Understanding Our Story Rebecca Letterman, Susan Muto, 2017-02-28 Understanding Our Story presents a concise introduction to the original transformative thinking of Adrian van Kaam CSSp PhD 1920 2007 While many books are available on spiritual formation and Christian disciplines no other author of our time has offered such a holistic and comprehensive explanation of Christian formation and its relationship to the human spirituality of all persons Understanding

our Story culls the most seminal ideas and vocabulary from van Kaam's eleven volumes on formation science, formation anthropology and formation theology and provides examples of his theoretical/practical research drawn from everyday life, Scripture, Christian writers and van Kaam's life story itself. In doing so, it makes his extensive work available to scholars in the field of spiritual formation and gives all readers the opportunity to utilize his insightful thinking to more fully understand the myriad ways in which God reforms and transforms lives into the image of Christ. In the pluritraditional world in which we live, where so many faith and formation traditions demand our attention, van Kaam's formative spirituality provides a means of respectful dialogue with formationally relevant truths from others and of wise appraisal of ideas that are and are not conducive to and compatible with the Christian revelation.

Orthodoxy and Orthopraxis Douglas R. Cullum, J. Richard Middleton, 2020-04-28 These essays on matters biblical, theological, historical and beyond pay tribute to the multidisciplinary impact of Paul Livermore, founding faculty member and Professor Emeritus of Northeastern Seminary at Roberts Wesleyan College, Rochester, NY.

Choosing Authenticity Richard N. Southworth, Ma, Richard Southworth, 2011-04-07 Religion is not enough. Culture is not enough. Both religion and culture are important, even crucial to living a full life, but they are not enough. Choosing authenticity is the only thing that is enough. Our deepest desire is for our active lives to actually become more and more an authentic expression of who we are and who we are called to be by that Mysterious Other we call God. We long for a No BS Spirituality that changes the way we actually experience and live our lives. We need spiritual practice that facilitates that growth and transformation and conversion of heart. It is my prayer that these reflections will respond to that longing. Read, reflect and enjoy.

Building Stones for an Understanding of the Mystery of Golgotha Rudolf Steiner, 2015-08-19 If one is unable to conceive of the Christ mystery as a true reality, one also cannot develop any ideas and concepts relating to the rest of world existence that are imbued with reality which really penetrate to the truth. Rudolf Steiner. In a series of 17 lectures, Rudolf Steiner throws new light on the historical background and esoteric meaning of what he refers to as the central event of human and earthly history: the Christ mystery or the Mystery of Golgotha. Basing his commentaries on personal spiritual research, Steiner emphasizes the key nature of the Mystery of Golgotha through which something was accomplished which has to do not with the moral order alone but with the whole world order in its entirety. This relates to a transformation of the spiritual environment of the earth and a potentially radical change in human consciousness. Building on the core themes of this course, Steiner presents a variety of fascinating topics including original sin and the idea of resurrection, faith and knowledge, the nature of sleep and the riddle of fatigue, the violation of the mysteries by the Roman Emperors, the teachings of Mani and Augustine, our relationship to the dead in spiritualistic sciences and the correspondence between the Platonic year, a day in a person's life and a human life time. Although first delivered to audiences a century ago, these lectures have lost none of their resonance; indeed, their essential message is perhaps more relevant than ever. They are published here in a new translation.

and for the first time in a complete English edition So let us endeavour to make spiritual science our own not merely as a teaching but as a language and then wait until we find the questions in this language that we may address to Christ He will answer yes He will answer

Education for Special Needs Rudolf Steiner, 2014 Essentially we do not really have the right to talk about normality or abnormality in a child's inner life nor indeed in the inner life of human beings altogether One does not gain much from such labelling and the first thing to happen should be that the physician or the teacher rejects such an assessment and goes further than saying that something is clever or sensible according to the way people are habitually thinking Rudolf Steiner Speaking in 1924 when general attitudes to people with special needs were far from enlightened Rudolf Steiner gave this seminal course of lectures to a small group of teachers and doctors as a fundamental basis for their future work In the cultural context of the time regressive ideas such as Social Darwinism and Eugenics were not only tolerated but popular some 15 years after these lectures were delivered the Nazis were to initiate their so called euthanasia programme In contrast Steiner who as a young man had successfully tutored a boy with special needs was devoted to the progressive task of special education and in the words of one of those present gave the course with pleasure and satisfaction In the twelve lectures Rudolf Steiner describes polarities of illness and derives courses of treatment from a comprehensive analysis He considers many individual cases in detail and gives indications on therapeutic exercises diet and medicine The I or self he states relates directly to the physical body and spirit and soul need to be taken into consideration when making diagnoses Throughout the course Steiner gives valuable advice regarding the educator's own development emphasizing the need for enthusiasm humour and courage As with Steiner's lectures on agriculture which stimulated the birth of the worldwide biodynamic movement this single course has had a huge international impact inspiring the founding of hundreds of schools and communities for people with special needs encompassing both the Camphill and Steiner special education movements Revolutionary in its approach the far reaching perspectives of these lectures are a living source of inspiration to both professionals in the field and parents and others seeking spiritual insight This new edition features a fresh translation introductory material notes colour plates and an index

