**Reflections on Theoretical Issues in Argumentation Theory** Frans H. van Eemeren, Bart Garssen, 2015-08-08 This volume presents a selection of papers reflecting key theoretical issues in argumentation theory. Its six sections are devoted to specific themes including the analysis and evaluation of argumentation argument schemes and the contextual embedding of argumentation. The section on general perspectives on argumentation discusses the trends of empiricalization contextualization and formalization offers descriptions of the analytical and evaluative tools of informal logic and highlights selected principles that argumentation theorists do and do not agree upon. In turn the section on linguistic approaches to argumentation focuses on the problem of distinguishing between explanation and argument while also elaborating on the role of verbal indicators of argument schemes. All essays included in this volume point out notable recent developments in the study of argumentation.

**The Argument Writing Toolkit** Sean Roday, 2015-07-16 In order for students to write effective arguments they need to read good arguments. In this practical book you will find out how to use mentor texts to make writing instruction more meaningful authentic and successful. Author Sean Roday demonstrates how you can teach middle school students to analyze the qualities of effective arguments and then help them think of those qualities as tools to improve their own writing. You will learn how to introduce high interest topics to students to get them interested and engaged in argument writing. Teach students to look at multiple sides of an issue and critically evaluate evidence to construct informed defensible arguments. Make argument writing an interactive student driven exercise in which students pursue their own writing projects. Use mentor texts to help students learn the core concepts of argument writing and apply those skills across the curriculum. The book is filled with examples and templates you can bring back to the classroom immediately as well as an annotated bibliography which links the concepts in this book to the corresponding Common Core State Standards. **Upsetting Composition Commonplaces** Ian Barnard, 2014-10-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates *Upsetting Composition Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing
