**Manual of Romance Forensic Linguistics** Victoria Guillén-Nieto, Dieter Stein, 2025-06-02 It is evident that published serious science based work in Forensic Linguistics is predominantly written in English and focuses on casework from the English speaking world While the first aspect is understandable given that English serves as an international lingua franca in scientific discourse the second aspect presents a significant limitation for the field Should researchers assume that there is simply less crime in non English speaking areas of the world A more pertinent question might be What cultural disciplinary legal or legal cultural factors contribute to the lack of research in and on languages other than English In addition to addressing the underrepresentation of Romance languages in scientific publications related to forensic work the chapters in this handbook will also explore the reasons behind this unfortunate situation Designed to engage readers whether they are linguists legal professionals or simply interested individuals and to spark interest in Romance Forensic Linguistics this handbook follows three key objectives First we are committed to providing a comprehensive overview of the casework and research conducted in and on several Romance languages including Peninsular Spanish Catalan Brazilian Portuguese French Canadian French Italian and Romanian Second the chapters in this volume seek to understand why Forensic Linguistics has thrived more in some Romance speaking countries than in others Finally we aim to uncover the reasons for the slower development of Forensic Linguistics in regions where Romance languages are predominantly spoken

Documenting Forensic Linguistics in the African Context Monwabisi K. Ralarala, Russell H. Kaschula, Zakeera Docrat, Emmanuel Satia, Karien van den Berg, 2025-06-30 The field of forensic

linguistics which integrates the fields of language and the law is not only a necessity in Africa but also a lifeblood in the entire administration of justice. Hopefully the emergence of this field and the inroads it is bound to make on the multilingual and culturally diverse continent shall ameliorate the adverse effects of the African diaspora given the high density of languages and the polarity of its people. Notwithstanding the noble intentions of administrators of justice, the language and interpretation translation barriers which often hinder the desired results. This is not only prevalent in the criminal justice system but also rears its ugly head in civil trials. Awareness of such shortcomings must be heightened especially among presiding officers, legal practitioners and law enforcement officers. The series of books on Forensic Linguistics: Language and Law should not be for the preserve and benefit of scholars in this field but also be distributed and promoted among all for the benefit of the wider community especially in the legal field.

Advocate Babalo Metu, Also Acting Judge of the Eastern Cape Division and the Labour Court, Documenting Forensic Linguistics in the African Context breaks new ground in exploring these critical questions. Through 14 comprehensive chapters, leading scholars examine the intricate relationship between language and law in Africa's multilingual courtrooms. From police interview models to witness statement analysis, from authorship identification to the challenges of training forensic linguists, this volume offers unprecedented insights into the complexities of legal linguistics in African contexts. This groundbreaking work, an essential reading for legal practitioners, linguists, scholars and anyone interested in the intersection of language, law and justice in contemporary Africa, arrives at a crucial moment as forensic linguistics emerges as a vital field across Africa. Rich in both theoretical foundations and practical applications, it sets a new agenda for understanding how language shapes justice in multilingual multicultural societies.