Problems of Society Rudolf Steiner, 2016-03-21 Whatever turbulent outward events occur in the world whatever form is taken by things seeking to work their way out of the depths of human evolution we only really hearken to the true underlying nature of these events if we observe the world from a spiritual perspective Rudolf Steiner In seeking to heal the many social crises of our time Rudolf Steiner urges us to turn away from fixed principles theories or social dogmas and to rediscover the real nature of the human being This inner reality that cannot be understood in materialistic or deterministic ways is the only basis on which society can truly be founded But it is not sufficient to speak of well meaning ideas he says unless we are also active in working for change change that begins with each of us In 1919 a year marked by strong social and political upheavals Steiner was deeply concerned with questions relating to society Having published a book on the subject *Towards Social Renewal* he embarked on a major campaign to

publicize his threefold social ideas In addition to public lectures however Steiner sought to deepen the subject in a series of talks to members of the Anthroposophical Society These lectures gathered in this volume reveal the inner or esoteric aspects of the social question They complement Steiner's very practical efforts to realize threefolding in the historical context of his time Whilst Steiner's suggestions for social change may not seem self-evident to pragmatic thinking they will strike a resonant chord in many who seek deeper answers to the social problems of our times problems that politicians seem unable to remedy Amidst the many themes tackled here Steiner addresses the issue of nationalism as a retrograde tendency the tasks of Central Europe and Britain in relation to the East the incarnation of Ahriman in the West and the historical incarnation of Lucifer in the third millennium BC

DYING EARTH AND LIVING COSMOS RUDOLF

STEINER, 2015-06-15 These authoritative lectures delivered during a period of deep crisis and conflict in world history present a comprehensive spiritual teaching for contemporary humanity Despite the raging world war Rudolf Steiner was still actively touring Central Europe whilst simultaneously completing work on his architectural masterpiece the first Goetheanum in neutral Switzerland The building of the Goetheanum undertaken by a community of people from seventeen nations at war forms a thematic backdrop to the lectures In speaking of the walls in the new building for example Rudolf Steiner describes how their forms are not confining but rather express an openness to the surrounding cosmos Likewise the carved motifs on the architraves of the wooden pillars are not fixed symbols but are alive and continually metamorphosing These observations are reflected in Steiner's broader discussions He speaks of extending and deepening our connection with the world and the cosmos going beyond our usual narrow limits and definitions to engage in community with the realities of existence We can do this for example with the so-called dead who find it difficult to relate to sense-bound thinking Rudolf Steiner explains how we can connect with them greatly enriching our lives and making an enormous difference to their souls The distinction between fixed symbols and living motifs takes us to the core of anthroposophy striving never to rest in inert forms of thought In the field of education Steiner thus warns about external measuring of pupils and linear models of cognitive learning Throughout the three lecture courses included here which together form a kind of compendium of anthroposophy at the time Steiner touches upon a wealth of absorbing themes including the discovery of America the contrast between East and West the qualities of European folk souls Valentin Andrae's Chymical Wedding and Darwinism Regardless of his topic however Steiner consistently makes the urgent appeal that we grasp reality looking further than abstract schemes of all kinds such as social and political programmes to participate in the cosmos as conscious and fully human co-creators

TRUE KNOWLEDGE OF THE CHRIST Rudolf Steiner, 2015-06-15 All existence is spirit Just as ice is water so matter is also spirit Mineral vegetable animal or human all are a condensed form of spirit Rudolf Steiner In the two lecture courses featured in this volume Rudolf Steiner presents a radical new paradigm Tackling the central dilemma of modern civilization the polarisation of science and spirituality he seeks to broaden natural science through a comprehensive

spiritual science Rather than harking back to old spiritual forms or religions Steiner's approach is based on a conscious and systematic intensification of thinking and perception Rudolf Steiner approaches this spiritual scientific task from two perspectives In Kassel Germany he deepens insight into theosophy and Rosicrucianism showing their relationship to science and religion Although presented as an introduction Steiner was never interested in simply providing information not even in the form of new revelations and his insights are from fresh angles and with new illustrative examples These lectures deepen and develop key elements found in his fundamental works Occult Science An Outline and Theosophy Also featured are the fascinating question and answer sessions from the Kassel lectures In Basel Switzerland Rudolf Steiner discusses that most esoteric of the accounts of the life of Christ the Gospel of John Whilst the focus is on the gospel basic tenets of spiritual science human existence and world evolution are considered as is the concept of karma and the true nature of Christianity In both sets of lectures Steiner dwells on the Prologue to the Gospel of John given in his own translation which offers a meditative approach to gaining insight into both the gospel and Christianity as a whole Rather than distancing us from life each of the lectures in this volume brings us closer to reality As Rudolf Steiner states Rosicrucian theosophy does not make us into eccentrics outsiders but into friends of existence for it doesn't look down on everyday life alienating us from our mission on earth it brings us closer

