**Baja California Adventures** Froylan Tiscareño, 2013-05-31 The stories featured in Baja California Adventures take place during a span of almost sixty years of travel in the rugged parched yet hauntingly attractive peninsula The author kept detailed notes on most of his trips then fleshed out this skeleton in a narrative that places the reader in the role of participant in the adventure Thus one feels the bite of the 4WD tires into the desert sand newly hard packed by the moisture of a quick moving thunderstorm The author describes the excitement of finding Indian petroglyphs arrowheads or clay ollas in remote canyons Because Mr Tiscareño is also a pilot many of the trips included here involve mention of the special immigration rules for private fly in tourists Finally there are Baja adventures in the pine clad granite fortress that is the Sierra de San Pedro Mártir in the northern part of the peninsula Here the author joined other veteran Bajeos in hoof and boot or horse assisted explorations In short this book should be inspiration to those readers who want to visit Baja California particularly the less tourist trod destinations Armchair travelers will derive vicarious pleasure without the effort of going there themselves

**Lost Shores, Forgotten Peoples** Lawrence H. Feldman, 2000 Long after the Aztecs and the Incas had become a fading memory a Maya civilization still thrived in the interior of Central America Lost Shores Forgotten Peoples is the first collection and translation of important seventeenth century narratives about Europeans travelling across the great Ocean Sea and encountering a people who had maintained an independent existence in the lowlands of Guatemala and Belize In these narratives primary documents written by missionaries and conquistadors vivid details of these little known Mayan cultures are revealed answering how and why lowlanders were able to evade Spanish conquest while similar civilizations could not Fascinating tales of the journey from Europe are included involving unknown islands lost pilots life aboard a galleon fleet political intrigue cannibals and breathtaking natural beauty In short these forgotten manuscripts translations of the papers of the past provide an unforgettable look at an understudied chapter in the age of exploration Lost Shores Forgotten Peoples will appeal to archaeologists anthropologists and historians interested in Central America the Maya and the Spanish Conquest

*Killing for Land in Early California* Frank H. Baumgardner, 2005 This is a history of the clash between the White settlers and the Native Americans in what is now an affluent county in California The frontier wars gave land and gold to Whites and reservations to the Native Americans Eyewitness accounts and extensive research show the conflicting roles played by the Army State Legislature and the US Congress Provided by publisher [Havoc and Reform](#) James P. Kraft, 2021-03-02 How disasters that have wrecked work sites throughout American history in all parts of the nation and all sectors of the economy have also inspired policy reform Workplace

disasters have wreaked havoc on countless American workers and their families They have resulted in widespread death and disability as well as the loss of property and savings These tragic events have also inspired safety reforms that reshaped labor conditions in ways that partially compensated for death suffering and social dislocation In *Havoc and Reform* James P Kraft encourages readers to think about such disastrous events in new ways Placing the problem of workplace safety in historical context Kraft focuses on five catastrophes that shocked the nation in the half century after World War II a time when service oriented industries became the nation s leading engines of job growth Looking to growing areas of economic life in the Western Sunbelt Kraft touches on the 1947 explosion of the Texas City Monsanto Chemical Company plant the 1956 airliner collision over the Grand Canyon the hospital collapses following the 1971 San Fernando earthquake the 1980 fire at the Las Vegas MGM Grand and the 1995 bombing of the Oklahoma City Federal Building These incidents destroyed places of employment that seemed safe and affected a relatively wide range of working people including highly trained salaried professionals and blue and white collar groups And each took a toll on the general public increasing fears that anyone could be in danger of being killed or injured and putting pressure on public officials to prevent similar tragedies in the future As Kraft considers how these tragedies transformed individual lives and specific work environments he describes how employees employers and public leaders reacted to each event Presented chronologically his studies offer a unique and sobering outlook on the rise of a now vital and integral part of the national economy They also underscore the ubiquity and persistence of workplace disasters in American history while building on and challenging literature about the impact of World War II in the American West Within a broader frame they speak to the double edged nature of modern life Apache Adaptation to Hispanic Rule Matthew Babcock,2016-09-26 This book reinterprets Southwestern history before the US Mexican War through a case study of the poorly understood Apaches de paz and their adaptation to Hispanic rule

