Expert Laws of War Anton O. Petrov, 2020-06-26 Over recent decades international humanitarian law has been shaped by the omnipresence of so called expert manuals Astute and engaging this discerning book provides a comprehensive account of these black letter rules and commentaries produced by private expert groups and demonstrates why the general acceptance of these expert manuals is largely unjustified The author innovatively links interdisciplinary insights to the needs of military lawyers in practice showing the pitfalls of relying on private manuals as arguable restatements and interpretations of the law as it is **Resources in Education** ,2000 *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919 *The Impact of Emerging Technologies on the Law of Armed Conflict* MAJ Ronald T.P. Alcala, Eric Talbot Jensen, 2019-08-30 Emerging technologies have always played an important role in armed conflict From the crossbow to cyber capabilities technology that could be weaponized to create an advantage over an adversary has inevitably found its way into military arsenals for use in armed conflict The weaponization of emerging technologies however raises challenging legal issues with respect to the law of armed conflict As States continue to develop and exploit new technologies how will the law of armed conflict address the use of these technologies on the battlefield Is existing law sufficient to regulate new technologies such as cyber capabilities autonomous weapons systems and artificial intelligence Have emerging technologies fundamentally altered the way we should understand concepts such as law of war precautions and the principle of distinction How can we ensure compliance and accountability in light of technological advancement This volume of the Lieber Studies explores these critical questions while highlighting the legal challenges and opportunities presented by the use of emerging technologies on the battlefield **Poole's Index to Periodical Literature** William Isaac Fletcher, Mary Poole, 1901 **Seeing Through the Grief** Rosemary K.M. Sword, Philip G. Zimbardo, 2024-04-04 When we experience a great loss our despair can be so intense that we get stuck oftentimes facing backwards reliving painful experiences that may leave us feeling stranded in the past We can find ourselves living day to day on autopilot going through the motions while in the back of our minds we might think we don't deserve to be happy anymore When we try to look at the future whatever plans we had made prior to our loss now seem impossible to achieve If this sounds familiar Time Perspective Therapy TPT is designed to help it provides simple tools to turn your perspective from dark to light from negative to positive This book dives deep into the many facets of grief from depression and caregiver stress to reestablishing relationships that may have fallen to the wayside and making plans for your new and different future Through real life intimate stories of those who have suffered loss and grown from the experience and easy to do exercises it is designed to help you learn how TPT can help you cherish the past enjoy the present move toward a new and brighter future and live a fulfilling meaningful life **Banking** ,1949 *Producers Versus Capitalists* Tony Allan Freyer, 1994 This mid Atlantic region is intended to serve as a federal system in miniature offering opportunities for comparative analysis

Contemporary Chinese Graphic Design Practice Yun Wang,2025-01-09 Drawing from a rich body of archival documents case studies and interviews this book explores the ways in which graphic designers in China sought to establish graphic design as a profession and discipline from the 1980s to the present day Yun Wang traces the impact of cultural economic and social conditions on China s developing design industry in a period of rapid transformation focusing on Beijing Guangzhou and Shenzhen as industry centres From the influence of the newly implemented reform and opening up policy in 1978 to membership of the World Trade Organization in 2001 and international events such as the 2008 Beijing Olympics Wang maps the increased demand for design talent and the evolution of a creative industry This book provides a critical and extensively researched narrative of how graphic design developed locally and regionally through practice in education and within the publishing landscape and pays particular attention to the ways in which designers in different cities in the People s

Republic of China intersected with international networks Including material from interviews with over 50 designers and other stakeholders archival research into graphic work design journals and exhibition catalogues and 100 illustrations and photographs throughout this book provides an in depth exploration of graphic design developments in recent decades It also features personal and institutional accounts in addition to the author s unique insight and reflections on the growing design industry in contemporary China *Building Feminist Movements and Organizations* Lydia Alpízar Durán, Noël D.

Payne, Anahi Russo, 2008-02-29 The struggle for the advancement of women s rights and gender equality globally is impossible without strong women s organizations and movements to provide leadership and momentum But what does a strong women s organization look like And what does it take to create effective and sustainable women s movements This groundbreaking collection of essays by activists from all corners of the globe explores what it means to be an influential women s organization and what it takes to build the kinds of movements needed to transform women s lives From how to build successful participatory democratic processes and implement shared leadership models to lessons on overcoming internal organizational divisions the case studies in this collection focus not only on the what but also the how of movement building Those concerned with how to effect sustainable change will find not only much food for thought but also an abundance of creative ideas and innovative strategies served up with a uniquely feminist twist *Key to the City* Sara C. Bronin, 2024-10-01 An eye opening exploration of one of the little known levers that controls our world zoning codes and a call to arms for using them to improve American society at every level Zoning codes dictate how and where we can build housing factories restaurants and parks They limit how tall buildings can be and where trees can be planted They have become the most significant regulatory power of local government ultimately determining how we experience our cities Yet zoning remains invisible In *Key to the City* legal scholar and architect Sara C Bronin examines how zoning became such a prevailing force and reveals its impact and its potential for good Outdated zoning codes have maintained racial segregation prioritized cars over people and enabled great ecological harm But as Bronin argues once we recognize the power of zoning we can harness it to create the communities we desire and deserve Drawing on her own experience leading the overhaul of Hartford s zoning code and exploring the efforts of activists and city planners across the country Bronin shows how new codes are reshaping our cities from Baltimore to Chicago Las Vegas to Minneapolis and beyond In Boston a law fought for by a passionate group of organizers farmers and beekeepers is transforming the city into a haven for urban farming In Tucson zoning codes are mitigating the impacts of climate change and drought proofing neighborhoods in peril In Delray Beach Florida a new code aims to capture and maintain the town s colorful spirit through its architecture With clarity and insight Bronin demystifies the power of an inscrutable organizing force in our lives and invites us to see zoning as a revolutionary vehicle for change In *Key to the City* she puts forward a practical and energizing vision for how we can reimagine our communities **Federal Title VI Enforcement to Ensure Nondiscrimination in Federally Assisted Programs** United
