**Landforms** LernerClassroom Editors,2008-01-01 **LANDFORMS TEACHING GUIDE** **Hands-On Science and Technology for Ontario, Grade 1** Jennifer E. Lawson,2020-07-29 Experienced educators share their best classroom tested ideas in this teacher friendly activity based resource The grade 1 book is divided into four units Needs and Characteristics of Living Things Materials Objects and Everyday Structures Energy in Our Lives Understanding Earth and Space Systems **STAND OUT COMPONENTS** custom written for the Ontario curriculum uses an inquiry based scientific and technological approach **TIME SAVING COST EFFECTIVE FEATURES** includes resources for both teachers and students a four part instructional process activate action consolidate and debrief enhance an emphasis on technology sustainability and personalized learning a fully developed assessment plan for assessment for as and of learning a focus on real life technological problem solving learning centres that focus on multiple intelligences and universal design for learning UDL land based learning activities and Makerspace centres access to digital image banks and digital reproducibles Find download instructions in the Appendix of the book **Children's Internet Search** Elizabeth Foss,Allison Druin,2022-05-31 Searching the Internet and the ability to competently use search engines are increasingly becoming an important part of children s daily lives Whether mobile or at home children use search interfaces to explore personal interests complete academic assignments and have social interaction However engaging with search also means engaging with an ever changing and evolving search landscape There are continual software updates multiple devices used to search e g phones tablets an increasing use of social media and constantly updated Internet content For young searchers this can require infinite adaptability or mean being hopelessly confused This book offers a perspective centered on children s search experiences as a whole instead of thinking of search as a process with separate and potentially problematic steps Reading the prior literature with a child centered view of search reveals that children have been remarkably consistent over time as searchers displaying the same search strategies regardless of the landscape of search However no research has synthesized these consistent patterns in children s search across the literature and only recently have these patterns been uncovered as distinct search roles or searcher types Based on a four year longitudinal study on children s search experiences this book weaves together the disparate evidence in the literature through the use of 9 search roles for children ages 7 15 The search role framework has a distinct advantage because it encourages adult stakeholders to design children s search tools to support and educate children at their existing levels of search strength and deficit rather than expecting children to adapt to a transient search landscape **The Best of the Whiteboard Blog** Danny Nicholson,2011-02-15 The Whiteboard Blog was set up in December 2007 as a way of sharing ideas to support teachers using their interactive whiteboards in the classroom As well as interactive whiteboards it also covers other educational technologies that would be of interest to teachers such as digital storytelling and other web 2 0 tools This book contains the best articles from over three years of the blog and is packed with

ideas to make the most of your interactive whiteboard in the classroom
