Psychopathy Unmasked Rasmus Rosenberg Larsen, 2025-06-17 Why our fascination with psychopaths is scientifically wrongheaded and how the criminal justice system has misused the controversial science of psychopathy Psychopathy is a widely acknowledged personality disorder associated with callous unemotional traits

and antisocial behaviors Psychopathic persons are described as dangerous predators incapable of empathy and moral intuition and while they are believed to make up only around 1 percent of the general population forensic experts claim they are disproportionately responsible for the majority of violent crimes Today psychopathy assessments are being widely used in the legal system to inform a variety of judicial decisions In *Psychopathy Unmasked* Rasmus Rosenberg Larsen provides a critical rebuttal of psychopathy and its legal use scrutinizing central claims about the diagnosis that have traditionally served to justify its role in the criminal justice system It is estimated that hundreds of thousands of offenders undergo a psychopathy assessment each year in North America This book surveys and discusses contemporary developments in psychopathy research where studies have consistently shown that psychopathic persons contrary to mainstream beliefs are not meaningfully more dangerous than or psychologically different from ordinary non psychopathic criminals Based on these disqualifying findings Larsen argues that we should end the use of psychopathy assessments in the legal system

The Healing Virtues Duff R. Waring, 2016-01-21 *The Healing Virtues* explores the intersection of psychotherapy and virtue ethics with an emphasis on the patient's role within a healing process It considers how the common ground between the therapeutic process and the cultivation of virtues can inform the efforts of both therapist and patient The ethics of psychotherapy revolve partly around what therapists should or should not do as well as the sort of person that therapists should be e.g. empathic prudent compassionate respectful and trustworthy Contemporary practitioners have argued for therapist virtues that are relevant to assisting the patient's efforts in a healing process But the ethics of a therapeutic dialogue can also revolve around the sort of person the patient should be Within this book Duff R. Waring argues that there is a case for patient virtues that are relevant to dealing with the problems in living that arise in psychotherapy e.g. honesty courage humility perseverance The central idea is that treatment may need to build virtues while it ameliorates problems Hence the patient's work in psychotherapy can both challenge character strengths and result in their further development The book is unique in bringing the topic of virtue ethics to the psychotherapeutic encounter and will be of interest to psychotherapists philosophers and psychiatrists

Modelling the

Criminal Lifestyle Glenn D. Walters, 2017-11-24 This book offers Walters's latest evolution of criminal lifestyle theory It introduces the concept of criminal thought content to illustrate how the potential interplay between what offenders think and their thought processes can greatly aid our understanding of both crime and criminals In this new study on criminal behaviour Walters calls for criminological theory to be placed within a broader scientific context and provides us with several key models which embrace constructs from numerous important theories including the general theory of crime social cognitive and social learning theories general strain theory psychopathic personality theories of crime and labelling theory Another unique aspect of this work is that it places lifestyle theory within a larger scientific framework namely nonlinear dynamical systems theory or chaos Seven principles from chaos theory are used to explain relationships and processes central to lifestyle theory and Walters uses this to draw conclusions on what affects criminal decision making and desistance from crime Highly original and innovative in scope this book will be useful to practitioners and scholars of criminal justice