The World of the Senses Rudolf Steiner, 2014 In this concise series of lectures Rudolf Steiner shows how the human senses reveal the mysterious world of the will which is at once a spiritual and physical phenomenon The senses act as a portal connecting our physical and etheric bodies with what Steiner refers to as worlds of all pervading will and all pervading wisdom He elaborates this theme giving some unexpected and delightful insights into the senses of hearing and sight and in particular how we experience colour Steiner suggests that divine spiritual beings had different intentions for the formation of physical human beings but that adversary powers caused disruption leading to a more materialized constitution He describes disorders in the connections between the human physical etheric astral and ego bodies and the ill effects of one aspect overpowering the others He gives insight into human glandular secretions and why we need to eat and digest also connected to the intervention of adversary beings

CONSCIOUS SOCIETY Rudolf Steiner, 2018-04-24 Delivered in the context of post war cultural and social chaos these lectures form part of Rudolf Steiner's energetic efforts to cultivate social understanding and renew culture through his innovative ideas based on threefolding Steiner develops a subtle and discerning perception of how social dynamics could change and heal if they were founded on real insight into our threefold nature as individuals social beings and economic participants in the world He doesn't offer a programmatic agenda for change but a real foundation from which change can organically grow Social forms and reforms says Steiner are created together not imposed by lone geniuses Nevertheless the detail of some of the thoughts and ideas he presents here as a possible model down to the economic specifics of commodity labour taxation ground rent and capitalism itself are staggering in their clarity and originality This is no mystic effusion but a heartfelt plea backed by profound insights

to change our thinking and the world we live in As he points out thoughts create reality and so it is vital how and what we think Among the many contemporary and highly relevant topics Steiner discusses here are the nature of money and capital taxation and the state free enterprise and initiative capitalism and Marxism the relationship between employer and employee added value theory and the concept of commodity and class consciousness the proletariat and the bourgeoisie

Good and Evil Spirits Rudolf Steiner,2014-09-04 We learn gradually to raise our eyes not only to material existence instead we discover spiritual entities and their actions wherever we look in the universe We get to know the deeds of these spirits We are alive and active and we are within the spiritual entities and their activities Rudolf Steiner This classic series of lectures presents systematic knowledge on many different spiritual entities ranging from the higher hierarchies of angels down to hindering demons Basing his presentation on spiritual scientific research Rudolf Steiner intends to awaken us to the existence of these beings and how they interact with all aspects of our lives Steiner describes how animals plants and minerals have group souls with even an inert stone having a spiritual counterpart in the invisible world The various planets in the cosmos are connected to great spiritual beings and hierarchies too as is the zodiac which is not a static band of fixed stars but is also evolving Steiner gives a remarkable picture of how Christ relates to the zodiacal constellations and to our own higher aspects Spiritual entities are associated with the evolution of earth and the previous stages of its existence and here Steiner elaborates relevant chapters of his book Occult Science An Outline explaining how our task on earth is ultimately to develop love rather than wisdom which was the goal of earth s previous stage From cosmic considerations Steiner leads to the spirits of the kingdoms of nature the elemental beings with their four classes connecting to the four elements gnomes undines sylphs and salamanders or earth water air and fire spirits He describes how elemental beings are created by human activities with coercion of the views of others leading to demons lying leading to phantoms and bad social systems to spectres Spirits are also created in the association of humans and animals whilst other spiritual entities connect us with the arts Steiner emphasises the importance of developing and appreciating the arts such as music sculpture architecture painting and poetry for the sake of humanity s future evolution

UNDERSTANDING SOCIETY Rudolf Steiner,2017-11-27 In the uncertainty following the end of the First World War Rudolf Steiner perceived a unique opportunity to establish a healthy social and political constitution He began lecturing throughout post war Germany often to large audiences about his social ideas Here speaking to a more intimate grouping at the Goetheanum in Dornach Switzerland Steiner seeks to deepen the themes of social threefolding showing specifically how new social thinking is integral to anthroposophy Steiner speaks of the superficiality of the materialistic view of history originating with the economic shift amongst the population at the time of the Reformation Back in Egyptian Chaldean times initiates ruled out of spiritual impulses Later in the Greco Roman period priests had power over their congregations Today homo economicus or economic man has become the dominant idea with the capitalist and the banker taking control But the healing of social relationships

can only come about through different modes of thought the life of spirit must be separated not only from politics but also from economics True social understanding allows for comprehension of karma the appreciation of each person s individual destiny In parallel says Steiner we should work towards a global consciousness as true social ideas are founded on people feeling themselves to be citizens of the world In an important corollary Steiner studies the incarnations of three significant spiritual beings in human evolution Lucifer Christ and Ahriman Lucifer incarnated in the third pre Christian millennium Christ incarnated at the dawn of a new age whilst an incarnation of Ahriman in the West is immanent Ahriman is preparing this incarnation by insidiously promoting various ideas for example that economic security is sufficient for healthy public life A new wisdom must be achieved out of free human will says Steiner or else we will succumb to Ahriman
