[Low Risk High Reward Forex Trading for Beginners](#) Giuseppe Scuti, *Low Risk High Reward Forex Trading for Beginners* is for all beginning aspiring investors and traders who are just getting their head around doing the day trading and swing trading business as a self-directed trader. *Low Risk High Reward Forex Trading for Beginners* is for people who want to start their own business and become investors and self-directed traders in today's financial markets but have zero experience and are looking for the best quality beginner information to get them started. Many of the things I tell brand new investors and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason: much of what trading is about is doing the same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and it is how they develop their razor sharp edge to win in the live markets against the best market participants in the world. The reason *Low Risk High Reward Forex Trading for Beginners* is unique is that it is going to tell you about who your competition is and how you can beat them; what you need to study first that will make you rich fast; where you need to go to get consistently profitable quickly when you should and should not be in the live market; and how about the other information you need to know to be able to trade and invest in today's financial markets or any tradable market with confidence and zero fear and to be able to do it the right way from the start on as little as 500 capital to start with. My hope from you reading *Low Risk High Reward Forex Trading for Beginners* is that you understand how important it is to have a competitive edge when putting your hard-earned money at risk in the markets. This business is no joke and each day the wealth from trader accounts is transferred from those without an edge into the accounts of those who have developed that all-needed important winning edge. Which one do you want to be? After reading this entire book, you will be able to greatly expedite your long learning curve and be able to make real money right away in
