Leadership is not rocket science. The daily tasks of managers revolve mostly around numbers, statistics, competition and ultimately success. What we often forget is that a big aspect of leadership relies on managing relationships. Many see this as an unnecessary burden at best. So what could be better than being able to reach into a box of psychological tricks and swiftly finish off disagreements or completely avoid conflict? I am afraid that is too easy. If you want to be successful and retain competent employees for the long term you would be well advised to stay away from

such gimmicks Those who lead people have a responsibility they are responsible for treating their employees with decency That leaves no room for cheap tricks or power games      Weekly World News ,1990-04-10 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub [www weeklyworldnews com](http://www.weeklyworldnews.com) is a leading entertainment news site