Observations in Lower California Jacob Baegert,1979 *The Splendid, Idle Forties* Gertrude Atherton,2021-10-07 First published at the turn of the century *The Splendid Idle Forties* by feminist author Gertrude Atherton is a collection of short stories all set in California Romance and forbidden love are key themes throughout and though each story stands alone many refer to previous events and characters Full of vivid descriptions this is a wonderful collection of short stories from the Golden State which inspires nostalgia for a bygone age Gertrude Atherton 1857 1948 was an American novelist short story writer and early feminist Born in California Gertrude attended schools in California and Kentucky and became widely read She married George H B Atherton in 1876 and lived with him and his mother in San Francisco where they had two children Atherton struggled with married life her husband did not support her writing ambitions and Gertrude found life as a wife and mother stifling When her husband died at sea in 1887 Atherton felt free to pursue her burgeoning career as an author and went on to publish over 50 novels She is best known for her California series of novels which explored the social history of California and included popular works such as *The Californians* and the controversial *Black Oxen* which was adapted into a

silent movie in 1923 Feminist themes and strong female characters are common in her novels She died in San Francisco in 1948

**Our Continent**, 1882      **The Covenanters**, 1858      *Paolo de Matteis* Livio Pestilli, 2017-07-05 This volume represents a long overdue reassessment of the Neapolitan painter Paolo de Matteis an artist largely overlooked in English language scholarly publications but one who merits our attention for the quality of his work and the originality of its iconography as well as for his remarkable ability to respond creatively to his patrons aesthetic ideals and agendas Following a meticulous examination of the ways in which posterity's impression of de Matteis has been conditioned by a biased biographical and literary tradition Livio Pestilli devotes rich detailed analyses to the artist's most significant paintings and drawings More than just a novel approach to de Matteis and the Neapolitan Baroque however the book makes a significant contribution to the study and understanding of early eighteenth century European art and cultural history in general not only in Naples but in other major European centers including Paris Vienna Genoa and Rome

**Spanish American Headlines A New World, 1492-2010** Bishop David Arias, 2013-11-25 This work follows a chronological method that stretches from 1492 to 2010 and intends to show the history of an uninterrupted Hispanic presence in the United States No topic is developed at length but only the historical fact is highlighted followed by several reference sources which provide further information on the topic This is an effort to convey historical information to the people of the United States to whom schools or other educational institutions have never passed on the story of the historical Spanish Heritage of this country

California Highways and Public Works, 1927      **The History and Topography of the United States of America** John Howard Hinton, 1850      *History of California: Early voyages ; The Jesuits ; The Franciscans ; The Spanish governors* Theodore Henry Hittell, 1898 General history of California      **Official Handbook** United States. Exposition Board, William Powell Wilson, 1903      *A History of California and an Extended History of Its Southern Coast Counties* James Miller Guinn, 1907

**The Chaco Mission Frontier** James Schofield Saeger, 2022-08-23 Spanish missions in the New World usually pacified sedentary peoples accustomed to the agricultural mode of mission life prompting many scholars to generalize about mission history James Saeger now reconsiders the effectiveness of the missions by examining how Guaycuruan peoples of South America's Gran Chaco adapted to them during the eighteenth century Because the Guaycuruans were hunter gatherers less suited to an agricultural lifestyle their attitudes and behaviors can provide new insight about the impact of missions on native peoples Responding to recent syntheses of the mission system Saeger proposes that missions in the Gran Chaco did not fit the usual pattern Through research in colonial documents he reveals the Guaycuruan perspective on the missions thereby presenting an alternative view of Guaycuruan history and the development of the mission system He investigates Guaycuruan social economic political and religious life before the missions and analyzes subsequent changes he then traces Guaycuruan history into the modern era and offers an assessment of what Catholic missions meant to these peoples Saeger's research

into Spanish documents is unique for its elicitation of the Indian point of view. He not only reconstructs Guaycuruan life independent of Spanish contact but also shows how these Indians negotiated the conditions under which they would adapt to the mission way of life thereby retaining much of their independence. By showing that the Guaycuruans were not as restricted in missions as has been assumed, Saeger demonstrates that there is a distinct difference between the establishment of missions and conquest. *The Chaco Mission Frontier* helps redefine mission studies by correcting overgeneralization about their role in Latin America.
