nixon's visit to China in 1972. The increasing foreign affairs brought new

opportunities to Chinese architects who referenced both Western modernism and Chinese architectural traditions to create a new version of Chinese modernism The book brings dimensions of form politics and knowledge to the analysis of architecture to construct an understanding of architectural design as an aesthetic political and intellectual practice Modernism in Late Mao China will be an enriching and useful reference for students and scholars who are interested in the global architectural history of the twentieth century especially Cold War modernism *Cultural Cold Wars and UNESCO in the Twentieth Century* W. John Morgan, 2024-09-30 *Cultural Cold Wars and UNESCO in the Twentieth Century* addresses the now considerable interest in the concept of cultural cold war as a means of advancing ideologies The book charts the development of the concept in the twentieth century Structured in two parts Part I considers the League of Nations idealist attempts at international intellectual cooperation It discusses also the first cultural cold war with the Communist International's attempts to advance communism It also analyses the ideological and cultural appeal of Italian fascism German national socialism and Japanese nationalist militarism and the transition from a wartime alliance to a new cold war Part II examines the renewal of international intellectual co operation through the United Nations Educational Scientific and Cultural Organization UNESCO in the context of a second cultural cold war between the capitalist democracies and the communist bloc The book shows that UNESCO became a site of this ideological competition and an example of its tensions Based on original research and a comprehensive review of the literature including in Russian German and French the book will appeal to academics postgraduate researchers advanced undergraduates and others interested in recent international history and the comparative politics of ideas **War, Work, and Want** Randall Hansen, 2023 *In War Work and Want* Randall Hansen focuses on how the oil shock transformed not just the economy proper and the geopolitics of the Middle East region but also the global circulation of people and capital for decades afterward Hansen asks why against all expectations global migration tripled after 1970 Arguing that the OPEC oil crisis explains everything he shows how war migration and the desire for ever cheaper products made by migrants led to a massive upsurge in global migration after 1973 *Great Power Diplomacy* A. Wess Mitchell, 2025-10-14 *A captivating history of diplomacy and an urgent reminder of why we need to revive its lost arts to survive in a dangerous era of great power competition* From the beginning of time human societies have found themselves confronted by enemies too numerous or ferocious to defeat solely by force of arms In these dramatic moments wise leaders have turned to diplomacy to rearrange the gameboard in their favor and stymie seemingly unstoppable foes In *Great Power Diplomacy* American historian and diplomat A Wess Mitchell recounts the forgotten story of how history's most legendary empires have used diplomacy as a tool of grand strategy to outwit outmaneuver and outlast militarily superior opponents Through fifteen centuries of history *Great Power Diplomacy* recreates the perilous junctures colorful personalities and intricate statecraft that led to some of history's most stunning diplomatic achievements and greatest disasters The protagonists include giants like Richelieu Metternich Bismarck and Kissinger but also a lesser known cast of scoundrels

eunuchs drunkards and fools At every turn fortune favored those great powers with the foresight and dexterity to build winning alliances splinter enemy coalitions and when necessary make peace with their bitterest foes Diplomacy of this kind has become a lost art in recent years as Western elites embraced the illusion that globalization and the spread of democracy would create a borderless world where nations would live in harmony and war would be abolished from the human story But as Great Power Diplomacy reveals we will need to rediscover the secrets of skillful statecraft as the world enters an unstable new era in which continent sized great powers compete for territory resources and prestige By recalling diplomacy's rich past we can equip ourselves for a more dangerous future

A Resurgent East Asia Andrew D. Mason, Sudhir Shetty, 2018-01-04 East Asia has been a paragon of global development success The dramatic transformation of the region over the past half century with a succession of countries having progressed from low income to middle income and even to high income status has been built on what has come to be known as the East Asian development model A combination of policies that fostered outward oriented labor intensive growth while strengthening basic human capital and providing sound economic governance has been instrumental in moving hundreds of millions of people out of poverty and into economic security Yet East Asia's economic resurgence remains incomplete More than 90 percent of its people now live in 10 middle income countries many of which can realistically aspire to high income status in the next generation or two But these countries are still much less affluent and productive than their high income counterparts Even as the region's middle income countries attempt to move up to high income status they confront a rapidly changing global and regional economic environment Slowing growth in global trade and shifts in its patterns rapid technological change and evolving country circumstances all present challenges to sustaining productivity growth fostering inclusion and enhancing state effectiveness A Resurgent East Asia Navigating a Changing World is about how policy makers across

developing East Asia will need to adapt their development model to effectively address these challenges in the coming decade and sustain the region's remarkable development performance. The world is changing. How do East Asia's developing economies navigate this change? This is a commendable book on this topic, a must read for policy makers, academia, and students who are interested in East Asia. Chatib Basri, Former Minister of Finance, Government of Indonesia. A Resurgent East Asia is a vital publication for the most successful region as it looks to the future and the expectations of its citizens. This study helps to identify the new areas of risk and to suggest ways to ameliorate them. In so doing, it is an invaluable resource for governments. Based on first rate analysis, it is a must read for policy makers and everyone interested in East Asia's development prospects. Danny Leipziger, Managing Director, The Growth Dialogue and Professor of International Business, George Washington University. This report delivers a careful and rigorous analysis of the strengths of East Asia's growth with equity development strategy. While noting the model's success in lifting millions out of poverty, the report also warns of the looming challenge of maintaining growth with inclusion and it highlights the need for countries to improve their social protection systems and ensure that opportunities are fair and available to all. A must read for policy makers and development practitioners alike. Ana Revenga, Senior Fellow, Brookings Institution.
