European Union Foreign and Security Policy Roland Dannreuther, 2004 This book examines the degree to which the European Union has responded as a coherent and strategic actor towards the developmental and security needs of its immediate neighbourhood in the post Cold War era

**European Foreign and Security Policy** Catherine Gegout, 2010-05-08 The European Union's EU Common Foreign and Security Policy CFSP stipulates that all member states must unanimously ratify policy proposals through their representatives on the EU Council Intergovernmentalism or the need for equal agreement from all member nations is used by many political scientists and policy analysts to study how the EU achieves its CFSP However in *European Foreign and Security Policy* Catherine Gegout modifies this theory arguing instead for analyses based on what she terms constrained intergovernmentalism Gegout's theory of constrained intergovernmentalism allows for member states in particular France Germany and the United Kingdom to bargain with one another and to make rational decisions but also takes into account the constraints imposed by the United States the European Commission and the precedents set by past decisions Three in depth case studies of CFSP decision making support her argument as she examines the EU position on China's human rights record EU sanctions against Serbia and EU relations with NATO

**The European Union in the Security of Europe** Steve Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment In this new and comprehensive guide to the EU's role in security since the end of the Cold War the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region However the Union's rhetorical ambitions and commitments continue to outstrip its capabilities and it lacks both a common conceptualisation of security and a meaningful shared strategic culture Drawing extensively on primary sources the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities With the EU capacity for enlargement slowing this text

**The Middle East Peace Process and the EU** Taylan Özgür Kaya, 2012-12-20 EU policy makers have in the past decade endeavoured to formulate a substantial redefinition of the organisation s international ambitions Attempting to carve out a new role as a key foreign and security policy actor in international politics the EU has been involved in peace negotiations across the globe Here Taylan Ozgur Kaya looks at how this is enacted with particular reference to the Middle East peace process Expanding its political diplomatic economic and security role in the region the EU whilst still being the junior partner to the US has increasingly played a more conspicuous role in the attempts to resolve or at least mediate the Israeli Palestinian conflict Bearing this in mind Kaya examines to what extent the EU manages to live up to its self image as a key player in conflict resolution and crisis management in the region and beyond With the financial and diplomatic future of Europe ever more in the spotlight this book will appeal both to researchers of the Peace Process and to policy makers

particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia's repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general

**EU Foreign Policy and Hamas** Adeeb Ziadeh, 2017-10-20 Shortly after the overwhelming victory of Hamas in the 2006 parliamentary and municipal elections civil war broke out in the Gaza Strip between members of the two factions Hamas and Fatah The EU along with the US UN and Russia not only gave its support to Fatah against Hamas but also imposed a tough siege on the Hamas government in an attempt to force it to accept the Quartet's political conditions described by Hamas leaders as unfair and impossible Many observers are convinced that the EU's behaviour in this matter has been unreasonable and has conflicted with the EU's own democratic beliefs and values This book sheds light on the EU's policies in Palestine mainly from 2003 2013 and provides a thorough examination of the inconsistencies and paradoxes in the EU discourse towards Hamas and the determinants underlying such contradictions It explores the reasons behind the EU labelling the Hamas a terrorist organization and discusses why the EU has boycotted its democratically elected body since 2006 Significantly the book looks at whether the EU jeopardized its reputation and contravened its core normative values and objectives democracy promotion human rights the rule of law and fundamental freedoms by such a categorisation of Hamas Exploring the EU's policy towards Hamas is vital for understanding how the relationship between the EU and the rest of the Islamists in the Middle East is perceived as it enables both sides to have a cognitive basis upon which to construct better relations This book based upon a vast spread of primary EU documents and interviews will therefore be a valuable resource for those studying the Arab Israeli conflict Political Islamic movements the Middle East Peace Process and anyone with an interest in European Union Foreign Policy

the world to relate to them This book presents a dynamic combination of theory and field research and is an iconoclastic tour de force of studies in democracy Policy makers think tanks and development practitioners may be particularly be interested in this book because it is about action rather than mere ideas and processes It demonstrates how social movements can introduce and strengthen equality inclusion accountability and the free flow of information These elements in turn can contribute to the acculturation of freedom and social justice in the developed world just as much as in the developing world

**European Foreign Policy in an Evolving International System** N. Casarini,C. Musu,2007-08-09 European Foreign Policy in an Evolving International System provides the reader with an updated assessment of European Foreign Policy fifteen years after Maastricht The contributions analyze the level of policy convergence achieved by EU member states in crucial areas and regions of the world *The European Union's Democratization Agenda in the Mediterranean* Michelle Pace,Peter Seeborg,2013-09-13 Democracy promotion in the Middle East and North Africa MENA remains a central pillar of the foreign policy the European Union EU Rather than concentrating on the relations between the incumbent authoritarian regimes and the opposition in the relevant countries and on the degree to which these relations are affected by EU efforts at promoting democracy human rights and the rule of law an outside in approach this collection of articles inverts the focus of such relationships and attempts to look at them inside out While some contributions also emphasise the outside in axis given that this continues to be analytically rewarding the overarching thrust of this book is to provide some empirical substance for the claim that EU policy making is not unidirectional and is influenced by the perceptions and actions of its targets Thus the focus is on domestic political changes on the ground in the MENA and how they link into what the EU is attempting to achieve in the region Finally the self representation of the EU and its lack of a clear regional role is discussed This book was published as a special issue of Democratization

**Diplomacy and Security Community-Building** Niklas Bremberg,2015-09-16 This book contributes to the ongoing debate in IR on the role of security communities and formulates a new mechanism based analytical framework It argues that the question we need to ask is how security communities work at a time when armed conflicts among states have become significantly less frequent compared to other non military threats and trans boundary risks e g terrorism and the adverse effects of climate change Drawing upon recent advances in practice theory the book suggests that the emergence and spread of cooperative security practices ranging from multilateral diplomacy to crisis management are as important for understanding how security communities work as more traditional confidence building measures Using the EU Spain and Morocco as an in depth case study this volume reveals that through the institutionalization of multilateral venues the EU has provided cooperative frameworks that otherwise would not have been available and that the de territorialized notion of security threats has created a new rationale for practical cooperation between Spanish and Moroccan diplomats armed forces and civilian authorities Within the broader context this book provides a mechanism based framework for studying regional organizations as security community building institutions and

by utilizing that framework it shows how practice theory can be applied in empirical research to generate novel and thought provoking results of relevance for the broader field of IR This book will be of much interest to students of multilateral diplomacy European Politics foreign policy security studies and IR in general
