*The Death Algorithm and Other Digital Dilemmas* Roberto Simanowski, 2018-12-04 Provocative takes on cyberbullshit smartphone zombies instant gratification the traffic school of the information highway and other philosophical concerns of the Internet age In *The Death Algorithm and Other Digital Dilemmas* Roberto Simanowski wonders if we are on the brink of a society that views social political and ethical challenges as technological problems that can be fixed with the right algorithm the best data or the fastest computer For example the death algorithm is programmed into a driverless car to decide in an emergency whether to plow into a group of pedestrians a mother and child or a brick wall Can such life and death decisions no longer be left to the individual human In these incisive essays Simanowski asks us to consider what it means to be living in a time when the president of the United States declares the mainstream media to be an enemy of the people while Facebook transforms the people into the enemy of mainstream media Simanowski describes smartphone zombies or smombies who remove themselves from the physical world to the parallel universe of social media networks calls on Adorno to help parse Trump's tweeting

considers transmedia cannibalism as written text is transformed into a postliterate object compares the economic and social effects of the sharing economy to a sixteen wheeler running over a plastic bottle on the road and explains why philosophy has become the most important element in the automotive and technology industries *The Future of the Book in the Digital Age* Bill Cope, Angus Phillips, 2006-12-31 With contributions from some of the world's leading authorities this publication considers the future of the book in the digital age As more books are published than ever before this timely publication addresses a range of critically important themes relating to the book including the present and future for publishing libraries literacy and learning in the information society In the early 1990s the printed word appeared to be facing a terminal crisis threatened from all sides by new media and other forms of entertainment Subsequently the book has proved to be resilient in the face of these challenges confounding the predictions of those who saw its replacement whilst digital technology is providing mechanisms that enhance our ability to produce and distribute printed books New developments such as the growth of self publishing and print on demand and initiatives from major players such as Amazon and Google mean that the printed book is in the middle of great changes Chapters by leading experts in the field of publishing studies and information science A broad range of perspectives on key issues such as print on demand and digital publishing Contributions from around the world Rethinking Virtual Places Erik M. Champion, 2021-11-30 How would the humanities change if we grappled with the ways in which digital and virtual places are designed experienced and critiqued In *Rethinking Virtual Places* Erik Malcolm Champion draws from the fields of computational sciences and other place related disciplines to argue for a more central role for virtual space in the humanities For instance recent developments in neuroscience could improve our understanding of how people experience store and recollect place related encounters Similarly game mechanics using virtual place design might make digital environments more engaging and learning content more powerful and salient In addition Champion provides a brief introduction to new and emerging software and devices and explains how they help hinder or replace our traditional means of designing and exploring places Perfect for humanities scholars fascinated by the potential of virtual space *Rethinking Virtual Places* challenges both traditional and recent evaluation methods to address the complicated problem of understanding how people evaluate and engage with the notion of place **Creating Tomorrow's Schools Today** Richard Gerver, 2010-04-08 Drawing on the incredible story of Grange Primary School Gerver argues that our education system no longer works for today's generation of learners **From Inquiry to Academic Writing** Stuart Greene, April Lidinsky, 2011-07-06 Academic writing is a conversation a collaborative exchange of ideas to pursue new knowledge *From Inquiry to Academic Writing* A Text and Reader demystifies cross curricular thinking and writing by breaking it down into a series of comprehensible habits and skills that students can learn in order to join in The extensive thematic reader opens up thought provoking conversations being held throughout the academy and in the culture at large Read the preface *(Dis)Orienting Media and Narrative Mazes* Julia Eckel, Bernd Leiendecker, Daniela Olek, Christine

Piepiorka, 2014-03-15 Dis Orientation appears to be a phenomenon that is connected to media in numerous respects today finding your way in the world often means finding your way with the help of as well as within media which in turn creates new virtual realms of dis orientation This book deals with recent media technologies and structures navigation devices databases transmediality and unconventional narrative patterns narrative complexity plot twists non linearity using the ambivalent concept of dis orientation as a shared focus to analyse various phenomena of contemporary media thereby raising overarching questions about current mediascapes Media and Culture with 2013 Update Richard Campbell, Christopher R. Martin, Bettina Fabos, 2012-02-20 Today s media landscape is changing faster than ever and students are experiencing these developments firsthand Media Culture pulls back the curtain on the media and shows students what all these new trends and developments really mean giving students the deeper insight and context they need to become informed media critics The 2013 Update also includes the must cover events and trends students need to know to become informed media consumers and critics from social media s influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions and what the News Corp phone hacking scandal means for journalism to the continued growth of television streaming and apps and the advent of tablet only newspapers Read the preface Media and Culture Richard Campbell, Christopher R. Martin, Bettina Fabos, 2011-02-23 It s no secret today s media landscape is evolving at a fast and furious pace and students are experiencing these developments firsthand While students are familiar with and may be using the latest products and newest formats they may not understand how the media has evolved to this point or what all these changes mean This is where Media and Culture steps in The eighth edition pulls back the curtain and shows students how the media really works giving students the deeper insight and context they need to become informed media critics

**Knowledge Games** Karen Schrier, 2016-06-15 Are games the knowledge producers of the future Imagine if new knowledge and insights came not just from research centers think tanks and universities but also from games of all things Video games have been viewed as causing social problems but what if they actually helped solve them This question drives Karen Schrier s Knowledge Games which seeks to uncover the potentials and pitfalls of using games to make discoveries solve real world problems and better understand our world For example so called knowledge games such as Foldit a protein folding puzzle game SchoolLife which crowdsources bullying interventions and Reverse the Odds in which mobile game players analyze breast cancer data are already being used by researchers to gain scientific psychological and humanistic insights Schrier argues that knowledge games are potentially powerful because of their ability to motivate a crowd of problem solvers within a dynamic system while also tapping into the innovative data processing and computational abilities of games In the near future Schrier asserts knowledge games may be created to understand and predict voting behavior climate concerns historical perspectives online harassment susceptibility to depression or optimal advertising strategies among other things In addition to investigating the intersection of games problem solving and crowdsourcing Schrier

examines what happens when knowledge emerges from games and game players rather than scientists professionals and researchers This accessible book also critiques the limits and implications of games and considers how they may redefine what it means to produce knowledge to play to educate and to be a citizen      **Kevin Costner, America's Teacher** Ludovic A.
